

B2 PM AMINA — CLASS 27 — Phase 4 chunked practice (day 7/8 — week 2 day 2 — chain HOOK + P1 + P2)

Session 27/36 · 2h (18:45–20:45) · ~85% standing

Date: ___/___/2026 · Attending: ___/5

Phase 4 — chunked practice (CI 21-28) — day 7/8 — week 2 day 2 — SEAM #2

Virtue: TEMPERANCE v2 day 2 of 5 (block CI 26-30)

Phrase of the Day: "The second bridge is the hardest — momentum already carries you; temperance is what slows you down enough to land."

Countdown: ~13 classes / ~18h to Final (CI 36)

1. MYSTERY HOMEWORK + PUBLIC READING — 5 min — STAND UP

Sealed envelope:

HOMEWORK MYSTERY — CL 27

In 60 seconds, recite your HOOK + SEAM #1 + PILLAR 1 from MEMORY, no paper. Then PAUSE one beat, then say the FIRST sentence of your PILLAR 2, also from memory.

- Clean start (no "um, so")
- SEAM #1 from previous class still alive (real breath, closing/opening markers, casual bridge)
- HOOK + SEAM #1 + PILLAR 1 fluid (no rushing despite momentum)
- PILLAR 2 first sentence CLEAN from memory

GO!

Envelope → 1 min silence → 2-3 at random (+15 EP if HOOK+SEAM#1+P1 clean + PILLAR 2 first sentence clean; +10 EP if SEAM #1 kept the real second of breath despite the urge to accelerate). Then **1 min public nominal reading** of who did NOT submit the 4 CI 26 components (5 drills LINK1-DRILL1..5 + FULL-V3 + 3 handwritten improvements ON SEAM #1 + 114-word review). Note strike.

2. WHY TODAY — 4 min — SIT

> *Mystery — accountability — ~13 classes to Final.*

> *Phrase of the Day names the work: 'The second bridge is the hardest — momentum already carries you; temperance is what slows you down enough to land.' [Insertion #1]*

> *Vocalization: 4 new tongue twisters drilling consonant clusters that PIVOT and SHIFT — the same phonetic move SEAM #2 needs in fifteen minutes.*

> *Previous class: SEAM #1 forged. HOOK + PILLAR 1 chained from memory with one real second of breath between. First chained link lives.*

> *TODAY: add the SECOND link. HOOK + PILLAR 1 + PILLAR 2 — three pieces, TWO seams. SEAM #1 stays alive in the background. SEAM #2 is the new work.*

> *SEAM #2 is the HARDEST of the four — not because the technique differs (it is identical: closing marker, one second of breath, opening marker, bridge formal→casual) but because YOU will be different. By the time you reach SEAM #2 you have been speaking almost three minutes. Your body is moving. Instinct: rush to 'not lose flow.' That instinct erases the seam.*

> *One big move: practice HOOK + P1 + P2 chained, no paper, 45 min — same three phases as previous class, new unit. Three chunks + two seams, eye on SEAM #2.*

> *Set #20: 6 more words — COHESION / EXTENDED FLUIDITY. Words that hold a chained speech together for 3-4 min. Total 120.*

> *TEMPERANCE v2 day 2: yesterday was 'live between two ideas.' Today is 'slow down enough to land the second bridge before momentum takes you off the cliff.'*

> *Next class CI 28: FULL monologue from memory + Checkpoint C4 (3-min memorized video for coordination).*

> *Tonight: 5 drills HOOK + P1 + P2 + 1 FULL-V4.*

> *Now we begin.**

3. PHRASE OF THE DAY — 4 min — STAND UP

Write on the board (before class):

PHRASE OF THE DAY — CL 27
"The second bridge is the hardest —
momentum already carries you;
temperance is what slows you down enough to land."

