

B2 PM AMINA — CLASS 24 — Phase 4 chunked practice (day 4/8 — week 1 day 4 — PILLAR 3 chunk no paper)

Session 24/36 · 2h (18:45–20:45) · ~85% standing

Date: ___/___/2026 · Attending: ___/5

Phase 4 — chunked practice (CI 21-28) — day 4/8 — week 1 day 4 — PILLAR 3

Virtue: PRUDENCE v2 day 4 of 5 (block CI 21-25)

Phrase of the Day: *"Now — and, with the prudence this fourth day demands — let me put it plainly: the third pillar completes the case before the close — make it stand on its own first."*

Countdown: ~12 classes / ~24h to Final (CI 36)

BLOCK MAP (120 min)

| # | Min | Block | Stand? |

|---|---|---|---|

| 1 | 5 | Mystery + public reading (no-deliveries CI 23) | YES |

| 2 | 4 | Why today (Phase 4 d4 — PILLAR 3 stand on its own first) | sit |

| 3 | 4 | Phrase of the Day | YES |

| 4 | 6 | Vocalization — 4 new tongue twisters | YES |

| 5 | 5 | VATS — PRUDENCE v2 day 4 (no premature chaining) | sit |

| 6 | 5 | Recap express — architecture (CI 21/22/23 ■, PILLAR 3 today) | sit + chorus |

| 7 | 7 | B2 Vocab SET #17 (closing the body, total 102) | sit |

| 8 | 2 | Mental refresh ~90 sec — silent HOOK + P1 + P2 chain | sit / eyes closed |

| 9 | 5 | Plan today: extract + rehearse PILLAR 3 + STAND ON ITS OWN FIRST | sit |

| 10 | 3 | Peer Teacher slot (CI 23 oral error) | YES |

| 11 | 45 | **PILLAR 3 CHUNK NO PAPER — extract 5 + alone 10 + pairs 12 + mini-audience 15** | YES / mixed |

| 12 | 5 | Phrase close + paraphrase check | YES |

| 13 | 5 | Error paper live (memory errors of PILLAR 3 chunk) | YES |

| 14 | 6 | Recap chunk PILLAR 3 + announce CI 25 (CTA tomorrow) | sit |

| 15 | 11 | STRICT homework (HOOK + 3 PILLARS chained audio + 2 improvements + 102 review) + board photo | sit |

| 16 | 2 | Day close + CI 25 reminder (CTA) | YES |

Bring to class: Mystery envelope · Error Paper sheet · stopwatch · personal notebook (3 literal errors + NAMES) · memorization-notes sheet · students bring full C3 script (used ONLY in extract; then face down).

1. MYSTERY HOMEWORK + PUBLIC READING — 5 min — STAND UP

Sealed envelope:

HOMEWORK MYSTERY CHECK — CL 24

In 60 seconds, recite OUT LOUD — FROM MEMORY — your chunk PILLAR 2 (the chunk you memorized in CI 23).
~1 min. NO paper. No "let me see my notes."

Listen for:

- Did the PILLAR 2 chunk live in your mouth overnight?
- Did the connection forward (toward PILLAR 3 — which we add today) feel ready?
- Did 2 B2 words from Set #16 surface naturally?

GO! (this is the bridge into today's chunk — PILLAR 3.)

Envelope → 1 min silence → 2-3 at random (+15 EP if from memory without returning to paper). Then **1 min public nominal reading** of who did NOT submit the 4 components CI 23. Note strike. Accountability — not evaluation.

