

B2 PM AMINA — CLASS 23 — Phase 4 chunked practice (day 3/8 — week 1 day 3 — PILLAR 2 chunk no paper)

Session 23/36 · 2h (18:45–20:45) · ~85% standing

Date: ___/___/2026 · Attending: ___/5

Phase 4 — chunked practice (CI 21-28) — day 3/8 — week 1 day 3 — PILLAR 2

Virtue: PRUDENCE v2 day 3 of 5 (block CI 21-25)

Phrase of the Day: "Prudently, on the third day of chunks: two pillars are heavier than one — so we balance them with the connector, and we say it without the page."

Countdown: ~13 classes / ~26h to Final (CI 36)

Bring to class: Mystery envelope · Error Paper sheet · stopwatch · personal notebook (3 literal errors + NAMES) · internal chunk-tracking sheet · students bring full C3 script (used ONLY before 1st attempt; then face down).

1. MYSTERY HOMEWORK + PUBLIC READING — 5 min — STAND UP

Sealed envelope:

HOMEWORK MYSTERY CHECK — CL 23

In 60 seconds, say OUT LOUD — WITHOUT PAPER — your
HOOK and your PILLAR 1 from memory, chained together
(as if PILLAR 1 were already starting):

- HOOK ends, micro-breath, connector forward,
PILLAR 1 starts
- 2 anchors (1 in HOOK, 1 in P1)
- 1 discourse marker opening P1
- 2 B2 words from Sets #14-#15 (Phase 4 sets)
- NO paper in hand. None.

GO! (warm-up before today's NEW chunk: PILLAR 2 —
Phase 4, day 3)

Envelope → 1 min silence → 2-3 at random (+15 EP if HOOK+P1 chained without paper). Then **1 min public nominal reading** of who did NOT submit the 4 components CI 22. Note strike. Accountability — not evaluation.

2. WHY TODAY — 4 min — SIT

> *Mystery: 21 days to Final.*

> *Phrase of the Day says it plainly: 'two pillars are heavier than one; balance them with the connector — and say it without the page.' [Insertion #1]*

> *Vocalization — 4 new tongue twisters.*

> *CI 21 closed the HOOK chunk from memory. CI 22 closed the PILLAR 1 chunk from memory. Today, day 3, ONE thing: PILLAR 2 — same method, 1 minute, no paper.*

> *The METHOD repeats — and that is the point.*

> *(1) Memorize the chunk in silence (script open, ONCE)*

> *(2) Individual rehearsal, paper face down, restart if you glance*

> *(3) Pairs — one says, one listens for the empalme (the connector from P1 into P2)*

> *(4) Mini-audience — say P2 in front of the group, no paper. Then chain it: P1 (already closed) → P2 (today's chunk)*

> *Academic B2 Set #16: 6 more words — PILLAR 2 is the CONSOLIDATION pillar (the one that risks repeating PILLAR 1). These 6 words signal consolidation, reinforcement, extension. Total: 96 B2 words.*

> *Today is PRUDENCE day 3 — the wisdom of the middle of the work, not the showy first day, not the closing push. Steady, repeated reps.*

> *Tomorrow CI 24 = chunk PILLAR 3. CI 25 = CTA. CI 26 onward we start CHAINING. Not today. Today is the chunk.*

> *Now we begin.**

3. PHRASE OF THE DAY — 4 min — STAND UP

Write on the board (before class):

PHRASE OF THE DAY — CI 23
"Prudently, on the third day of chunks: two pillars are heavier than one — so we balance them with the connector, and we say it without the page."

1. Read 2x with marked intonation (firm weight on "prudently", emphasis on "two pillars are heavier than one", long pause before "so we balance them", firm drop on "without the page"). Chorus 3x imitating intonation.
 2. "Prudently" anchors today's virtue — prudence, day 3 of 5. 'Two pillars are heavier than one' — literal today: HOOK and PILLAR 1 are already on you (CI 21, CI 22), and PILLAR 2 lands today, so the second pillar is the second weight. 'Balance them with the connector' — the empalme between P1 and P2 is what holds the architecture upright. 'Say it without the page' — the Phase 4 rule, every day."
 3. "Sit. Notice the phrase AND how I use it today — on the day pillar two lands, without the page."
-

4. VOCALIZATION DRILL — 6 min — STAND UP

4 new tongue twisters (not CI 6-22):

1. /pl+/pr/: "Plain pillars prop the proper porch; the proper porch's plain pillars properly prop."
2. /b/+/bl/: "Bobby's brittle brick bridge bridges broken brooks; broken brooks beneath brittle brick."
3. /kw/+/kl/: "Quick clear cracks crack quicker; quicker cracks click clean clear crack-clicks."
4. /spr/+/str/: "Spreading strong straight strings stretches strange stress; stretched strings stress straight."

