

B1 MASTERY — CLASS 36 GRAMMAR — Grammar Teacher

Session 36/44 · 1h50min · Block 2 (after Conv) · IMMERSIVE MODEL — 4 long blocks · ~85% standing

Date: ___/___/2026 · Attending: ___/___

Module: B1 Book M3 — *Deduction* — *Expressing Suppositions* (p.21–26)

Virtue: FORTITUDE v2 day 1 of 5 — **BLOCK OPENS TODAY** (Cl 36–40)

Phrase of the Day: "On day one of fortitude we say what we believe with the right shape — must is certainty, might could may is partial, can't is the opposite — and we keep talking even when we are not sure."

BLOCK MAP — 4 LONG BLOCKS (110 min)

| # | Min | Block | Function |

| ---|---|---|---|

| 1 | 10 | **OPENER** | Welcome + FORTITUDE day 1 OPENING + Cl 36 of /44 + Phrase of the Day + 60-sec mystery (Conv pase) + standing certainty-line warm-up + bridge |

| 2 | 40 | **CONTENT OF THE DAY** | M3 FORM: mini-talk (8 min) + walking transformation 5 zones certainty line (15 min) + pair drilling clue → deduction (10 min) + podium reinforce perfect-modal pull-out (7 min) |

| 3 | 45 | **LIVE APPLICATION** | ONE immersive activity — "INFERENCE BRIEFING ROOM" — rotating groups infer what happened, observer grid, live board errors |

| 4 | 15 | **CLOSE** | Error paper recap + Frase close + Tarea + PASE A CONV — CL 37 |

Bring to class: B1 Book open at p.21-26 · Phrase of the Day already written on the board · "PASE A CONV — CL 37" blank sheet · Conv's pase (received before this block) · the card sets described below · 5 floor labels for the certainty line · printed observer grid for the briefing room · 3 printed "incident clue packs" · Error Paper sheet · personal notebook (errors + NAMES, never shared aloud) · clock.

CARDS YOU PREPARE BEFORE CLASS (tight, reusable across cohorts)

Make on letter-size paper, big enough to read across the room (~5cm letters). Keep in a plastic envelope after class — reuse next cohort.

SET A — CLUE CARDS (~12 cards, each is a fact the student turns into a deduction):
"His car is here." · "Lights are off."
"She is wearing a coat." · "He's smiling."
"The door was locked." · "The mug is warm."
"There is no email reply." · "She left at 5."
"His mic is muted." · "The deck is open."
"The receipt is signed." · "His chair is empty."

SET B — DEDUCTION VERB CARDS (~10 cards):
"must" · "might" · "may" · "could"
"can't" · "mustn't" · "must have" · "might have"
"could have" · "can't have"

5 FLOOR LABELS for the certainty line:
"100% YES — MUST (very certain)"
"60% YES — MIGHT / MAY / COULD (partial)"
"0% — CAN'T / MUSTN'T (very certain opposite)"
"100% YES — PAST — MUST HAVE"
"0% — PAST — CAN'T HAVE"
→ Tape in a STRAIGHT LINE on one wall — students walk down the line to the right level of certainty.

Total: ~22 cards + 5 floor labels + 3 incident packs. Prep time ~25 min first cohort. After that: reuse forever.

BLOCK 1 — OPENER — 10 min

(1 min) Welcome + frame

> *"Welcome to Cl 36 of 44. The Conv block just opened M3 — Deduction. My job now is the FORM. Virtue: FORTITUDE — day ONE of five. Block OPENS today. Previous class closed JUSTICE."*

(2 min) Phrase of the Day — on the board (already written)

PHRASE OF THE DAY — CL 36 GRAMMAR
"On day one of fortitude we say what we believe with the right shape — must is certainty, might could may is partial, can't is the opposite — and we keep talking even when we are not sure."