2. WHY TODAY — 4 min — SIT

> *Mystery + public reading: accountability — 18 days to Final.*

> *Phrase of the Day says it cleanly: 'the third pillar completes the case before the close — make it stand on its own first.' [Insertion #1]*

> *Vocalization — 4 new tongue twisters.*

> *CI 21-23 already gave you THREE chunks in your mouth: HOOK (CI 21), PILLAR 1 (CI 22), PILLAR 2 (CI 23). Each ~1 min, from memory, rehearsed alone, in pairs, in front of the mini-audience.*

> *TODAY, day 4, ONE big move:*

> *(1) ~90-second MENTAL refresh: in silence, chain HOOK + P1 + P2 in your head. We do NOT say it aloud today. The mental chain just checks the three chunks are still alive in you.*

> *(2) MEMORIZE chunk PILLAR 3 — your THIRD argument pillar, ~1 min. Extract it from your script. Read it silently 3-4 times. Close the paper. Recite from memory. Rehearse alone, with a partner, then in front of the mini-audience — NO paper in the rehearsal.*

> *The PRINCIPLE today: STAND ON ITS OWN FIRST. PILLAR 3 closes the body. If it falls, the whole monologue lands weak. So today we memorize it ALONE — not next to HOOK + P1 + P2 — so it sustains as its own piece. The chaining starts CI 26.*
> *Academic B2 Set #17: 6 more words — closing argument + bridge to CTA. 102 B2 words.*
> *Today is PRUDENCE day 4 — second-to-last day of the prudence block. Tomorrow CI 25 day 5 = CTA chunk + first-week close. CI 26 opens TEMPERANCE v2 + chaining.*
> *NO checkpoint today. C4 = end of CI 28, 4 sessions out, 3-minute video from memory.*
> *Now we begin.**

3. PHRASE OF THE DAY — 4 min — STAND UP

Write on the board (before class):

PHRASE OF THE DAY — CI 24
"Now — and, with the prudence this fourth day
demands — let me put it plainly: the third pillar
completes the case before the close — make it stand
on its own first."

1. Read 2x with marked intonation (rise on "now", long pause at dashes, full emphasis on "completes the case", firm resolute drop on "stand on its own first"). Chorus 3x imitating intonation.
 2. "'Now' is a CONTINUITY marker — Layer 6 — fitting because today CONTINUES Phase 4 with the fourth chunk in four sessions. 'With the prudence this fourth day demands' is PRUDENCE — today's virtue, day 4. 'Let me put it plainly' is the bridge: formal→casual on the page AND in the mouth. And the meaning is the exact day: the THIRD PILLAR — the one we memorize today — COMPLETES the case before the CLOSE — before the CTA tomorrow — and to do that, it must STAND ON ITS OWN FIRST — memorized alone, rehearsed alone, before we ever chain it next week. We don't chain today. We build a piece that can stand."
 3. "Sit. Notice the phrase AND how I use it today — on the day the third pillar learns to stand on its own."
-

4. VOCALIZATION DRILL — 6 min — STAND UP

4 new tongue twisters (not CI 6-23):

1. /p/+k/: "Pacific picnic packers picked perfect picnic packets; perfect picnic packets Pacific packers pick."
2. /θ/+r/: "Three thoughtful thinkers thoroughly threshed three thousand thorny thistles."
3. /st/+sp/: "The standing speaker spoke straight to stubborn spectators; stubborn spectators stood silent."
4. /kl/+kr/: "Clear-cut conclusions crystallize cleanly when careful claims close the case."

Per twister (~90 sec): slow 2x → chorus slow 3x → fast 2x → chorus fast 3x. The 4th is a phonetic echo — "crystallize" and "close the case" — Set #17 + Phrase of the Day.

5. VATS — PRUDENCE v2 DAY 4 — 5 min — SIT

CI 24 = PRUDENCE v2 day 4 (block CI 21-25; standard B2 cohort rotation, Diana 22/05).

Prudence = practical judgment, seeing long-term within today's step, no shortcuts, choosing the sustained path even if less showy.

> *Prudence today is the wisdom to NOT chain prematurely. HOOK is in your mouth. PILLAR 1 is in your mouth. PILLAR 2 is in your mouth. The temptation today is to test all three by saying them aloud together — and then bolt PILLAR 3 onto the end. We are NOT doing that today. The prudent move is to keep PILLAR 3 alone — memorize it, rehearse it alone, make it sustain 60 seconds as its own piece — before we ever chain it. Say: where in YOUR life — work, family, decisions — have you rushed to chain things before each piece could stand on its own, and what did it cost you? And: how does that lesson apply to PILLAR 3 today?*

Pairs (2 min). 2 share + paraphrase their own prudence sentence (3 min).

