

B1 MASTERY — CLASS 37 CONV — Conversational Teacher

Session 37/44 · 1h50min · Block 1 (Conv goes FIRST in this session) · IMMERSIVE MODEL — 4 long blocks

Date: ___/___/2026 · Attending: ___/___

Today's focus: oral application of B1 Book M4 — *The Third Conditional — What Would You Have Done?*. Form: **IF + past perfect ("had" + participle) + WOULD/COULD/MIGHT + HAVE + participle**. Used for past events that did NOT happen and their hypothetical past consequence ("If I had studied, I would have passed"). Brief preview of the MIXED form ("If I had studied, I would work here today" — past condition, present consequence) — full treatment in CI 38. The Grammar Teacher formalizes the form in the second block of this session.

Virtue: FORTITUDE v2 day 2 of 5 (block stays open, CI 36–40).

Phrase of the Day: *"Fortitude day two — name the past you can't change, say what you would have done, and carry the lesson out loud into next week."*

BLOCK 1 — OPENER — 10 min

(1 min) Welcome + frame

> *"Welcome to CI 37 of 44. Today is Module 4 of the B1 Book — Third Conditional — What Would You Have Done? Previous class opened Module 3 Deduction and opened the FORTITUDE block. Virtue: FORTITUDE — day TWO of five. Block stays open."*

(2 min) Phrase of the Day — on the board (already written)

PHRASE OF THE DAY — CL 37 CONV
"Fortitude day two — name the past you can't
change, say what you would have done, and
carry the lesson out loud into next week."

Read once slowly. Cohort echoes 2×. Quick gloss: *"The third conditional is the grammar of post-mortems. You name something that DIDN'T happen in the past — 'If I had sent the email Monday' — and you name the consequence that ALSO didn't happen — 'I would have caught the bug before launch'. The probability is zero — past events can't change. So why use it? Because in any professional review, this is HOW you extract the lesson. Fortitude day 2: today we open old wounds — past projects, past calls, past mistakes — name them out loud, and turn them into something you carry forward. By the end of the simulation, every one of you will have done a 3-person post-mortem with eight third conditional sentences."*

(2 min) 60-sec mystery — fast diagnostic

> *"60 seconds. Each of you names ONE thing the Grammar Teacher's pase from the previous class flagged for fixing today — 'must to be', past deduction missing 'have', 'don't must'. Go."*

Pick 3 students at random. If any asks about Final results: *"Coordination handles results. Focus on what comes next."* Note who did not bring homework.

(3 min) Warm-up — standing third-conditional speed round

Everyone stands in a circle. You give a fact from the past; the next student says ONE complete third conditional sentence flipping it. Move fast — 8 prompts in 3 minutes.

"You didn't send the proposal Monday." → "If I had sent the proposal Monday, the client would have signed Tuesday."
"The team didn't review the deck." → "If the team had reviewed the deck, we would have caught the typo."
"Andres didn't show up to the standup." → "If Andres had shown up to the standup, we would have aligned on the priority."
"The dev branch wasn't tested." → "If the dev branch had been tested, we wouldn't have shipped the bug."
"You didn't take the early flight." → "If I had taken the early flight, I would have made the kickoff."
"Maria didn't read the brief." → "If Maria had read the brief, she would have asked better questions."
"The contract wasn't signed by Friday." → "If the contract had been signed by Friday, we would have started the work Monday."
"You didn't ask for help." → "If I had asked for help, I would have finished the report on time."

No corrections yet — just temperature. Note in your head who hesitated.

(2 min) Bridge to today's content

> *"Today's content is M4 — only the speaking side. The Grammar Teacher formalizes the form in the next block. My job: get the third conditional out of your mouth, full sentence, both halves, in a real workplace post-mortem — and the most expensive error is forgetting one of the THREE pieces: 'IF' + 'HAD' +*

BLOCK 2 — CONTENT OF THE DAY — 40 min

(5 min) Mini-talk — third conditional in real workplace dialogue

Talk standing, board behind you. Model the form out loud.