Read once slowly. Cohort echoes 2x. Quick gloss: *"Three levels of certainty in English. MUST = I'm very sure yes. MIGHT / MAY / COULD = I'm half sure. CAN'T = I'm very sure NO (CAN'T, not don't can). Fortitude day 1: we don't stay silent because we are unsure — we use the right verb for the level of certainty and we keep the conversation moving."*

(2 min) 60-sec mystery — receive Conv pase from this morning

> *"Read the pase from the Conv block — name 3 form gaps the Conversational Teacher flagged for me to formalize today. 60 seconds."*

Pick 3 students to read the 3 errors verbatim. If any asks about Final results: *"Coordination handles results. Focus on what comes next."* Note who did not bring homework.

(3 min) Warm-up — standing certainty echo

Two columns on the board. Call a clue out loud. The first student of each row runs and writes ONE deduction at the level you call (very sure / half sure / very sure opposite). Cohort verifies. 8 rounds in 3 minutes.

"His car is here." (very sure)
→ "He must be here."
"His car is here." (half sure)
→ "He might be here." / "He could be here."
"His car is here." (very sure opposite)
→ "He can't be away."
"The lights are off." (half)
→ "Nobody may be home."
"She is wearing a coat." (very sure)
→ "It must be cold."
"There is no reply." (half)
→ "He might be busy."
"The mug is warm." (very sure past)
→ "Someone must have made coffee."
"His mic is muted." (very sure opposite)
→ "He can't have heard the question."

Quick note as you erase: *"Notice — when the deduction is about now we use must / might / can't + BASE verb. When it's about the past we add HAVE + past participle. Same certainty levels, different time."*

(2 min) Bridge to today's content

> *"Today's content is M3 FORM: the three certainty levels (very sure / partial / very sure opposite), the present form (modal + base verb), the past form (modal + have + past participle), the 4 forbidden moves (no 'maybe' instead of the modal, no 'don't can', no double modal, no 'must' for opposite — use can't), and the listening trick to spot which level a colleague is using. Then we drill the form physically — 5 zones on a certainty line around the room — and we land it in a 45-minute inference briefing where you infer what happened from a clue pack. Stay standing."*

BLOCK 2 — CONTENT OF THE DAY — 40 min

(8 min) Mini-talk — three certainty levels + present and past

Stand at the board. Book p.23 open. Write or have pre-written:

M3 – DEDUCTION – FORM RULES (B1 Book p.23)

THREE LEVELS OF CERTAINTY – three verbs:

100% YES → MUST ("He must be sick.")
~50% YES → MIGHT / MAY / COULD ("He might be sick.")
100% NO → CAN'T / MUSTN'T ("He can't be sick.")

PRESENT – modal + BASE verb:

"He must be at the office."
"She might know the answer."
"It can't be true."

PAST – modal + HAVE + PAST PARTICIPLE:

"He must have arrived already."
"She might have called."
"It can't have been him."

CONTINUOUS (book note – common with TO BE):

"He must be playing soccer." (now)
"He must be sleeping." (now)
"He must have been working." (past)

THE 4 FORBIDDEN MOVES:

X "Maybe he is sick." (use the modal)
X "He don't can be at home." (no double aux)
X "He must can be sick." (no double modal)
X "He must not be sick." (for "100% NO" use
CAN'T, not mustn't –
mustn't = prohibition)

LISTENING TRICK – what level is your colleague?

hears "must" → they sound CONFIDENT, agree or
push back with evidence
hears "might / may / could" → they are GUESSING,
you can offer evidence to confirm
hears "can't" → they're RULING IT OUT, you can
give counter-evidence if you have it

Talk through it standing, mark each rule with your hand. Book p.23 verbatim quote: "We use verbs of deduction to express a supposition (something we think or believe). The verb depends on the certainty the speaker feels." Book p.23 verbatim note: "It is very common to use deduction with the verb 'to be'. We often use it in the continuous and perfect tenses." Book p.24 examples drilled out loud: "Horst is late. He must be sick. / Hamlet is sad. His father must have died. / It is raining today. We may arrive late. / Mike is here. He can't be sick. / Sam must have arrived last night. His car is here. / Theo knows the answer. He may have asked the teacher. / I hear music. The concert must have started. / The boys can't be playing soccer. I have their ball."