1. Read 2x with marked intonation (precise emphasis on *"the second bridge is the hardest"*, kinetic acceleration on *"momentum already carries you"* — voice speeds up slightly to mimic momentum —, contemplative pause before *"temperance"*, firm landed close on *"slows you down enough to land"*). Chorus 3x imitating, including the small acceleration on *"momentum"* and the brake on *"temperance"*.
 2. *"'The second bridge is the hardest' names the technical truth — SEAM #2 is the worst of the four, not because the technique changes but because YOU change. By the time you arrive at it, you have momentum from HOOK + SEAM #1 + PILLAR 1 — almost three minutes of speech behind you. 'Momentum already carries you' is honest physics. The close, 'temperance is what slows you down enough to land,' is the virtue made concrete: temperance is the BRAKE. One full second of breath in SEAM #2, exactly when your instinct says don't brake, keep flying."*
 3. *"Sit. I will use this phrase four more times today."*
-

4. VOCALIZATION DRILL — 6 min — STAND UP

4 new tongue twisters (not CI 6-26) — phonetic focus on PIVOT TRANSITIONS:

1. /tw/+sw/: "Twin swivels sweep twelve swift turns;
twelve swift turns sweep twin swivels true."
2. /θr/+fl/: "Three flowing thresholds throw fluid throughlines;
fluid throughlines threaten three flat falls."
3. /pl/+cr/: "Pliable cranes craft pleasant pivots precisely;
precise pivots crown pliable plans."
4. /sn/+sm/: "Smooth snaps smother sneaky smudges;
smudges seldom smother smooth snap sequences."

Per twister (~90 sec): slow 2x → chorus slow 3x → fast 2x → chorus fast 3x. *Swivel / throughline / pivot / threshold / snap / smooth* are phonetic-semantic echo of Set #20 and PIVOT focus. Clusters /tw/, /θr/, /pl/, /sn/, /fl/ are what SEAM #2 demands when the body is in motion.

5. VATS — TEMPERANCE v2 DAY 2 — 5 min — SIT

CI 27 = TEMPERANCE v2 day 2 (second day of block CI 26-30). CI 26 opened TEMPERANCE with "live BETWEEN two ideas." Today day 2 = **TEMPERANCE as BRAKE AGAINST MOMENTUM.**

Temperance day 2 = the capacity to slow rhythm INTENTIONALLY when the natural move is to accelerate. Yesterday: "pause between two pieces." Today: "do that pause a SECOND time in a row, when you've been speaking 2-3 minutes, when body and voice are in motion, when 'stopping' feels physically like braking on a highway."

Insertion #2: *"That is exactly today's phrase: 'momentum already carries you — temperance is what slows you down enough to land.' Temperance day 2 IS the brake. Yesterday you learned the seam exists. Today you learn to brake into it AGAIN when your body says don't brake."*

> *"You found ONE moment to breathe between HOOK and PILLAR 1 previously. Today you have to do it AGAIN, but the second time feels different — by SEAM #2 you have momentum. Name HOW your body usually tells you to keep going past a brake (faster heart, voice raises, words come quicker, you skip the breath). Now name ONE physical micro-move you will use to brake at SEAM #2 — eye contact lifted slowly / shoulder drop / one deliberate nose inhale. Pick ONE. That is your temperance day 2."*

Pairs (2 min). 2 share + paraphrase their own sentence (3 min).

6. RECAP EXPRESS — 5 min — SIT + CHORUS

Board — 6 layers visible.

Board — full architecture (SEAM #1 alive ■ + SEAM #2 new TODAY):

MONOLOGUE ARCHITECTURE – 5 blocks, 4 seams

HOOK (1 min) – memorized Cl 21 ■
↓ SEAM #1 ■ (forged Cl 26 – LIVES in background)
PILLAR 1 of BODY (1-1.7 min) – memorized Cl 22 ■
↓ SEAM #2 ■ TODAY (1 sec real breath + closing/opening markers + bridge formal→casual + BRAKE against momentum)
PILLAR 2 of BODY (1-1.7 min) – memorized Cl 23 ■
↓ SEAM #3 (Cl 28 inside FULL)
PILLAR 3 of BODY (1-1.7 min) – memorized Cl 24 ■
↓ SEAM #4 (Cl 28 inside FULL)
CALL TO ACTION (30-60 sec) – memorized Cl 25 ■

THE 6 LAYERS sustain BOTH SEAMS today:
PILLAR 1 ends with CLOSING discourse marker
PILLAR 2 begins with OPENING discourse marker
Bridge formal→casual lives IN SEAM #2
Intonation DROPS firm at PILLAR 1 close, LIFTS fresh at PILLAR 2 open
Anchor from PILLAR 1 briefly RE-NAMED as PILLAR 2 opens
Repetition: 1 deliberate echo word carries across
SEAM #1 STAYS alive in background – no extra focus
but no slipping either

Chorus drill (3 min): "Closing marker on PILLAR 1?" — 3 B2 examples ("and that, in essence, is the first reason —" / "so the first piece of the picture is set;" / "and there is the foundation —"). "Opening marker on PILLAR 2?" — 3 B2 examples ("now let me pivot —" / "the second piece works differently;" / "from there, a second angle opens —"). "The brake of SEAM #2?" — "one full second of real breath, even when momentum says don't brake."