> **Third conditional in real work dialogue — one form, two halves, one preview. The form. IF clause: 'IF' + subject + 'HAD' + past participle. 'If I had sent the email Monday'. NOT 'If I would have sent', NOT 'If I sent' — that's second conditional. The IF half always uses HAD + participle, no exceptions. RESULT clause: 'WOULD HAVE' + past participle. 'I would have caught the bug.' Alternatives: 'could have' for past possibility, 'might have' for partial certainty — same form, different shade of meaning. Putting it together: 'If I had sent the email Monday, the client would have signed Tuesday.' Both halves are about the PAST. Both are hypothetical. The probability is zero — the past is the past. Why we use it: post-mortems. Lesson-extraction. Extracting the rule of what to do next time from the call that didn't happen this time. PREVIEW for next class — the MIXED third conditional. Same IF clause about the past — 'If I had taken the job in Bogotá' — but the result clause flips to the PRESENT — 'I would live there today'. Past cause, present consequence. We'll work it deeply next class. Today's focus: straight third conditional, both halves in the past. Fortitude day 2: name the past, name the lesson, no excuses.**

Demo on the board:

THIRD CONDITIONAL — STRAIGHT (today)
IF + had + participle , WOULD HAVE + participle

"If you had sent it Monday, I would have approved it Tuesday."
IF + HAD + sent WOULD HAVE + approved

Variants: could have / might have (same form, different certainty)

NEVER: "If I would have sent" . "If I sent"
(that's 2nd cond — different module)

MIXED (preview for Cl 38)
IF + had + participle , WOULD + base verb
"If I had taken the job, I would live there today."
past cause present consequence

(15 min) Guided practice in pairs — 12 IF-stem cards

Hand each pair the deck of 12 IF-stem cards. They take turns: one reads the IF half (past fact flipped), the other completes the result half in WOULD HAVE / COULD HAVE / MIGHT HAVE. Then swap and reverse — the second reads the result, the first builds the IF. Walk between pairs and physically correct on the spot — especially "If I would have" and missing "have".

Card deck (one IF-stem per card):

1. "If the QA team had tested the release..."
2. "If you had asked the client before the demo..."
3. "If the PM had updated the timeline..."
4. "If I had remembered the password..."
5. "If the deck had been ready Friday..."
6. "If Andres had joined the kickoff call..."
7. "If the budget had been approved in Q1..."
8. "If I had pushed back on the deadline..."
9. "If the contract had included the SLA..."
10. "If the team had taken the offsite seriously..."
11. "If you had documented the API change..."
12. "If I had hired the senior engineer in January..."

Coach softly while you walk: "If I would have" (Spanish interference), missing "have" in the result, wrong participle ("had ran" instead of "had run"), past simple in the IF half ("If I sent it" instead of "If I had sent it"). Note errors with NAMES in your notebook. Phrase of the Day INSERTION #2: "Name the past you can't change. Fortitude day 2 — carry the lesson, don't carry the regret."

(15 min) Free pair derivation — "post-mortem of a real call you got wrong"

Same pairs, no cards. Each student picks ONE real professional call they got wrong this year — a hire, a project decision, a missed deadline. The partner asks them to articulate it in third conditional. Build 4 sentences each, 8 per pair.

Board (write before class):

FREE PAIR DERIVATION — 4 SENTENCES EACH (15 min)

Pattern per speaker:

- Pick 1 real call from this year that didn't work out
- Build 4 third conditional sentences naming what you would have done differently
- Partner asks 1 clarifying question per sentence to push for specificity

Example:

Speaker: "If I had hired the senior engineer in January, we would have shipped the launch on schedule."

Partner: "And what would have happened to the team morale?"

Speaker: "If we had shipped on schedule, the team would have had momentum into Q2."

Requirements per pair:

- 4 third conditional sentences per person (8 total)
- At least 2 with WOULD HAVE
- At least 1 with COULD HAVE (past possibility)
- At least 1 with MIGHT HAVE (partial certainty)
- At least 1 NEGATIVE consequence ("...I wouldn't have...")
- Fortitude day 2: name the lesson at the end — 1 sentence that starts "Next time I will..." (this is the carry-forward, not the regret)

Rotate partners twice during this 15 min so each student speaks to at least 3 different people. Walk and coach. Listen for "If I would have" — flag it instantly. Phrase of the Day INSERTION #3: *"The past you can't change is the lesson you carry forward. Fortitude day 2 — out loud, into next week."*

(5 min) Whole-cohort share + 1 live correction

Two strong pairs perform 1 third conditional sentence each + the "Next time I will..." carry-forward in front of the group (90 sec each). After the second pair, pick ONE error you heard during the 30-min pair work and correct it live with the cohort echoing 2× — your priority is "If I would have" if it appeared. Then: *"Stand up — we move to the simulation."*

BLOCK 3 — LIVE APPLICATION — 45 min — "PROJECT POST-MORTEM REVIEW"

ONE activity, no format change for 45 minutes. Rotating triads. Every student plays every role.