Phrase of the Day INSERTION #1: "Must is certainty, might could may is partial, can't is the opposite. Fortitude day 1 — we keep talking even when we are not sure."

(15 min) Walking transformation — 5 zones on a certainty line

Tape the 5 floor labels in a STRAIGHT LINE on one wall (or across the floor):

- 100% YES — MUST
- 60% YES — MIGHT / MAY / COULD
- 0% — CAN'T / MUSTN'T
- 100% YES — PAST — MUST HAVE
- 0% — PAST — CAN'T HAVE

Stand in the middle. Call a clue out loud + a time (now / past) + a level (sure / partial / sure-opposite). Students physically WALK to the zone that fits + say the full deduction sentence out loud as they arrive. If wrong zone or wrong tense, cohort calls "again" and they re-walk. 16 clues in 15 min, ~1 per minute.

Clue called → time + level → Right zone + right form

1. "His car is here." now / sure
→ MUST – "He must be here."
2. "His car is here." now / partial
→ MIGHT – "He might be here."
3. "His car is in the garage." now / sure-opp
→ CAN'T – "He can't have left."
4. "Tania finished her HW." past / sure
→ MUST HAVE – "Her mother must have helped her."
5. "I hear music." past / sure
→ MUST HAVE – "The concert must have started."
6. "His mic is muted." past / sure-opp
→ CAN'T HAVE – "He can't have heard the question."
7. "There is no reply." now / partial
→ MIGHT – "He might be in a meeting."
8. "The door is open." past / sure
→ MUST HAVE – "Someone must have entered."
9. "She is smiling." now / sure
→ MUST – "She must be happy."
10. "He is sleeping at noon." now / partial
→ MAY – "He may be sick."
11. "His chair is empty at 9 AM." now / partial
→ COULD – "He could be running late."
12. "My son's phone is dead." past / sure-opp
→ CAN'T HAVE – "He can't have called me."
13. "Lights off." now / sure-opp
→ CAN'T – "There can't be anyone inside."
14. "Receipt is signed." past / sure
→ MUST HAVE – "He must have approved it."
15. "His coat is wet." past / sure
→ MUST HAVE – "It must have rained."
16. "She's flying for Avianca." now / sure-opp
→ CAN'T – "She can't be an English teacher."

Coach: when someone goes to the wrong zone, don't say "wrong" — say "walk it again — what's the certainty level?" When form is right AND zone is right, cohort claps once. Note errors with NAMES in your notebook. Most common slip: "He don't can be here" or "Maybe he is here." Re-direct to the modal.

(10 min) Pair drilling — clue → deduction

Hand each pair: 6 clue cards (SET A) + 5 deduction verb cards (SET B). Pair work:

1. Student A picks a clue card and reads it: *"The mug is warm."*
2. Student B picks ONE deduction verb card and produces a full sentence at that level: *"Someone must have made coffee."*
3. Then A picks the SAME clue and challenges B to do a PARTIAL version: *"Someone might have just left."* (different modal, same clue)
4. Swap roles after every 2 clues. Burn through all 6 clues. Each pair must produce at least 2 PAST deductions ("must have / can't have / might have").

Walk and coach the FORM (modal + base for now, modal + have + past participle for past, never "maybe" instead of the modal). Call out one win publicly per pair. Phrase of the Day INSERTION #2: *"Must is certainty, might could may is partial, can't is the opposite. Fortitude day 1 — we keep talking."*

(7 min) Podium — reinforce the perfect modal pull-out

Draw a podium on the board (1st, 2nd, 3rd). Pick 3 strong students to come up one at a time. Each gets a PAST clue; produces the full past-deduction sentence; cohort confirms in chorus *"Confirmed!"* If they hesitate or get it wrong, the cohort gives the chorus correction.