Per twister (~90 sec): slow 2x → chorus slow 3x → fast 2x → chorus fast 3x. The 1st is a phonetic echo — "plain pillars prop the proper porch" — pillars sustain the architecture.

5. VATS — PRUDENCE v2 DAY 3 — 5 min — SIT

CI 23 = PRUDENCE v2 day 3 (block CI 21-25; standard B2 cohort rotation, Diana 22/05).

Prudence = practical judgment, knowing what fits here and now, not rushing what asks for repetition, not skipping what asks for patience.

> *Day 3 of prudence — the middle day. The middle of the chunk work in Phase 4: HOOK done, PILLAR 1 done, PILLAR 2 today, PILLAR 3 tomorrow, CTA after. Prudence here is the discipline of doing today's chunk WITHOUT rushing ahead to chain everything, and WITHOUT going back to re-polish the script (script is closed). Say one thing you are tempted to do today that prudence asks you NOT to do (e.g., 'I want to do all three pillars from memory now'; 'I want to peek at my paper'; 'I want to change a line of pillar two'). Then say what you will do INSTEAD — the small, prudent thing of the day.**

Pairs (2 min). 2 share + paraphrase their own prudent sentence (3 min).

Insertion #2: "That is exactly the phrase — 'we balance them with the connector, and we say it without the page.'"

6. RECAP EXPRESS — 5 min — SIT + CHORUS

Board — 6 layers visible: Anchors (CI 6) / Connectors (CI 7) / Q&A 5 patterns (CI 8) / Topic chunks (CI 9) / Discourse Markers + Intonation (CI 10) / Repetition + Paraphrasing (CI 11).

Board — full architecture (with chunk-close marks):

MONOLOGUE ARCHITECTURE – Phase 4 in progress

HOOK (~1 min) ■ CLOSED Cl 21 (no paper)
PILLAR 1 of BODY (~1 min) ■ CLOSED Cl 22 (no paper)
PILLAR 2 of BODY (~1 min) ■ TODAY Cl 23 (no paper)
PILLAR 3 of BODY (~1 min) Cl 24 (tomorrow)
CALL TO ACTION (~30-60s) Cl 25 + chains Cl 26-28

THE 6 LAYERS sustain THIS chunk specifically:
HOOK -> P1 -> P2 empalme uses CONNECTORS forward
PILLAR 2 = topic chunks of pillar 2
Between P1 and P2: PARAPHRASE bridge – restate the last beat of P1 in 4 words before launching P2
Intonation: pillar 2 lands as a NEW idea, not a reheated P1
Repetition: P2 may repeat 1 keyword from P1 only as a deliberate echo, NOT as recycled content
Q&A; patterns: held for Cl 26+ chains, not today

> **"Layer behavior today: connectors and topic chunks lead. The empalme P1→P2 is where the connectors prove themselves. The paraphrase bridge is where pillar two earns its place as a separate idea. Today is layer-3 and layer-2 work mostly — anchors and intonation stay quiet, paraphrasing is loud."**

Drill (3 min): you say "EMPALME HOOK→P1" / "EMPALME P1→P2" / "INTERIOR OF P2", 1 student AT RANDOM names which of the 6 layers works hardest there (anchor + opening marker / forward connector + paraphrase bridge / topic chunks + deliberate repetition).

7. ACADEMIC B2 VOCAB SET #16 — 7 min — SIT

Board — write BEFORE class (6 NEW words, argument consolidation — vocabulary that helps P2 SOUND DIFFERENT from P1 without losing the thread):

ACADEMIC B2 SET #16 (CL 23) – pillar 2 consolidation.
USE these when launching or developing pillar two starting TODAY.

1. CONSOLIDATE /kənˈsɪleɪt/ – consolidar / asentar
"Pillar two consolidates what pillar one introduced."

2. REINFORCE /rɪˈfɔːrs/ – reforzar / dar apoyo adicional a una idea ya planteada
"Pillar two REINFORCES the point – it does not repeat it."

3. COMPLEMENT /ˈkɒmplɪment/ (verb) – complementar
"Pillar two COMPLEMENTS pillar one with the missing angle."

4. EXTEND /ˈkɛstend/ – extender / llevar más lejos
"Pillar two EXTENDS the territory pillar one opened."

5. AMPLIFY /ˈæmplɪfaɪ/ – amplificar / hacer sonar más fuerte una idea pequeña
"Pillar two AMPLIFIES one specific signal from pillar one."