Insertion #2: "That is the phrase — 'make it stand on its own first.'"

6. RECAP EXPRESS — 5 min — SIT + CHORUS

Board — 6 layers visible: Anchors (CI 6) / Connectors (CI 7) / Q&A 5 patterns (CI 8) / Topic chunks (CI 9) / Discourse Markers + Intonation (CI 10) / Repetition + Paraphrasing (CI 11).

Board — full architecture (Phase 4 chunk progress):

MONOLOGUE ARCHITECTURE – Phase 4 chunks progress

HOOK (1 min) – ■ memorized Cl 21
PILLAR 1 of BODY (1-1.7 min) – ■ memorized Cl 22
PILLAR 2 of BODY (1-1.7 min) – ■ memorized Cl 23
PILLAR 3 of BODY (1-1.7 min) – ■ TODAY Cl 24
CALL TO ACTION (30-60 sec) – tomorrow Cl 25

THE 6 LAYERS still ride EACH chunk in isolation:

PILLAR 3 chunk needs:

- topic chunks (Layer 4) sustained 60 seconds
- 1-2 connectors backward (echoing P2)
- intonation that LANDS the close of the body
- 1 deliberate repetition for memory weight
- 1 B2 word from Sets #9-#16 or #17 placed clean
- bridge anchor ready for CTA tomorrow

> *“These six layers carried the WHOLE monologue in Phase 3. In Phase 4 they ride EACH chunk — even the isolated 60 seconds of PILLAR 3 today. The layers do not disappear because the chunk is short. They concentrate.”**

Drill (3 min): you name a layer (anchor / connector / topic chunk / discourse marker / intonation / repetition), 1 student AT RANDOM names how that layer works WITHIN HER chunk PILLAR 3 specifically (not in whole monologue — only in P3).

7. ACADEMIC B2 VOCAB SET #17 — 7 min — SIT

Board — write BEFORE class (6 NEW words, closing argument + bridge to CTA):

ACADEMIC B2 SET #17 (CL 24) – closing the body + bridging to CTA. USE in PILLAR 3 chunk today if it fits naturally; otherwise hold for chaining next week.

1. CULMINATE /kʌlˈmɪneɪt/ – culminar

"Pillar three culminates the case the body has been building since pillar one."

2. CONCLUDE /kənˈkluːd/ – concluir / cerrar con resolución

"We conclude the body in PILLAR 3 – the CTA is a separate move."

3. ENCOMPASS /ɪnˈkʌmpəs/ – abarcar / contener

"A strong PILLAR 3 encompasses what P1 and P2 did not have room to say."

4. CAPTURE /kæptʃər/ – capturar / fijar la idea

"Your PILLAR 3 chunk should capture, in 60 seconds, the closing weight of the argument."

5. DISTILL /dɪˈstɪl/ – destilar / reducir a la esencia

"Distill PILLAR 3 to its core – there is no room for filler in a memorized chunk."

6. CRYSTALLIZE /krɪˈstəlaɪz/ – cristalizar / asentar con claridad

"By the end of today, PILLAR 3 should crystallize in your mouth – no longer searching for it on the page."

Per word (~50 sec): pronounce 2x → cohort 2x → definition → example → 1 student AT RANDOM uses the word in 1 sentence about **how she will use the word in HER chunk PILLAR 3** (intentional bridge to central exercise).

Close (1 min): "102 B2 words total. Set #17 is the CLOSE-THE-BODY set: culminate, conclude, encompass, capture, distill, crystallize. You may use them in today's PILLAR 3 chunk IF they fit naturally — do NOT force them in. The chunk is closed text from your own script; Set #17 lives in chaining work next week and in PILLAR 3 refinements when you record audio tonight."