(3 min) Setup

> *"Stand. You're running a post-mortem on a project that went off the rails — a launch that slipped two weeks, a client that didn't renew, a feature that shipped broken. You'll work in triads — three roles, rotating. FACILITATOR opens the post-mortem and runs the questions. ENGINEER gives 4 third conditional sentences explaining what would have changed if the technical call had been different. PM gives 4 third conditional sentences on the project-side decisions — scope, timeline, communication. So the round is 8 third conditionals total per round. OBSERVER tracks 3 things on the grid I'm handing out: how many sentences have BOTH halves correct (HAD + participle / WOULD HAVE + participle), how many drop into 'If I would have' (auto fail), and whether the speaker NAMED THE LESSON in a 'Next time I will...' carry-forward. Three rounds. Each round 12 minutes. Every student plays every role exactly once. Fortitude day 2 — name the past, carry the lesson, no excuses."*

Hand out printed observer grid (prepared before class):

OBSERVER GRID – CL 37 CONV – PROJECT POST-MORTEM REVIEW

FACILITATOR / ENGINEER / PM (this round): _____ / _____ / _____

Mark each third conditional sentence below as:

✓ = both halves correct + lesson named in carry-forward

✗ if = "If I would have" (Spanish interference – auto fail)

✗ hav = missing "HAVE" in result half ("I would caught it")

✗ par = wrong participle ("had ran" / "had wrote")

✗ les = no lesson / carry-forward at the end

Sentence 1: _____ → ✓ / ✗ if / ✗ hav / ✗ par / ✗ les

Sentence 2: _____ → ✓ / ✗ if / ✗ hav / ✗ par / ✗ les

Sentence 3: _____ → ✓ / ✗ if / ✗ hav / ✗ par / ✗ les

Sentence 4: _____ → ✓ / ✗ if / ✗ hav / ✗ par / ✗ les

Sentence 5: _____ → ✓ / ✗ if / ✗ hav / ✗ par / ✗ les

Sentence 6: _____ → ✓ / ✗ if / ✗ hav / ✗ par / ✗ les

Sentence 7: _____ → ✓ / ✗ if / ✗ hav / ✗ par / ✗ les

Sentence 8: _____ → ✓ / ✗ if / ✗ hav / ✗ par / ✗ les

One sentence to the speakers at the end:

(~40 min) 3 rounds × ~12 min — rotating triads

Round 1 (12 min): Triads form. Roles assigned. FACILITATOR sets the project — "the Q3 launch slipped two weeks". ENGINEER and PM alternate, 8 sentences total. Observer marks the grid. You circulate triad by triad — coach the form when wrong, kill "If I would have" instantly ("*redo: 'If you HAD'*"), push for the "Next time I will..." carry-forward when it gets dropped.

Round 2 (12 min): Rotate. New FACILITATOR, new ENGINEER, new PM, new OBSERVER. New project — "the client didn't renew the contract". Same 8-sentence structure. By now the cohort knows the rhythm — push for SPEED. Full sentences in 8 seconds. Push for at least 2 COULD HAVE and 1 MIGHT HAVE per round (not just default WOULD HAVE).

Round 3 (12 min): Final rotation. Every student has now played every role. Push for COMPLEXITY: at least one sentence per speaker must use the NEGATIVE consequence ("...I wouldn't have shipped the bug"), and the FACILITATOR must close each speaker's turn with the "Next time I will..." extraction.

Phrase of the Day INSERTION #4 during round 2 transition: "*Fortitude day 2 — the past is the past. The lesson is what you carry forward, out loud, into next week.*"

(2 min) Cohort close

One strong triad demos 90 sec in front of the group — FACILITATOR opens, ENGINEER gives 2 sentences, PM gives 1, observer reports back including which lessons were named. Applause.

> *"*Fortitude day two. Three more days in the block. Each day, name the past, name the lesson, carry it forward — that's the muscle.*"*

BLOCK 4 — CLOSE — 15 min

(4 min) Error paper recap — 4 most common errors today

Write on the board (anonymous; NAMES only in your personal notebook):

ERROR PAPER – CL 37 CONV

1. ■ "If I would have sent it Monday..." → ■ "If I HAD sent it Monday..." (IF clause = HAD + participle, NEVER "would have")
2. ■ "I would caught the bug." → ■ "I would HAVE caught the bug." (result half = WOULD HAVE + participle – "have" is not optional)
3. ■ "If you had ran the test..." → ■ "If you had RUN the test..." (irregular participle – "run", not "ran")
4. ■ "If I sent the email Monday, I would catch it." → ■ "If I HAD sent the email Monday, I would HAVE caught it." (mixing tenses – that's 2nd conditional shape, not 3rd)

Cohort echoes the 4 corrections in chorus 1×. Note the named version in your notebook for the audit report — do NOT say names aloud.