6. SEGUE /ˈseɪweɪ/ – pasar fluidamente de un tema al siguiente
"We SEGUE from pillar one into pillar two without a hard stop."

Per word (~50 sec): pronounce 2x → cohort 2x → definition → example → 1 student AT RANDOM uses the word in 1 sentence about **HOW she will join P1 with P2** (intentional bridge today).

Close (1 min): "96 B2 words total. Set #16 is the PILLAR 2 set — five consolidation verbs plus 'segue' for the empalme itself. Use ONE of these in your pillar 2 today if it fits naturally. Do NOT cram all six. Pillar 2 has ~1 min; one new word with intention beats six words crammed."

8. PLAN TODAY: CHUNK PILLAR 2 + METHOD REPEATS — 5 min — SIT

> **"Day 3 of Phase 4 — pillar two from memory in ~1 minute, no paper. Same method as Cl 21 (hook) and Cl 22 (pillar one) — and yes, it repeats on purpose, because memory needs the same reps over different content. You memorize alone first, then say pillar two to a partner, then to the small group, no paper. At the end, we briefly chain: pillar one (already yours from yesterday) into pillar two (yours today). Tomorrow is pillar three. Chaining everything together comes Cl 26."**

Board — RULES:

PILLAR 2 CHUNK — CL 23 (PHASE 4, DAY 3)

THE CHUNK (per student):

~1 min of monologue = your PILLAR 2 only
Open with the connector that takes you out of PILLAR 1
(e.g., "Building on that... / What's more... / And
this is where it consolidates...")
Land 1 word from SET #16 with intention
Close with a beat the listener can feel ("...and that
is pillar two.")

THE METHOD (repeats — on purpose):

(A) MEMORIZATION (10 min)

Script open ONCE — read PILLAR 2 silently 3x
Then close the script. Stays closed for the rest.

(B) INDIVIDUAL REHEARSAL (10 min)

Whisper-rehearse PILLAR 2, 5 reps minimum, no paper
If you glance at paper, restart that rep

(C) PAIRS (10 min)

Partner A says PILLAR 2 → Partner B listens for:

- did the EMPALME (connector from P1) land?
- did PILLAR 2 sound DIFFERENT from PILLAR 1?
- was there 1 SET #16 word, used not crammed?

Swap. Each says it 2-3x.

(D) MINI-AUDIENCE (12 min)

Each student says PILLAR 2 in front of the group,
no paper. ~1 min each.

NO PAPER from the moment we close the script in (A).

GLANCING = RESTART that rep.

NO CHAINING beyond P1 + P2 today. P3, CTA stay closed.

Insertion #3: *"Prudently — two pillars are heavier than one; the connector balances them, and we say it without the page."*

> **NO-CHECKPOINT-TODAY RULE:** *"Phase 4 is the kitchen, not the stage. We are memorizing one minute at a time. The script is open ONCE — your first attempt of pillar two, you may glance. From the second attempt onward, paper turns face down. Not 'almost without paper' — without paper. The next coordination checkpoint is C4 — END of CL 28, with a 3-min video from memory. Today: one chunk."*

9. PEER TEACHER SLOT — 3 min — STAND UP

Pre-class: 1 error from CL 22 (typically: student went back to paper mid-PILLAR 1 / Set #14 or #15 pronunciation / start of P1 without clean connector).
Assign peer teacher.

1. (15 sec) *"Today's peer teacher is [name]."*
2. (2.5 min) Explain + correct + chorus 2x. (Show how the error sounds BAD starting a pillar and CORRECT when fixed — useful for the next 45 min with PILLAR 2.)
3. (15 sec) Applause.

10. PILLAR 2 CHUNK NO PAPER — 45 min — MIXED

> *"Pillar two of your monologue, ~1 minute, from memory, no paper. You will say it many times today — to yourself, to a partner, to the group — until your mouth knows it. The connector from pillar one into pillar two is part of pillar two; practice the empalme, not just the words. By the end of these 45 minutes, the script of pillar two should be face down in your bag, and your voice should hold pillar two without it."*

Initial refresh chaining HOOK + PILLAR 1 + start PILLAR 2 (3 min)