7. ACADEMIC B2 VOCAB SET #20 — 7 min — SIT

Board — write BEFORE class (6 NEW words — cohesion / extended fluidity / signposting):

ACADEMIC B2 SET #20 (CL 27) – COHESION / EXTENDED FLUIDITY
USE these to HOLD a 3-4 minute chained piece together.

- MOREOVER /m●●●r●o●v●r/ – además / encima (formal addition)
"The first reason stands. Moreover, the second reason builds on top of it."
- CONSEQUENTLY /●k●●ns●kw●ntli/ – en consecuencia (causal)
"PILLAR 1 left us at one truth. Consequently, PILLAR 2 asks a sharper question."
- FURTHERMORE /●f●●●r●d●rm●r/ – adicionalmente (extension)
"That image holds. Furthermore, here is a second image that doubles it."
- NEVERTHELESS /●n●v●r●d●●●l●s/ – sin embargo (contrast)
"PILLAR 1 made the case. Nevertheless, PILLAR 2 complicates it – and that is the point."
- ACCORDINGLY /●●k●●rd●●li/ – en consecuencia (derivation)
"We saw the situation in PILLAR 1. Accordingly, PILLAR 2 proposes a response."
- THEREBY /●d●●r●ba●/ – de ese modo (instrumental)
"PILLAR 1 set the angle, thereby opening PILLAR 2 to a sharper move."

Per word (~50 sec): pronounce 2x → cohort 2x → definition → example → 1 student AT RANDOM uses the word in 1 sentence as POSSIBLE SEAM #2 between THEIR PILLAR 1 and THEIR PILLAR 2.

Close (1 min): "120 B2 words total. Set #20 is the COHESION set — signposting adverbs B2 — they hold extended speech together when momentum threatens to drop the thread. Choose ONE to anchor your SEAM #2 — DRILL THAT ONE. Discipline today is one SEAM #2 owned, not six adverbs sampled."

8. MENTAL REFRESH — HOOK+SEAM#1+P1 + PILLAR 2 individual — 2 min — STAND UP

Not rehearsal. Mental check — confirm last class's chained set + PILLAR 2 individual both live before forging SEAM #2.

- (15 sec) "Stand up. Eyes soft. No paper."
- (90 sec) "In your head — silent — run HOOK + SEAM #1 + PILLAR 1 the way it lived last class. End it. Reset. Run PILLAR 2 alone as you memorized it in Cl 23. End it. Two units, no SEAM #2 yet. If a piece slips, breathe and keep going."

3. (15 sec) "Open eyes. If HOOK+SEAM#1+PILLAR 1 felt loose, or PILLAR 2 felt loose, you know what to repair tonight. Today's work is SEAM #2 — sit."

Not evaluated. Metacognition.

9. CHAINING PRACTICE PLAN + SEAM #2 RULE — 5 min — SIT

> *Day 7 — second chained link added. HOOK + PILLAR 1 + PILLAR 2, both seams real, no paper. SEAM #1 lives — keep its breath there too, but the eye today is SEAM #2. Forty-five minutes: ten alone with paper drilling SEAM #2; fifteen in pairs no paper, partner flags ONE SEAM #2 issue; twenty mini-audience, each says HOOK + P1 + P2 chained from memory once, group flags ONE SEAM #2 observation.*

Insertion #3: "Momentum already carries you — temperance is what slows you down enough to land.' That phrase IS the technique. By SEAM #2 you have momentum. The brake is the technique."

Board — RULES:

CHAINING PRACTICE — NO PAPER — CL 27

UNIT: HOOK + SEAM #1 + PILLAR 1 + SEAM #2 + PILLAR 2

PHASE A — ALONE (10 min):

Paper out. Look at END of PILLAR 1 and START of PILLAR 2.