8. MENTAL REFRESH — HOOK + P1 + P2 silent — 2 min — SIT / EYES CLOSED

> *“Before we add the fourth chunk, ~90 seconds of mental check. In SILENCE, eyes closed if you want, chain in your head: HOOK → PILLAR 1 → PILLAR 2. We do NOT say it aloud today. We just confirm — are the three chunks I memorized this week still alive in me? If a piece feels shaky, note it mentally — we will not stop to fix it now, but you bring it back tonight in the homework. Today's work is PILLAR 3 alone.”**

Board reminder (visible the 90 sec):

MENTAL REFRESH (silent, ~90 sec)

- HOOK (Cl 21, ~1 min)
- PILLAR 1 (Cl 22, ~1 min)
- PILLAR 2 (Cl 23, ~1 min)

- chain in your head, NOT aloud
- check the three chunks are still living in your mouth
- note silently any chunk that feels shaky (work it tonight)
- NO interruptions, NO speaking

(You time 90 sec in absolute silence. At end: "Open. The three chunks are still there. Now we build the fourth.")

9. PLAN TODAY: MEMORIZE + REHEARSE PILLAR 3 + STAND ON ITS OWN FIRST — 5 min — SIT

> *"Day 4 of Phase 4. One thing matters in the next 45 minutes: each of you takes the PILLAR 3 chunk of YOUR monologue — your THIRD argument pillar, the one that closes the body — and you put it in your mouth from memory. You will read it silently 3-4 times from the script. Then you close the script. Then you rehearse alone, then with a partner, then in front of the mini-audience — without paper, ~60 seconds. The chunk lives in your mouth by the end of today's 45 minutes. No chaining today. PILLAR 3 stands alone first."*

Board — RULES:

CHUNK PILLAR 3 — CL 24 (PHASE 4, DAY 4)

PRINCIPLE: STAND ON ITS OWN FIRST

PILLAR 3 closes the body. If P3 falls, the monologue lands weak. Today we memorize P3 ALONE — not chained to HOOK / P1 / P2. The chaining is Cl 26-28.

EXTRACTION (5 min):

1. Open your script. Find PILLAR 3 — the THIRD pillar.
2. Read it SILENTLY 3-4 times. Notice structure inside (topic sentence + support + closing).
3. CLOSE the script. Place it face down.

INDIVIDUAL REHEARSAL (10 min):

Walk while you say it. Mouth on, paper off. ~60 sec per pass. 4-5 passes. If you stall, peek ONCE at the script, then close it and restart the chunk from the top.

PAIRS REHEARSAL (12 min):

Pair up. Student A says PILLAR 3 from memory (~60 sec). Student B listens (no paper, no notes). Then B gives:

- 1 thing that LANDED in P3 (idea, word, beat)
- 1 thing that felt SHAKY in the memorization

Switch. Then rotate pairs once.

MINI-AUDIENCE (15 min, ~3 min per student):

One student stands. Says PILLAR 3 from memory in front of the group (~60 sec). NO paper. Group listens, hands down. Brief acknowledgment, next. Teacher takes internal notes — NOT a grade.

YOU MAY NOT bring the script to the rehearsal. The script is for the 5-min extraction phase only. After that, paper goes face down for the next 40 min.

Insertion #3: *"Now — to put it plainly — the third pillar completes the case before the close, and today, with prudence, we make it stand on its own first."*

10. PEER TEACHER SLOT — 3 min — STAND UP

Pre-class: 1 oral error from Cl 23 (typically: PILLAR 2 chunk that ran short to 35 sec / forward chunk-connection broken / Set #16 mispronounced when reciting from memory). Assign peer teacher.

1. (15 sec) "Today's peer teacher is [name]."
2. (2.5 min) Explain + correct + chorus 2x. (Show how error sounds BAD in transition between chunks and CORRECT when fixed — useful for next 45 min.)
3. (15 sec) Applause.

11. PILLAR 3 CHUNK NO PAPER — 45 min — STAND UP / MIXED

> *"This is 45 minutes for ONE chunk: PILLAR 3 — your third argument pillar, ~60 seconds, from memory, no paper. Five minutes to extract from the script. Ten minutes alone walking and rehearsing. Twelve minutes with a partner who listens and gives one landed/one shaky. Fifteen minutes in the mini-audience where each of you says PILLAR 3 standing, mouth on, paper off. By 20:16, the third pillar lives in your mouth. Tomorrow CTA. Monday we start chaining."*

Setup (1 min)

- Scripts open on each student's table (ONLY for the 5-min extraction).
- Stopwatch VISIBLE only for you.
- MEMORIZATION NOTES sheet on your knee.
- Clear space: students can walk during individual rehearsal.