- All standing, in circle.
- You say: *"In ~1 min each, no paper: HOOK → PILLAR 1 → the first sentence of PILLAR 2 (the empalme). 2 students only, at random."*
- 2 students AT RANDOM chain HOOK + P1 + the first sentence of P2 (this last one can be tentative — first worked today). Rest observe the EMPALME.
- *"That's the bridge we are building today. From here on, pillar two is the work."*

(A) GUIDED MEMORIZATION (10 min) — SIT

- Each student gets her FULL script (HOOK + 3 PILLARS + CTA).
- 3 min: silent reading of PILLAR 2 only, 3 times.
- 3 min: in absolute silence, mark by hand: (1) the CONNECTOR joining P1; (2) the 2-3 internal ideas of P2; (3) 1 Set #16 word she will use; (4) the final line that closes P2.
- 4 min: close the script. *"Script closed for the rest of this block. Whisper-rehearse PILLAR 2 in your seat 3 times, no paper, eyes closed if it helps."*

(B) INDIVIDUAL REHEARSAL — low voice (10 min) — SIT / STAND BY CHOICE

- 10 min of individual rehearsal at low voice, 5 reps minimum, NO PAPER.
- You walk: if you see anyone with script open in hand → *"Paper face down. Restart this rep from the empalme."*

• At 5 min: "Two more rep cycles. By the end of this block your pillar two should feel like a 1-minute piece that begins, develops, and lands, not 1 sentence and silence."

(C) PAIRS (10 min) — STAND UP IN PAIRS, not at table

- Assign 2 pairs + 1 trio (if N=5).
- Partner A says PILLAR 2 to Partner B (~1 min). B listens without interrupting.
- B gives feedback in 30 sec, using ONLY these 3 questions:
 - "Did the empalme from pillar one land or was it cold?"
 - "Did pillar two sound different from pillar one or like a remix?"
 - "Did you hear 1 SET #16 word used (not crammed)?"
- Swap. Repeat 2 times (each says P2 ~2 times).
- (In the trio: A → B (feedback), B → C (feedback), C → A (feedback), 2 rounds).
- You circulate, DO NOT interrupt a rep in progress. Note in your notebook: name + 1 thing you heard in the empalme.

(D) MINI-AUDIENCE — PILLAR 2 solo (12 min) — 1 STANDING / 4 SITTING OBSERVING

- Pre-defined order (checklist).
- Per student (~1 min + 30 sec transition):
 - Student STANDING at front, no paper.
 - Says PILLAR 2 (~1 min). Group listens in silence, hands down.
 - At close: you say "Next." — NO Q&A or feedback here (reserved for 2nd pass in block 11). This is DENSITY, not dialogue.
- 5 students × ~1 min + transitions = ~7-8 min.
- ~4 min buffer: if anyone needs 2nd attempt without paper (because she had to peek), she does it here.

Your internal **CHUNK-TRACKING SHEET** per student (NOT communicated today):

STUDENT: _____
PILLAR 2 IN MINI-AUDIENCE (Cl 23):

- No paper from the start? (yes / almost / no – peeked x times)
- Empalme P1 → P2 clean? (yes / cold / inexistent)
- P2 sounded DIFFERENT from P1? (yes / similar / repeats)
- 1 Set #16 word used? (which / none)
- P2 close sustained? (yes / diluted)
- Real time: ~___ sec

HOOK (Cl 21 – closed): holds? (yes / detuned)
PILLAR 1 (Cl 22 – closed): holds? (yes / detuned)

(NO grade. NO communication to student. Internal map to feed Cl 24 and beyond.)

11. 2ND PASS MINI-AUDIENCE: P1 + P2 CHAINED — 10 min — STAND UP

- Same order or reversed.
- Per student (~2 min):
 - Student STANDING at front, no paper.
 - Says **PILLAR 1 + PILLAR 2 chained** (~2 min total).
 - Group listens. 1 honest question from group (15 sec): "Did P1 and P2 sound like 2 different ideas or like one long pillar?" (ONE person answers, no debate).
- You note in your internal sheet if empalme improved vs Pass D.

> If anyone did NOT achieve pillar 2 without paper in Pass D: here she tries again SOLO with P2, without chaining. What matters today is that P2 WAS SAID without paper at least once.

12. PHRASE CLOSE + PARAPHRASE CHECK — 5 min — STAND UP

1. (1 min) "Today's phrase from memory — WITH the intonation. The day the second pillar landed without the page deserves its phrase said back." — 1 at random.
2. (1 min) "Now PARAPHRASE — same idea, said a second way." — another at random. **Insertion #4.**
3. (3 min) Each student in 1 sentence: what was hardest about HER pillar 2 today (e.g. "cold connector" / "got confused with P1 mid-way" / "forgot Set #16 word" / "peeked at paper in rep 4"). Teacher confirms — process, NOT grade.