Write ONE planning line (NEW today — SEAM #2):

"MY SEAM #2: closing marker P1 = ____

breath = 1 full second

opening marker P2 = ____

bridge formal→casual = yes

anchor word walking across = ____

Set #20 word (optional) = ____

physical brake move = ____ (eye lift /
shoulder drop / nose inhale)"

(SEAM #1 planning line from previous class STILL applies.)

Cover paper. Say HOOK + SEAM #1 + P1 + SEAM #2 + P2 from

memory 3 times. Each slip: glance, recover, no penalty.

Goal: 3 clean attempts with BOTH seams alive.

PHASE B — PAIRS (15 min):

Paper DOWN. A stands, says HOOK + SEAM #1 + P1 + SEAM #2
+ P2 from memory.

B listens for BOTH but flags ONE on SEAM #2:

(1) rushed / momentum won / no real breath?

(2) closing marker P1 + opening marker P2 present?

(3) bridge formal→casual landed?

Optional secondary: SEAM #1 quick "alive / drifted."

Swap. Each does 3 times. Coaching SEAM #2 ONLY.

PHASE C — MINI-AUDIENCE (20 min):

Each STANDS, says HOOK + SEAM #1 + P1 + SEAM #2 + P2
once from memory (~3-4.5 min).

Group flags ONE SEAM #2 observation. Optional: 1 word
on SEAM #1 "alive / drifted."

5 × ~5 min = 20 min (tight).

SEAM #2 RULE:

ONE real second of breath between closing marker (PILLAR 1)

and opening marker (PILLAR 2), bridge formal→casual.

NOT "and then..." NOT "and so..." NOT silence-too-long.

HARDEST because momentum carries you in. Brake intentional.

KAREN: HOOK 40-50 + SEAM #1 + P1 45-60 + SEAM #2 + P2 45-60 — same standard.

NO IMPROVISATION:

Pick ONE SEAM #2 (closing + opening + anchor + Set #20
optional + physical brake). Drill THAT one.

NO PAPER:

Once Phase B starts, paper face down on floor.

Comes up ONLY if you freeze 5 sec.

MOMENTUM WARNING:

When you reach the end of PILLAR 1, your body will want
to keep going. That impulse is the enemy of SEAM #2.

Use your brake move (eye lift / shoulder drop / nose
inhale) AT THAT moment. Brake is not natural — it is
trained.

10. PEER TEACHER SLOT — 3 min — STAND UP

Pre-class: 1 oral error from previous class (typically: SEAM #1 rushed at end of mini-audience by fatigue / paper lifted in Phase B). Pivot: *"If SEAM #1 (already tuned) rushed at the end by fatigue, imagine SEAM #2 with momentum of 2-3 min behind. Brake technique is not occasional — it is repeated. Today two real brakes, not one."*

1. (15 sec) *"Today's peer teacher is [name]."*
2. (2.5 min) Explain + correct + chorus 2x.
3. (15 sec) Applause.

11. CHAINING HOOK + P1 + P2 NO PAPER — 45 min — STAND UP

PHASE A — ALONE (10 min)

Setup (~30 sec): each student with CI 19 script (HOOK + P1 + P2 visible). Visible countdown. Blank sheet for SEAM #2 planning line.

Instructions (30 sec): *"Write SEAM #2 planning line — closing marker (last beat of PILLAR 1), one second of breath, opening marker (first beat of PILLAR 2), anchor word walking across, optional Set #20 word, physical brake move (pick ONE). Cover paper. Say HOOK + SEAM #1 + P1 + SEAM #2 + P2 from memory three times. Goal: three clean attempts with BOTH seams alive. Silence except whispered drilling. Go."*

Teacher during 10 min: walk silent. Note in personal notebook who takes longest to write SEAM #2 planning line (signal: SEAM #2 will be improvised in performance). Note who covers paper fast (signal: HOOK+SEAM#1+P1 still solid + PILLAR 2 solid). Note who is already rushing SEAM #2 in silent practice (momentum wins even in silence).

PHASE B — PAIRS (15 min)

Setup (~1 min): 2 pairs + 1 trio. Paper DOWN.