(3 min) Phrase of the Day close

1. "*Phrase from memory — one student.*" Pick one at random.
2. "*Now paraphrase what FORTITUDE DAY 2 means for one real lesson you will carry into next week.*" Pick another at random.

(4 min) Homework — explained out loud

HOMEWORK CL 37 CONV – DUE: BEFORE NEXT CLASS CL 38, 7:00 AM
TIME: 30-45 min – NOT fragmented.

(1) WRITING – 10 min – 10 third conditional sentences about REAL professional moments this year that didn't go your way.
6 with WOULD HAVE (clear consequence)
2 with COULD HAVE (past possibility)
2 with MIGHT HAVE (partial certainty)
Examples:

"If I had pushed back on the deadline, we would have shipped clean code."

"If the PM had updated the timeline, the client could have planned better."

"If I hadn't taken the offsite seriously, I might have missed the strategy shift."

RULE: zero "If I would have". Both halves must include the right form. After each, add 1 line: "Next time I will..." – the lesson extracted. Hand in on paper next class.

(2) AUDIO eyes closed – 3 min – Record yourself doing a 90-second post-mortem on ONE real project this year. 5 third conditional sentences + 1 "Next time I will..." lesson at the end. Fortitude day 2: name the past, carry the lesson. Label: B1-CONV-37.

(3) LISTENING – 10 min – Find a YouTube clip of a startup post-mortem, sports analysis, or political commentary (any source). Note 5 third conditional or "would have" sentences you hear and write the full sentence. Mark which are STRAIGHT (both halves past) and which are MIXED (past cause, present consequence – preview of CL 38). Bring the notes on paper.

RULE: Not fragmented. No "I didn't have time."

(4 min) PASE A GRAMMAR — CL 37 — fill + deliver

Fill the sheet titled "PASE A GRAMMAR — CL 37" in front of the cohort so they see the handoff is real:

PASE Conv → Grammar – Cl 37

3 form gaps observed in Conv today (literal):

1. [literal error] – student: [name]
2. [literal error] – student: [name]
3. [literal error] – student: [name]

Most common patterns today:

- "If I would have" – the single most expensive error in M4 (Spanish interference from "si hubiera"). Needs explicit drill that the IF clause is ONLY "HAD + participle".
- Missing "have" in the result half ("I would caught" instead of "I would have caught")
- Wrong irregular participle ("had ran" / "had wrote" / "had sended")
- Mixing 2nd and 3rd conditional ("If I sent it, I would catch it") – past simple instead of past perfect in the IF half
- Avoidance of COULD HAVE / MIGHT HAVE in favor of default WOULD HAVE – need explicit prompts

Note: Cohort arrives at your block with the straight third conditional in their mouth and the MIXED form previewed. Formalize the form from the book (B1 Book M4 pages 27-40: Guide 1 "The Third Conditional (Straight)" p.29 with the verbatim form table (IF + HAD + participle / WOULD HAVE + participle); Examples p.30 with ~21 sentences; Exercises p.31 fill-the-verb; Guide 2 "The Third Conditional (Mixed)" p.33 – the result clause flips to plain conditional; Examples p.34; Exercises p.35; Guide 3 "The Conditionals Compared" p.37 – all conditionals in one table; Examples p.38; Exercises p.39).

Schedule: Cl 38 = M5 Could Have / Should Have – The Perfect Modals + "I wish / If only" for regret (B1 Book p.41+). FORTITUDE day 3. Cl 44 = Final (last 2h), calendar fact only.

Signed: Conversational Teacher

Hand it physically to the Grammar Teacher before the second block of this session begins.

Close (verbatim)

> *"See you next class Cl 38. Today opened M4 Third Conditional on the oral side and ran day TWO of FORTITUDE. Today you did 8 post-mortem sentences each — named the past, said what you would have done, extracted the lesson. Next class is day THREE of fortitude — and Module 5 — Could Have / Should Have — the perfect modals and the regret expressions 'I wish' / 'If only'. Homework due before next class, 7 AM. Any question about evaluations or the Final goes to coordination — not to me, not to the Grammar Teacher."*
