1. MYSTERY HOMEWORK + PUBLIC READING — 5 min — STAND UP

Sealed envelope:

HOMEWORK MYSTERY CHECK — CL 22

In 60 seconds, say OUT LOUD the HOOK chunk of your monologue (the one you memorized for yesterday's audio task) — NO paper. If you stumble, start over once. Then say which 2 written improvements you wrote at home after listening to your own audio. And quickly: 3 of the 84 B2 words from Sets #1-#14 (your choice).

GO! (confirms last night's homework was done with the voice, not just on paper)

Envelope → 1 min silence → 2-3 at random (+15 EP if said WITHOUT paper). Then **1 min public nominal reading** of who did NOT submit the 4 components CI 21. Note strike. Accountability — not evaluation.

2. WHY TODAY — 4 min — SIT

> *Mystery: 20 days to Final.*

> *Phrase of the Day says it cleanly: 'the SECOND PILLAR holds when the FIRST ONE stands; rehearse the CONNECTION, not just the line.' [Insertion #1]*

> *Vocalization — 4 new tongue twisters.*

> *Yesterday CI 21 opened Phase 4: HOOK as a one-minute CHUNK, by heart, said out loud without paper, four passes (memorize / alone / pairs / mini-audience). That HOOK is now in your voice.*

> *TODAY, day 2, ONE move: PILLAR 1 — the first ~1 minute of your academic body — the SAME way. Memorize with the script, then say it without paper. Solo, pairs, mini-audience. Same four passes.*

> *At the START of the chunk block, 30 SECONDS of REFRESH: silently feel how your HOOK from yesterday hands off to your PILLAR 1 today. You do NOT say them together out loud — that comes in CI 25-26. You just NOTICE the connection.*

> *Academic B2 Set #15: 6 new words for the body — assert, substantiate, illustrate, exemplify, underpin, anchor. ARGUMENT verbs — they live in pillars. 90 B2 words.*

> *Today is PRUDENCE day 2 — second day of the new virtue block. Rehearse the CONNECTION, not just the line.*

> *PILLAR 1 text is CLOSED since C3. We do NOT edit a single word today. Memorize and say it.*

> *Tomorrow CI 23: same method, chunk PILLAR 2.*

> *Now we begin.*

3. PHRASE OF THE DAY — 4 min — STAND UP

Write on the board (before class):

PHRASE OF THE DAY — CL 22
"The second pillar holds when the first one stands;
rehearse the connection, not just the line."

1. Read 2x with marked intonation (emphasis on "holds" + "stands", long pause at semicolon, full emphasis on "connection", firm drop on "not just the line"). Chorus 3x imitating intonation.
2. *"The second pillar holds when the first one stands' — that is the architecture of memory itself. PILLAR 1 today only matters because HOOK already stands from yesterday. 'Rehearse the connection, not just the line' — that is PRUDENCE day 2. Prudence is not just doing the line once. It is feeling how this line LANDS on yesterday's line. We do not say them together aloud today — but we rehearse them as if already connected. Bridge formal→casual in use: 'holds when stands' = academic image; 'not just the line' = casual instruction."*
3. *"Sit. Notice the phrase AND how I use it today — on the day the pillar learns to stand on the hook."*

4. VOCALIZATION DRILL — 6 min — STAND UP

4 new tongue twisters (not CI 6-21):

1. /b/+r/: "Brave brown bears bring brittle brass brackets back to brisk Brazilian brokers."
2. /pl+/cl/: "Plain plump plumbers place pliable plastic clamps on plump plastic pipes."
3. /θ/+r/: "Three thrifty thrushes thrashed through thick thorny thickets thirty times Thursday."
4. /spl+/spr/: "Splendid sprinters split splendid sprigs of springy spruce, sprinting splendidly."

Per twister (~90 sec): slow 2x → chorus slow 3x → fast 2x → chorus fast 3x. The 4th is a phonetic echo — "sprinters split sprigs" — PILLAR 1 as a piece that separates from HOOK.

5. VATS — PRUDENCE v2 DAY 2 — 5 min — SIT

CI 22 = PRUDENCE v2 day 2 (block CI 21-25; standard B2 cohort rotation, Diana 22/05).

Prudence = tempered judgment, look before speaking, see what connects, do not rush what asks for a pause.