Instructions (1 min): *"Paper face down. Partner A stands, says HOOK + SEAM #1 + P1 + SEAM #2 + P2 from memory. Partner B primary: SEAM #2 — flag ONE of three: breath real or rushed; closing marker P1 + opening marker P2 present; bridge formal→casual landed. Secondary ONE word only: SEAM #1 still alive or drifted. Swap. Each does 3 times. Coaching SEAM #2 mainly — do not touch PILLAR content."*

Teacher during 13 min: rotate silent (2-3 min per pair). Intervene only if drift (correcting PILLAR content → *"Content closed since CI 19. Today is SEAM #2 — closing marker on P1, breath, opening marker on P2. Go again."* OR SEAM #1 flagrant collapse → *"SEAM #1 lives. Don't waste yesterday's work. Today's eye is SEAM #2 but SEAM #1 cannot collapse."*). Note 3 errors with NAME per student (SEAM #2: momentum wins / rushed / closing marker P1 absent / opening marker P2 abrupt / bridge lost / improvising every time / SEAM #1 collapsed by fatigue).

PHASE C — MINI-AUDIENCE (20 min)

Setup (~1 min): chair/space at front. Other 4 in semicircle.

Per student (~3.5-4 min — tight):

~15 sec : speaker settles, breathes, "go"
~3-4 min : HOOK + SEAM #1 + P1 + SEAM #2 + P2 from memory
~30 sec : group gives ONE SEAM #2 observation + optional
1 word SEAM #1 "alive / drifted"
e.g. "SEAM #2: momentum won, no breath" /
"SEAM #2: brake landed, P2 entered fresh"
~15 sec : speaker says if she wants 1 more attempt or pass
~10 sec : applause, next settles

Insertion #4 — at close of student where SEAM #2 felt braked and landed: *"That brake right there — that is the phrase made visible. 'Temperance is what slows you down enough to land.' You had momentum, you braked, PILLAR 2 entered fresh. That is SEAM #2 forged."*

Teacher private notebook per student:

STUDENT: _____
TIME HOOK+SEAM#1+P1+SEAM#2+P2: ____ min ____ sec
HOOK+SEAM#1+P1 (from last class) stayed alive: yes / SEAM #1 rushed / individual piece fell
SEAM #2 (FOCUS TODAY):
- closing marker P1: present / vague / absent
- breath real ~1 sec / rushed by momentum / awkward >2 sec
- opening marker P2: present / abrupt / academic-rigid
- bridge formal→casual: yes / stayed academic
- anchor walking: yes / no
- Set #20 word used? which?
- physical brake used? (eye lift / shoulder drop / nose inhale / none)
- improvisation: planned SEAM #2 or improvised?
PILLAR 2 solid: yes / glance / pieces loose
INTONATION: P1 closes firm + P2 opens fresh / P1 closes up (question) / P2 opens high-tense
FILLERS IN SEAM #2: which (and then / and so / um / like / basically / right then)
SCRIPT on floor intact? yes / no

No grade. NOT communicated. Feeds adjustment; 2 strikes → coordination.

Close block: *"Five HOOK + P1 + P2 chained sets from memory. SEAM #2 has a face. Hold that. Next class PILLAR 3 and CTA join — full monologue, four seams, plus C4. Today the hardest seam is behind us."*

12. FULL RECAP — each recites chained HOOK+P1+P2 from memory — 9 min — STAND UP

Consolidate once more, no coaching — confirms SEAM #1 + SEAM #2 coexist without either rushing.

Per student (~1.5-1.8 min): teacher calls "[name], HOOK + SEAM #1 + PILLAR 1 + SEAM #2 + PILLAR 2, from memory." — chained recital (~80-100 sec) — "Thank you. Next." No comment.

5 × ~1.7 min = 8.5 min + 30 sec setup = ~9 min.

Karen: HOOK 40-50 + SEAM #1 + P1 45-60 + SEAM #2 + P2 45-60 — same standard.

Close: "All five second-link chained sets from memory, second pass, no coaching. SEAM #2 owned. SEAM #1 still alive. Next class adds PILLAR 3 + CTA — full monologue with all four seams — plus Checkpoint C4."

13. PHRASE CLOSE + PARAPHRASE + SEAM #2 SELF-OBSERVATION — 5 min — STAND UP

1. (1 min) "Today's phrase from memory — WITH intonation." — 1 at random.