Extraction (5 min) — SIT

- Each student opens HER physical script (returned post-C3).
- Locates PILLAR 3.
- Silent reading 3-4 times.
- **You circulate:** verify each correctly identified PILLAR 3 (not P2 or CTA). If anyone doubted, help her mark it on the paper.
- At 4 min: "30 seconds left. Last silent read."
- At 5 min: "Close. Paper face down. Stand up."

Individual rehearsal (10 min) — STAND UP / WALKING

- Each student walks the room reciting PILLAR 3 from memory, low-mid voice.
- ~60 sec per pass. 4-5 passes in 10 min.
- **You observe (DO NOT interrupt):** who peeks? who stays at 35 sec? who sustains 60 sec fluid?
- If anyone stalls 3+ times in a row: 1 peek authorized, then close script and restart from top.
- At 9 min: "30 seconds. One more pass."
- At 10 min: "Stop. Find your partner."

Pairs rehearsal (12 min) — STAND UP / SIT

- 5 students → 2 pairs + 1 trio rotating (5 min per round, rotation at 6 min so trio rotates).
- **Protocol:**
 - Student A says PILLAR 3 from memory (~60 sec). Student B listens WITHOUT paper, WITHOUT notes.
 - B returns: 1 thing that LANDED + 1 thing that felt SHAKY (NO advice, NO "I would have said").
 - Roles switch.
 - At 6 min: rotate pairs.
- **You circulate:** verify feedback is "landed/shaky", not advice; verify NO paper.

Mini-audience (15 min) — 1 STANDING / 4 SITTING OBSERVING

- **Pre-assigned order** (see pre-flight). ~3 min per student (includes setup and brief applause).
- **Per student:**
 - ~20 sec: setup (speaker settles STANDING at front, breathes, "go" said by you).
 - ~60 sec: PILLAR 3 from memory, NO paper, projected voice.
 - ~10 sec: group thanks (short applause), next speaker settles.
- **NO Q&A; today** (Q&A; is for full monologues, not isolated chunks).
- **You note in internal sheet per student** (raw text, no grade — feeds Phase 4 tracking, NOT communicated):

STUDENT: _____
REAL TIME PILLAR 3 CHUNK: ____ sec

Said from memory without peek? (yes / 1 peek / multiple)
Sustained ~60 sec or cut short? (____ sec if cut)
Internal pillar connection fluid or broken?
Pronunciation clear of Sets #9-#17 words that appeared?
Body-close intonation (vs. mid-pillar)?
Internal structure sustained (topic + support + closing)?
Felt like autonomous piece or tried to "jump" to CTA?

INTERNAL NOTE (not communicated):

(NO grade. NO "passes / fails." SOLELY raw observation. Feeds Phase 4 tracking, not C4.)

Close of block (3 min)

> *"Five students. Five chunks of PILLAR 3 in this room, from memory, in 45 minutes. The third pillar now stands on its own in each of your mouths. Tomorrow CTA. Monday we start chaining HOOK + P1 + P2 + P3 + CTA. Hold this chunk steady tonight in the homework."*

12. PHRASE CLOSE + PARAPHRASE CHECK — 5 min — STAND UP

1. (1 min) "Today's phrase from memory — WITH the intonation. The day the third pillar learned to stand on its own deserves its phrase said back." — 1 at random.
2. (1 min) "Now PARAPHRASE — same idea, said and OPENED a second way." — another at random. **Insertion #4.**

3. (3 min) Each student in 1 sentence: what was hardest about HER PILLAR 3 memorization (e.g. "I kept cutting mid-pillar" / "Set #17 didn't come on the first pass" / "I wanted to jump to CTA instead of closing the body"). Teacher confirms — process, NOT grade.