> *"Yesterday you put HOOK in your voice. Today you put PILLAR 1 in your voice. Prudence today asks: when you imagined your HOOK handing off to your PILLAR 1 in the 30-second refresh, what did you NOTICE about that handoff — soft slide, hard cut, something you have never thought about until now? Name ONE thing about that handoff you want to take care with as you memorize PILLAR 1 today, even though you won't say them aloud together until CI 25-26."*

Pairs (2 min). 2 share + paraphrase their own care-sentence (3 min).

Insertion #2: *"That is exactly the phrase — 'rehearse the connection, not just the line.'"*

6. RECAP EXPRESS — 5 min — SIT + CHORUS

Board — 6 layers visible: Anchors (CI 6) / Connectors (CI 7) / Q&A 5 patterns (CI 8) / Topic chunks (CI 9) / Discourse Markers + Intonation (CI 10) / Repetition + Paraphrasing (CI 11).

Board — full architecture (PILLAR 1 labeled TODAY):

MONOLOGUE ARCHITECTURE — closed since C3

HOOK (1 min) ■ done CI 21 (yesterday)
PILLAR 1 of BODY (1-1.7 min) ■ TODAY (chunk 2/5)
PILLAR 2 of BODY (1-1.7 min) — CI 23 (tomorrow)
PILLAR 3 of BODY (1-1.7 min) — CI 24
CALL TO ACTION (30-60 sec) — CI 25

THE 6 LAYERS that SUSTAIN PILLAR 1 specifically:
TOPIC CHUNKS — the recurring noun phrases of your pillar (3-5 of them)
CONNECTORS — forward connector that opens P1
PARAPHRASE — 1 deliberate paraphrase inside P1
INTONATION — academic register, NOT flat
REPETITION — 1 internal repeat for memory
ANCHORS — kept low; P1 is body, not opening

> *"PILLAR 1 is not a stand-alone speech. It is the first ARGUMENT of your body. The hook gave the listener a reason to lean in. PILLAR 1 gives the listener the first reason to AGREE. The six layers that sustain it are mostly topic chunks and a forward connector. Today: memorize this minute. Say it without paper. Trust that yesterday's hook is still in your voice — even though we won't chain them today."*

Drill (3 min): you name a layer (topic chunks / connectors / paraphrase / intonation / repetition / anchors), 1 student AT RANDOM names how that layer appears specifically in HER PILLAR 1.

7. ACADEMIC B2 VOCAB SET #15 — 7 min — SIT

Board — write BEFORE class (6 NEW words, argument verbs aligned to PILLARS):

ACADEMIC B2 SET #15 (CL 22) – argument verbs (pillars).
USE these starting today inside PILLAR 1 memory work
IF they fit a chunk you already wrote. Do NOT inject
them where the script does not have them.

1. ASSERT /əˈsɜːrt/ – afirmar con autoridad
"In PILLAR 1 I assert that the data is not the
full picture."

2. SUBSTANTIATE /səˈbʌstən.i.eɪt/ – sustentar con
evidencia
"A pillar is only as strong as what substantiates
it."

3. ILLUSTRATE /ɪˈlʌl.streɪt/ – ilustrar con ejemplo
concreto
"Let me illustrate this with the case I lived in
March."

4. EXEMPLIFY /ɪˈzɛm.plɪ.faɪ/ – ejemplificar
"This single moment exemplifies the whole pattern."

5. UNDERPIN /ˈʌn.dər.pɪn/ – sostener desde abajo
"Two ideas underpin everything I am about to say."

6. ANCHOR /ˈæŋ.kər/ (verb) – anclar (fijar una idea)
"I anchor this pillar in one number you will
remember."

Per word (~50 sec): pronounce 2x → cohort 2x → definition → example → 1 student AT RANDOM uses the word in 1 sentence about **how it relates to HER PILLAR 1** (intentional bridge).

Close (1 min): "90 B2 words total. Set #15 is the ARGUMENT-VERB set. These verbs live in PILLARS, not HOOKS. The PILLAR 1 you memorize today is the text from your closed script — do NOT inject these words where they aren't already there. Use Set #15 starting today only as a private check: 'does my pillar ASSERT something? does it SUBSTANTIATE that assertion?' If yes, you are on track. If not, that's an observation for your notebook — not an edit."