1st (MUST HAVE):
"Sam's car is in the driveway and the engine is warm."
→ "Sam must have arrived a few minutes ago."

2nd (MIGHT HAVE):
"There's an empty plate on the table."
→ "Someone might have eaten lunch here."

3rd (CAN'T HAVE):
"My son didn't have his phone yesterday."
→ "He can't have called me yesterday."

Then one final chorus drill — call the present version of each clue, cohort responds with the PAST version in unison:

- > *"*Sam is at home."* (past) → "Sam must have arrived."*
- > *"*He's eating."* (past) → "He must have eaten."*
- > *"*She's calling."* (past, ruled out) → "She can't have called."*

Note: *"Stand up — we move to the simulation."*

BLOCK 3 — LIVE APPLICATION — 45 min — "INFERENCE BRIEFING ROOM"

ONE activity, no format change for 45 minutes. Rotating groups of 3-4. Every student plays every role.

(3 min) Setup

> *"You're running an INFERENCE BRIEFING ROOM. Groups of 3-4, rotating roles. Each group gets a CLUE PACK — 6 facts from a missing scenario (a project log gap, an email thread with two emails missing, a meeting that ended early). The BRIEFER reads the clues one at a time. The ANALYSTS take turns producing full deduction sentences — present OR past — at one of the three certainty levels. The OBSERVER marks each deduction on the grid — right modal for the level, right tense for the time, correct form (no 'maybe', no 'don't can'). Three rounds with three different clue packs. Each round 12 minutes. Every student plays every role exactly once. I will WRITE recurring errors on the side of the board live — when there are three on the board we stop and correct as a cohort."*

Hand out the 3 printed clue packs:

CLUE PACK A — PROJECT LOG GAP

1. The last entry in the log was at 4:47 PM.
2. The next entry is at 7:02 PM, by a different person.
3. The office WiFi was down between 5:00 and 6:30 PM.
4. The kitchen coffee machine was used at 5:30 PM.
5. Someone signed for a package at the reception at 5:45 PM.
6. Two laptops were left open in the meeting room.

CLUE PACK B — MISSING EMAIL THREAD

1. The vendor sent quote v1 on day 1.
2. The PM replied "we'll review and respond."
3. There is no email from days 2-4.
4. On day 5 the vendor sent quote v2, lower price.
5. The PM's calendar shows "vendor call" on day 3.
6. The contract was signed on day 6.

CLUE PACK C — MEETING ENDED EARLY

1. The meeting was scheduled 9:00-10:00 AM.
2. Three people walked in late, at 9:08.
3. The deck on screen jumped from slide 4 to slide 12.
4. The room was empty at 9:35.
5. Two coffee cups were left on the table.
6. The shared notes doc was last edited at 9:31.

Hand out printed observer grid (prepared before class):

OBSERVER GRID — CL 36 GRAMMAR — INFERENCE BRIEFING ROOM

Analyst name (this round): _____

Clue pack: _____

Mark each deduction below as:

✓ = right modal + right level + right tense
+ right form

X lvl = wrong certainty level (used MUST when the clue only allows MIGHT)

X tns = wrong tense (used base verb when past required)

X frm = bad form ("don't can" / "maybe" / double modal / "must not" instead of "can't")

X frg = fragment, not a full sentence

Round 1 — 8 deductions:

1: ____ 2: ____ 3: ____ 4: ____

5: ____ 6: ____ 7: ____ 8: ____

Round 2 — 8 deductions (must include 3 PAST):

1: ____ 2: ____ 3: ____ 4: ____

5: ____ 6: ____ 7: ____ 8: ____

Round 3 — 8 deductions (must include 2 CAN'T / CAN'T HAVE):

1: ____ 2: ____ 3: ____ 4: ____

5: ____ 6: ____ 7: ____ 8: ____

One sentence to the analyst at the end:

(~40 min) 3 rounds × ~12 min — rotating groups + live board errors

Round 1 (12 min): Groups form. Each group gets clue pack A. Briefer reads clues; analysts respond in 3 sec with full deductions; observer marks. You circulate and WRITE EVERY RECURRING ERROR on the side of the board as you hear it. When 3 errors are on the board, freeze — cohort corrects in chorus 2×, erase, continue.