13. ERROR PAPER LIVE — PILLAR 3 CHUNK MEMORY ERRORS — 5 min — STAND UP

Typical PILLAR 3 chunk errors (adjust to real):

1. ■ "Um... my third point is... uh... also about ____"
→ ■ "Pillar three – and this is where the body crystallizes: ____." (clean B2 opening with Set #17 word, not filler)
2. ■ "And then... yeah... that's basically my third pillar"
→ ■ "To distill it: ____ That concludes the body – the close moves to the call to action." (B2 body close with Set #17, no "yeah / basically")
3. ■ "Constituen the final part of my argument"
(stress/agreement)
→ ■ "ENCOMPASSES the final part of my argument."
(Set #17 + 3rd person singular – clear pronunciation)
4. ■ (Student looks at ceiling, peeks at paper, restart 3x)
→ ■ Restart ONCE from top, low voice, patience:
"Pillar three..." and continue. (Memorization:
1 peek authorized, not infinite)

Read paper anonymously. Cohort corrects 2x — this time **saying which of the 6 layers failed in HER chunk PILLAR 3** (topic chunk dropped, backward connector absent, flat intonation, deliberate repetition missed, B2 word forced, etc.).

14. RECAP CHUNK PILLAR 3 + ANNOUNCE CI 25 — 6 min — SIT

Recap of day (2 min)

TODAY CL 24 – CHUNK PILLAR 3 – CLOSED.

- HOOK (Cl 21) ■
- PILLAR 1 (Cl 22) ■
- PILLAR 2 (Cl 23) ■
- PILLAR 3 (Cl 24) ■ – TODAY
- CTA (Cl 25) – TOMORROW
- Set #17 (culminate / conclude / encompass / capture / distill / crystallize) added to your B2 bank – 102 words total.
- Prudence day 4 – second-to-last day of the block.
Tomorrow day 5 closes prudence + adds CTA + closes
Phase 4 week 1.
- No chaining today. PILLAR 3 stands on its own first.

Announce CI 25 (2 min)

CL 25 – TOMORROW
PHASE 4, DAY 5 OF 8 – CHUNK CTA + CLOSE OF WEEK 1

→ CHUNK CTA: 30-60 seconds – the bridge back to casual, the action ask, the close of the whole monologue. We memorize it the same way as PILLAR 3: extract, silent read, close paper, rehearse alone / pairs / mini-audience. NO paper in rehearsal.

→ CLOSE OF FIRST WEEK OF PHASE 4: all 5 chunks (HOOK + P1 + P2 + P3 + CTA) will live separately in your mouth by tomorrow night.

→ Cl 26 = chaining starts: 2 chunks together. Cl 27 = 3 chunks. Cl 28 = full monologue + C4 (3-min memorized video to coordination).

→ Last day of PRUDENCE block tomorrow. Cl 26 = new virtue block (TEMPERANCE v2).

→ Weekend homework will be heavier – loads 5-chunk practice for chaining work.

VATS day 4 close (2 min)

> *"Prudence is finishing the chunk before chaining it. Tomorrow we add the fifth piece. Monday we start putting them together. Tonight you protect what you built today — one piece at a time."*

15. STRICT HOMEWORK — 4 components — DUE BEFORE NEXT CLASS Cl 25, 6:00 PM — 11 min — SIT

HOMEWORK – DUE: BEFORE NEXT CLASS Cl 25, 6:00 PM
TOTAL TIME: 45-60 min
4 COMPONENTS

(1) HOOK + 3 PILLARS FROM MEMORY – chunk by chunk, NOT chained (15 min):
Take a blank sheet. For each chunk (HOOK, PILLAR 1, PILLAR 2, PILLAR 3), recite from memory to your notebook (silently, mentally – or low voice if alone): ~1 min each chunk. If you stumble, 1 peek at script, close, restart. DO NOT chain them yet. Today they are separate.