13. ERROR PAPER LIVE — PILLAR 2 — 5 min — STAND UP

Typical PILLAR 2 chunk errors (adjust to real):

1. ■ "And, um, the second thing is also about ____"
(hesitant memory start – forward connector lost)
→ ■ "Building on that – pillar two CONSOLIDATES with ____."
(clean empalme with connector + Set #16, no drag)
2. ■ P2 that repeats P1 with synonyms
→ ■ P2 that EXTENDS / AMPLIFIES / COMPLEMENTS P1
(Set #16 with intention)
3. ■ "Reinforce-eh the point that..." (pron + filler)
→ ■ "REINFORCES the point that..." (Set #16 clean,
3rd person if applies)
4. ■ Peeks at paper in rep 4
→ ■ Restart of rep, same chunk, paper face down
(Phase 4 rule)

Read paper anonymously. Cohort corrects 2x — this time **saying if the error is of EMPALME, of CONTENT (P2=P1), of VOCAB (Set #16), or of METHOD (paper).**

14. CLOSE + ANNOUNCE CI 24 + STRICT HOMEWORK — 6 min — SIT

Close of day (1 min)

PHASE 4 DAY 3 CLOSES – PILLAR 2 IS YOURS

- HOOK (Cl 21): yours, from memory, no paper.
- PILLAR 1 (Cl 22): yours, from memory, no paper.
- PILLAR 2 (Cl 23): yours TODAY, from memory, no paper.
- Empalme P1 -> P2 practiced. Will deepen Cl 25-26
when we chain HOOK + P1 + P2.
- TOMORROW Cl 24 – PHASE 4 DAY 4 – chunk PILLAR 3.
- Cl 25 = chunk CTA. Cl 26-28 = CHAINING.
- Cl 28 = C4 = 3-min video from memory.
- 21 days to Final.

Announce CI 24 (30 sec)

> *"Tomorrow Cl 24 = Phase 4 day 4 = chunk PILLAR 3. Same method. Last pillar before we chain (after Cl 25 CTA). Bring your full script — to be opened ONCE, then face down."*

STRICT HOMEWORK — 4 components — DUE BEFORE NEXT CLASS CI 24, 6:00 PM (4.5 min)

HOMEWORK — DUE: BEFORE NEXT CLASS Cl 24, 6:00 PM
TOTAL TIME: 45-60 min (Phase 4 — high intensity:
daily memory)
4 COMPONENTS

(1) MEMORIZATION HOOK + PILLAR 1 + PILLAR 2 (20 min):
practice the THREE chunks from memory, individually
first, then chained (HOOK → P1 → P2). Script opens
1 time at start to refresh PILLAR 2, then closes,
NOT to be reopened. If you stumble: restart, no
peek. Goal: say the 3 chunks chained, no paper,
fluid. If you peek, count how many times and bring
the data tomorrow.

(2) AUDIO HOOK → P1 → P2 CHAINED 3 TIMES (15 min):
record 3 audios of HOOK → PILLAR 1 → PILLAR 2,
separated at least 30 min apart. No editing, no
retakes. Take 3 → send to envelope / agreed cohort
channel.

(3) LISTEN + 2 HANDWRITTEN IMPROVEMENTS (10 min):
listen ONLY to the LAST of your 3 audios. Identify
2 CONCRETE improvements for tomorrow (Cl 24):
1 empalme improvement (HOOK → P1 or P1 → P2) +
1 voice improvement (intonation, pause, pronunciation
of 1 word Set #14/#15/#16). Bring 2 improvements
written in 1 sentence each.

(4) REVIEW 96 WORDS (10 min): Sets #1-#16 (96 B2).
Mark the 10 that still cross-wire. Focus: at least
3 from Set #16 solid for PILLAR 2.

EXPLICIT: NO new content. NO rewriting script. Voice
works, memory works. Tomorrow PILLAR 3.

Public reminder: "4 components by 6 PM Thursday. Name read if missing. 2 strikes = coordination. Phase 4 = daily memory work — no skipping."

15. BUFFER / CONTINGENCY / GOODBYE — 5 min

- If Phase 4 day 3 overflowed (anyone needs 1 extra min to close P2 without paper): here.
- If time remains: choral repetition of the first tongue twister + phrase of the day as close.
- Goodbye: "Pillar two is yours. Tomorrow pillar three. No paper."