Round 2 (12 min): Rotate roles. Groups switch to clue pack B. Push for at least 3 PAST deductions per group ("must have / might have / can't have"). Continue live board-error correction. Phrase of the Day INSERTION #3: *"Must is certainty, might could may is partial, can't is the opposite — past or present. Fortitude day 1."*

Round 3 (12 min): Final rotation. Groups switch to clue pack C. Push for at least 2 CAN'T / CAN'T HAVE per group — they avoid the negative deduction. By now they should be sharp. Slow down only for the most stubborn pattern you wrote on the board across the previous 2 rounds.

(2 min) Cohort close

One strong group demos 90 sec in front of the cohort — a 3-line inference covering 1 MUST + 1 MIGHT + 1 CAN'T. Applause. Phrase of the Day INSERTION #4: *"Must is certainty, might could may is partial, can't is the opposite. Fortitude day 1 — we keep talking even when we are not sure."*

BLOCK 4 — CLOSE — 15 min

(4 min) Error paper recap — 4 most common errors today

Write on the board (anonymous; NAMES only in your personal notebook):

ERROR PAPER — CL 36 GRAMMAR

1. ■ "Maybe he is sick."
→ ■ "He MIGHT be sick." / "He MAY be sick."
(use the modal — "maybe" is an adverb, not the deduction structure)
2. ■ "He must not be at home." (for "certainly not")
→ ■ "He CAN'T be at home."
(must not / mustn't = prohibition. For 100% NO certainty use CAN'T.)
3. ■ "He must arrived already."
→ ■ "He must HAVE arrived already."
(past deduction = modal + HAVE + past part.)
4. ■ "He don't can be sick."
→ ■ "He CAN'T be sick."
(modals never take do/don't — they are their own auxiliary)

Cohort echoes the 4 corrections in chorus 1×. Note the named version in your personal notebook for the audit report — do NOT say names aloud.

(3 min) Phrase of the Day close

1. *"Phrase from memory — one student."* Pick one at random.
2. *"Now use it about ONE real situation at work where you are not sure what happened — one MUST + one MIGHT + one CAN'T."* Pick another at random.

(4 min) Homework — explained out loud

HOMEWORK CL 36 GRAMMAR – DUE: BEFORE NEXT CLASS
Cl 37, 7:00 AM. TIME: 30-45 min – NOT fragmented.

(1) WRITING – 15 min – 9 deductions covering all
3 levels + present and past:
3 MUST (1 present, 1 past, 1 with TO BE
continuous: "must be doing")
3 MIGHT / MAY / COULD (1 present, 1 past,
1 with continuous)
3 CAN'T / CAN'T HAVE (1 present, 1 past,
1 ruling out a scenario at work)
Examples to copy the pattern (not the content):
"He must be reviewing the deck right now."
"She must have approved the invoice yesterday."
"They might be in the standup."
"He could have missed the deadline."
"She can't be in the office – her car isn't here."
"He can't have signed the contract – he was
on vacation."
RULE: never "maybe + verb" / never "must not"
for negative certainty (use CAN'T) / never
"don't can" / never "must arrived" (use must
HAVE arrived). Hand in on paper next class.

(2) AUDIO eyes closed – 3 min – Pick a real
workplace mystery (a colleague absent, a
decision you don't understand, an email you
didn't expect). Record 6 deductions about it:
2 MUST, 2 MIGHT, 2 CAN'T. Mix present + past.
Label: B1-GRAMMAR-36.

(3) LISTENING – 10 min – Find a YouTube clip of a
detective scene, a true-crime breakdown, or a
sports commentator predicting (1-2 min). Note
5 deduction modals you hear + write each full
sentence + mark the level. Bring on paper.