8. PLAN TODAY: CHUNK PILLAR 1 + 4 PASSES + CLOSED-TEXT RULE — 5 min — SIT

> *Phase 4, day 2. One thing matters for the next 45 minutes: PILLAR 1 of your monologue — about one minute of text, the academic first argument — in your VOICE, without paper, four passes. Pass 1: silent memorization with the script in hand. Pass 2: alone, no paper, eyes anywhere. Pass 3: pairs, no paper, partner listens for the connector and one B2 word. Pass 4: mini-audience, you say PILLAR 1 to the group, no paper, 1-2 honest questions at the end. We do NOT chain HOOK and PILLAR 1 aloud today. We REHEARSE THE CONNECTION mentally only. The text is closed since C3. *

Board — RULES:

PILLAR 1 CHUNK — CL 22 (PHASE 4, DAY 2)

CHUNK LENGTH: ~1 min (your own PILLAR 1, as written and closed in C3)

THE 4 PASSES:

PASS 1 (~10 min) : MEMORIZE SILENTLY with script in hand. Optional: 1 read-aloud at the very start (max 1 min) to warm the chunk. Then paper down.

PASS 2 (~10 min) : ALONE, no paper. Say PILLAR 1. If you stumble, restart from the last topic chunk you remember. Do this 3-4 times.

PASS 3 (~12 min) : PAIRS, no paper. Partner A says PILLAR 1 → partner B listens for (a) the forward CONNECTOR that opened it, (b) one B2 word. Then swap. Two rounds.

PASS 4 (~12 min) : MINI-AUDIENCE. Each student says PILLAR 1 to the group, no paper. Group asks 1-2 honest questions about CONTENT (not delivery).

30-SECOND REFRESH (BEFORE PASS 1):

Silent. Feel how HOOK from yesterday hands off to PILLAR 1 today. Do NOT say them together aloud. Just NOTICE the handoff.

RULES:

- NO editing the text. Script closed since C3.
- NO chaining HOOK + PILLAR 1 aloud today.
- NO paper in passes 2/3/4.
- Restart from the last remembered topic chunk if you stumble. Do not start over from the first word.
- Coaching from teacher = memory + articulation, NOT content.

Insertion #3: "PILLAR 1 holds today because HOOK already stands from yesterday — rehearse the connection in your head, not yet the line in chain."

> **CLOSED-TEXT RULE:** *"Your PILLAR 1 text is closed since Checkpoint C3 Friday. Today we do NOT edit a single word — not the vocab, not the connector, not the order. Today we MEMORIZE it and we SAY it without paper. If something feels rough as you memorize, write it on the side of your sheet as 'observation' — do NOT rewrite the line. The script is on coordination's file. Today is voice, not text."*

9. PEER TEACHER SLOT — 3 min — STAND UP

Pre-class: 1 oral error from Cl 21 (typically: HOOK started with "um/like" returned without paper / Set #14 wavering pronunciation / HOOK piece skipped from memory). Assign peer teacher.

1. (15 sec) "Today's peer teacher is [name]."
2. (2.5 min) Explain + correct + chorus 2x. (Show how the error sounds when paper leaves and CORRECT when memory is anchored. Useful for the next 45 min — same risk shows in PILLAR 1.)
3. (15 sec) Applause.

10. PILLAR 1 CHUNK NO PAPER — 45 min — MIXED

> *"PILLAR 1 of your monologue, about one minute, by heart, said without paper four times — alone, with a partner, with the group. The text is closed since C3 — today is voice, not editing. Restart from the last topic chunk you remember if you stumble; do not start over from the first word. Mini-audience asks honest content questions only. I coach memory and articulation; I do NOT touch your content."*

REFRESH — 30 sec silence — SIT

One instruction: "Eyes closed or on the table. Feel — silently — how your HOOK from yesterday lands and hands off to your PILLAR 1 today. Don't say them. Don't even mouth them. Just FEEL the handoff for 30 seconds. Then we begin Pass 1."

PASS 1 — SILENT MEMORIZATION (10 min) — SIT

- Each student with her C3 script. PILLAR 1 only.
- Optional: 1 low-volume read-aloud in the first minute (warm-up). Then silence.
- Strategies visible on board: (a) read-cover-say; (b) memorize by topic chunks, not by words; (c) mark the forward connector that opens PILLAR 1 as a mental anchor.
- You walk silently. No verbal coaching. If someone raises a hand: short whisper.