(2) AUDIO CHAINED HOOK -> P1 -> P2 -> P3 – 3 TIMES (15-20 min):
Record yourself saying, NOW chained, HOOK + P1 + P2 + P3 (still WITHOUT CTA – CTA is tomorrow). ~3-4 min in a row per take. 3 takes. The 3rd must sound more fluid than the 1st. Keep script CLOSED during recording. If you stumble, mentally note where and continue.

(3) LISTEN + 2 IMPROVEMENTS (10-15 min):
Listen to the 3rd take. Identify 2 concrete improvements for tomorrow (e.g.: "connector between P2 and P3 sounds forced" / "Set #17 ENCOMPASSES comes out 'enkompas'" / "P3 chunk runs short at 45 sec, needs the close"). Write the 2 improvements on a sheet – tomorrow we work on CTA chunk and on these 2 improvements.

(4) REVIEW 102 WORDS (5-10 min):
Sets #1-#17 (102 B2). Mark the 15 that still cross-wire. Tomorrow chorus at CTA chunk opening.

EXPLICIT: audio (2) is the first real chaining of the week – BRIDGE to next week's chaining work. NOT including CTA yet (added tomorrow). 3 takes – the 3rd matters most. Script CLOSED during recording.

Public reminder: "4 components by 6 PM Friday. Name read if missing. 2 strikes = coordination. Tonight the four chunks chain in audio for the first time. Tomorrow CTA + close of week 1."

Board photo (Phrase + Set #17 + full architecture + PILLAR 3 plan + Cl 25 announcement) taken before close.

16. DAY CLOSE + CI 25 REMINDER — 2 min — STAND UP

> **"Day 4 of Phase 4 — PILLAR 3 stands on its own. Tomorrow CTA — and the five chunks live in your mouth separately. Homework tonight chains the first four in audio: HOOK → P1 → P2 → P3, three takes. Friday by 6 PM. Now we go."**

DELIVERABLES TO COORDINATION

- ☐ Printed report filled
 - ☐ Photo of Mystery envelope
 - ☐ Nominal list of no-deliveries CI 23
 - ☐ Photo of the board — Phrase + B2 Set #17 + Full architecture with progress + PILLAR 3 chunk rules + CI 25 announcement
 - ☐ MEMORIZATION NOTES per student (internal — feeds Phase 4 tracking, NOT communicated)
 - ☐ Anonymous Error Paper (physical)
 - ☐ Personal notebook page: 3 literal errors + NAMES (today PILLAR 3 chunk memory errors)
 - ☐ Alert: students at 2 strikes
 - ☐ Alert: anyone who did NOT sustain the chunk from memory (cut < 30 sec / multiple peeks / could not close paper)
 - ☐ Count of Phrase of the Day natural insertions
-

NOTAS INTERNAS (no leer en clase)

- **Fase del Roadmap:** CI 24 = Fase 4 día 4/8 — chunk PILLAR 3 (~1 min) sin papel. Principio "STAND ON ITS OWN FIRST" — no encadenar hoy. Roadmap 72h líneas 120-129.
- **Virtud:** CI 21-25 = PRUDENCIA v2 (rotación estándar cohorte B2, Diana 22/05). Hoy día 4. Mañana día 5 (último del bloque). CI 26 abre TEMPLANZA v2 + encadenamiento.
- **Próximas:** CI 25 = chunk CTA + PRUDENCIA día 5 + Set #18 (108) + cierre semana 1 Fase 4. CI 26 = encadenamiento HOOK+P1 + TEMPLANZA v2 día 1. CI 28 = monólogo completo + C4.
- **GoldList ELIMINADO** desde 14/05. Solo Frase del Día.
- **Hoy NO es checkpoint** — C4 = fin CI 28 (video 3 min de memoria).
- **Supuesto (verificar):** "1 chunk por sesión CI 21-25 siguiendo orden monólogo (HOOK/P1/P2/P3/CTA)" es interpretación Heiiu del Roadmap "1-2 chunks por sesión" — elegido 1/día para asegurar que cada pieza se asiente sólida antes de la siguiente. El audio encadenado HOOK→P1→P2→P3 en tarea es **PUENTE** al encadenamiento formal de CI 26 — diagnóstico, no performance.