RULE: Not fragmented. No "I didn't have time."

(4 min) PASE A CONV — CL 37 — fill + deliver

Fill the sheet titled "PASE A CONV — CL 37" in front of the cohort so they see the handoff is real:

PASE Grammar → Conv – Cl 36 → Cl 37

3 conversational gaps observed in Grammar today
(literal):
1. [literal error] – student: [name]
2. [literal error] – student: [name]
3. [literal error] – student: [name]

Patterns to drill orally next class Cl 37:
- Which level they avoid (most often: CAN'T /
CAN'T HAVE – they don't trust the negative
deduction; they fall back into "I don't think
so")
- "Maybe + verb" instead of the modal – frequency
this cohort
- Past deduction without HAVE ("He must arrived")
- "Must not" used for "certainly not" instead of
CAN'T

Note: Today opened FORTITUDE block (day 1 of 5).
Source: B1 Book M3 – Deduction (p.21-26). Verbatim
cited: p.23 table of certainty / verb / example +
the continuous-and-perfect note. ~10 example
sentences from p.24 drilled.

Schedule: Cl 37 = M4 Third Conditional – Straight
+ Mixed (B1 Book p.27+). Cl 44 = Final (last 2h) –
calendar fact only.

Signed: Grammar Teacher

Hand it physically to the Conversational Teacher before the next session.

Close (verbatim)

> *See you next class CI 37. Today opened M3 — Deduction. Next class is M4 — Third Conditional (if + had + past participle, would have + past participle) from the same B1 Book. Today was day ONE of FORTITUDE. Final presentation is on CI 44 — calendar fact only — coordination handles that. Homework due before next class, 7 AM.*

DELIVERABLES TO COORDINATION

- [] Printed report filled
 - [] Photo of board (Phrase of the Day + 3 levels of certainty + present/past forms + Error Paper recap)
 - [] Photo/video: walking transformation 5-zone certainty line · podium for perfect modals · one group mid-briefing · cohort close demo
 - [] Stack of completed observer grids from the 45-min briefing room
 - [] PASE from Conv (archived) + PASE to Conv CI 37 (photo before delivery)
 - [] Anonymous Error Paper (physical)
 - [] List of students who did NOT bring homework (with NAMES)
 - [] Personal notebook page: 3 literal errors + NAMES
 - [] Count of Phrase of the Day natural insertions (target 4)
-

NOTAS INTERNAS (no leer en clase)

- **MODELO INMERSIVO (Diana 2026-06-18):** 4 bloques largos. Bloque 2 condensa walking 5-zonas + pair + podium en un solo flujo de 40 min sin parar. Bloque 3 es una sola simulación de 45 min con 3 clue packs rotativos.
- **Virtud:** CI 36-40 = FORTALEZA v2 — HOY DÍA 1 ABRE.
- **Módulo:** M3 del B1 Book, p.21-26 (Guía 1: Verbs of Deduction). Cita verbatim p.23 tabla certeza / verbo. Nota perfect/continuous citada literal. Ejemplos verbatim de p.24.
- **Trampa #1 a vigilar:** "Maybe he is sick" en vez del modal. Re-dirigir al modal sin avergonzar.
- **Trampa #2 a vigilar:** "must not" para "certainly not". El libro lista MUSTN'T como opción de 100% NO, pero en inglés moderno CAN'T es la forma viva — enseñar CAN'T como default y notar mustn't como existente.
- **Trampa #3 a vigilar:** past deduction sin HAVE ("He must arrived" → "He must have arrived").
- **Bloque ~85% de pie** — opener, content (walking + pair + podium), simulación entera. Cierre sentado.
- **Frase del Día insertions target: 4** (board + después de mini-talk + transición round 2 simulación + cohort close).
- **Cronograma:** CI 44 = FINAL PRESENTATION (últimas 2h del nivel — confirmado Diana 22/05). Anunciar SOLO como hecho de calendario.
- **Cohorte:** B1 Mastery. Sin mencionar profesores por nombre.