PASS 2 — ALONE NO PAPER (10 min) — STAND UP

- Paper face down or in pocket.
- Each student says PILLAR 1 entirely 3-4 times for herself (not in chorus, not for anyone else). Low-mid voice.
- If she stalls: *restart from last remembered topic chunk, NOT from the first word.*
- You walk. Note in personal notebook (with name): where she drops (which topic chunk lost / which connector forgotten / which B2 word stumbled). DO NOT interrupt unless someone freezes 10+ seconds.

PASS 3 — PAIRS (12 min) — STAND UP

- 2 pairs + 1 trio (cohort of 5).
- 2 rounds: in each, A says PILLAR 1 to B without paper; B listens and at the end says (a) which forward connector opened PILLAR 1, (b) which B2 word she heard.
- Then swap. Total: 2 rounds × 2 sayings × ~3 min each + transitions.
- You circulate. DO NOT correct the speaker. If the listener missed the connector → SOFT question "*¿qué connector quería entrar al principio?*" (aim at self-awareness, not text correction).

PASS 4 — MINI-AUDIENCE (12 min) — 1 STANDING / 4 SITTING OBSERVING

- 5 students × ~2 min each (~1 min PILLAR 1 + ~30-60 sec content Q&A; from group).
- Rules: hands down, paper down, 1-2 honest questions about CONTENT (NOT delivery, NOT advice, NOT "I would have said").
- You note in personal notebook: real time, where restart if any, clarity of forward connector, cleanest B2 word, most visible hesitation.
- If someone freezes completely (more than 15 sec): short coaching "*start from your last topic chunk*" — DO NOT give her the next word.

Close (after 5th) — 30 sec

> *"PILLAR 1 is in your voice. Tomorrow (Cl 23) we do PILLAR 2 the same way. Friday we do PILLAR 3. Next week we chain. The script stays closed."*

11. PHRASE CLOSE + PARAPHRASE CHECK — 5 min — STAND UP

- (1 min) *"Today's phrase from memory — WITH the intonation. The day PILLAR 1 learned to stand on the HOOK deserves its phrase said back."* — 1 at random.
- (1 min) *"Now PARAPHRASE — same idea, said a second way."* — another at random. **Insertion #4.**
- (3 min) Each student in 1 sentence: what was hardest about HER PILLAR 1 without paper today (e.g. "the forward connector dropped" / "I forgot the middle example" / "started well but lost the B2 word"). Teacher confirms — process, NOT grade.

12. ERROR PAPER LIVE — PILLAR 1 WITHOUT PAPER — 7 min — STAND UP

Typical PILLAR 1 chunk errors without paper (adjust to real):

- "Um... so... the first thing is..." (hesitant memory start — forward connector lost)
→ ■ "Building forward — the first thing the data hides is ____."
(firm forward connector + specific topic chunk)
- "Substantia... substanti... substantiate" (B2 vocab mispronounced under memory pressure)
→ ■ /s■b■stæn.■i.e■t/ — syllable by syllable, slowly, then at normal tempo
- "And then I forgot the example, so basically..." (restart from beginning instead of last topic chunk)
→ ■ "...what substantiates that is ____" (restart from last remembered topic chunk)
- Speaker starts PILLAR 1 with the HOOK close glued in front (involuntary chaining)
→ ■ PILLAR 1 starts clean — real chaining opens Cl 25-26, not today. Today pieces are isolated.

Read paper anonymously. Cohort corrects 2x — this time **saying where in PILLAR 1 it appeared (start / middle / close) and which of the 6 layers failed.**

13. SELF-OBSERVATION + CLOSE + ANNOUNCE Cl 23 + STRICT HOMEWORK — 12 min — SIT

Self-observation (3 min)

Each student says in 1 sentence: *"In PILLAR 1 today, my memory was strongest at ____ and weakest at ____."* Only observation. NO judgment. You thank.

Close + Announce Cl 23 (3 min)

PHASE 4 – DAY 2 CLOSES – DAY 3 OPENS TOMORROW

→ HOOK (Cl 21) + PILLAR 1 (today) are in your VOICE, without paper. Two chunks down. Three to go.

→ TOMORROW Cl 23 = day 3/8 = chunk PILLAR 2. Same four passes. Same rules. Script stays closed.

→ Cl 24 = chunk PILLAR 3. Cl 25 = CTA. Cl 26-28 we chain them (2 → 5 chunks). C4 end Cl 28 = 3-min video from memory.

→ Virtue today was PRUDENCE day 2 – rehearsing the connection, not just the line. Day 3 tomorrow.

→ Set #15 (assert/substantiate/illustrate/exemplify/underpin/anchor) lives in PILLARS starting now.
90 B2 words on file.

STRICT HOMEWORK — 4 components — DUE BEFORE NEXT CLASS Cl 23, 6:00 PM (6 min)

HOMEWORK – DUE: BEFORE NEXT CLASS Cl 23, 6:00 PM
TOTAL TIME: 30-45 min
4 COMPONENTS

(1) HOOK + PILLAR 1 100% FROM MEMORY: NO paper, NO reading. You know HOOK from Cl 21 and PILLAR 1 from today. NO saying them together aloud yet (that opens Cl 25-26). But both chunks must be IN YOUR HEAD ready to release separately first try.

(2) RECORD HOOK → PILLAR 1 CHAINED AUDIO 3 TIMES:
*** ONE intentional exception to "no chaining aloud" – home audio is DIAGNOSTIC chaining (not performance) so YOU hear how the handoff sounds.
*** 3 takes in a row, same opening, same PILLAR 1 close. No editing. No restart mid-take.

(3) LISTEN + 2 HANDWRITTEN IMPROVEMENTS: listen to the 3 takes ONCE. Handwrite (not phone) 2 CONCRETE improvements about the HOOK→PILLAR 1 handoff (e.g. "longer breath between them" / "forward connector sounds weak" / "I forgot to drop the HOOK intonation"). NO rewriting text – text is closed.

(4) REVIEW 90 WORDS (10 min): Sets #1-#15 (90 B2). Mark the 10 most fragile. Tomorrow chorus.

EXPLICIT: NO rewriting script. Text closed since C3.
Homework = VOICE + LISTENING + 2 handwritten improvements + vocab review.

Public reminder: "4 components by 6 PM Wednesday. Name read if missing. 2 strikes = coordination. Tomorrow we open Cl 23 = chunk PILLAR 2."

14. BUFFER + CLEAN CLOSE — 7 min — SIT

Space for:

- Re-explain the chained-audio exception at home (if anyone had doubt in block 13)
- Pronunciation refresh of 1-2 Set #15 words that came weak
- Look at architecture board: "HOOK ✓ Cl 21 / PILLAR 1 ✓ today / PILLAR 2 tomorrow"
- Clean close: "PILLAR 1 in your voice. See you tomorrow for PILLAR 2."

NOTAS INTERNAS (no leer en clase)

- **Fase del Roadmap:** CI 22 = Fase 4 día 2/8 — chunk PILLAR 1 (~1 min) sin papel. Roadmap 72h líneas 120-129.
- **Virtud:** CI 21-25 = PRUDENCIA v2 (rotación estándar cohorte B2, Diana 22/05). Hoy día 2; bloque cierra CI 25 (PRUDENCIA día 5). CI 26 abre TEMPLANZA v2 + encadenamiento.
- **Próximas:** CI 23 = chunk PILLAR 2 + PRUDENCIA día 3 + Set #16 (96). CI 24 PILLAR 3 (102). CI 25 CTA (108). CI 26-28 encadenamiento + C4.
- **GoldList ELIMINADO** desde 14/05. Solo Frase del Día.
- **Supuesto (verificar):** Audio encadenado HOOK→PILLAR 1 en tarea = ÚNICA excepción intencional a la regla "no encadenar en voz alta hoy", calificada como **diagnóstica, no performance** — propósito que la estudiante oiga el handoff en su propia voz antes del encadenamiento real (CI 25-26). Si coordinación prefiere mantener estricta, reemplazar componente (2) por: "audio del PILLAR 1 SOLO, 3 tomas" + componente (3) "2 mejoras sobre PILLAR 1 aislado". Aplicar desde CI 23 si Diana indica.
- **Supuesto (verificar):** Secuencia HOOK→P1→P2→P3→CTA en CI 21-25 es asignación natural de arquitectura ("1-2 chunks por sesión" del Roadmap). Coordinación puede ajustar si lo ve necesario.