2. (1 min) "Now PARAPHRASE." — another. **Insertion #5.**

3. (3 min) Each student in 1 sentence: which part of HER SEAM #2 was most solid today and which lacked precision (e.g. "el brake físico de bajar el hombro me salvó / elegí 'moreover' del Set #20 y aterrizó / el closing marker del PILLAR 1 todavía me sale vago bajo momentum / SEAM #1 se me atropelló al final por cansancio"). Teacher confirms — process, NOT grade.

14. ERROR PAPER LIVE — 5 min — STAND UP

Typical errors from chaining today:

1. ■ "[PILLAR 1 ends] and then my second reason is..."

(SEAM #2 dead, momentum won, no breath, no casual bridge)

→ ■ "[PILLAR 1 closing marker: '...and that is the foundation.']

(1 sec breath + shoulder drop) Now let me pivot — the second angle works differently..."

2. ■ "[PILLAR 1] [PILLAR 2 abrupt, word stuck to word]"

(momentum eliminated the seam entirely)

→ ■ "[PILLAR 1 closing marker], (1 sec breath + eye lift),

so let me bridge that — moreover, [PILLAR 2 casual]"

(explicit bridge + casual + Set #19 'bridge' + Set #20 'moreover')

3. ■ SEAM #1 alive in HOOK→PILLAR 1, but SEAM #2 rushed in PILLAR 1→PILLAR 2

(the speaker "knew" to brake first time but momentum won second)

→ ■ Brake physically TRAINED in SEAM #2: eye lift / shoulder drop /

nose inhale at close of PILLAR 1, before voice wants to continue.

Brake is not natural — it is trained.

4. ■ Inventing new SEAM #2 each attempt ("and so", "next thing", "ok then",

"moving on") → 5 attempts = 5 different seams, none owned

→ ■ One SEAM #2 chosen in Phase A planning + drilled in Phase B + delivered Phase C

5. ■ PILLAR 1 closes with rising intonation (question) → unstable SEAM #2 → PILLAR 2 enters defensive

→ ■ PILLAR 1 last sentence falling firm → stable breath with brake → PILLAR 2 fresh

6. ■ SEAM #1 (forged previous class) rushed today because "focus was SEAM #2" → both seams half-done

→ ■ SEAM #1 maintained in background + SEAM #2 new in focus. Both live.

Read paper. Cohort corrects 2x — naming LAYER that failed (closing marker P1 / opening marker P2 / bridge / repetition / intonation / physical brake) and which Set #20 word would tighten SEAM #2 (moreover / consequently / furthermore / nevertheless / accordingly / thereby).

15. CONTINUE WEEK 2 + TEMPERANCE v2 + STRICT HOMEWORK + ANNOUNCE CI 28 — 10 min — SIT

WEEK 2 OF PHASE 4 — DAY 2 OF 4 — CLOSE

→ Previous class: SEAM #1 forged (HOOK → PILLAR 1) ■

→ Today: SEAM #2 forged (PILLAR 1 → PILLAR 2, hardest of 4) ■

→ Next class CI 28: FULL monologue from memory (5 blocks + 4 seams)

+ CHECKPOINT C4 (3-min memorized video to coordination —

ROADMAP lines 146-153).

→ TEMPERANCE block continues. Day 1 was "live between two

ideas." Day 2 was "slow down enough to land the second bridge."

Day 3 next class will be "hold all four seams without rushing any."

→ Set #20 = COHESION vocabulary. 120 B2 words total.

> *This is what B2 requires. 45-60 min between classes. Final in ~13 classes. We don't lower the bar. Strict protocol: Mystery verifies 4 components → public nominal reading → no exceptions → 2 strikes = coordination.*

TAREA STRICT — 4 components

HOMEWORK — DUE: BEFORE NEXT CLASS Cl 28, 6:00 PM
TOTAL TIME: 45-60 min — NOT fragmented.

(1) DRILL CHAINING HOOK + P1 + P2 RECORDED 5 TIMES:
your voice, HOOK + SEAM #1 + P1 + SEAM #2 + P2 from memory,
no paper. ONE take each. ONE SEAM #2 chosen, drilled 5 times.
SEAM #1 stays alive in each drill.
- Label: B2-AMINA-CL27-LINK2-DRILL1 ... DRILL5
(20-25 min — longer than previous because 3 chunks not 2).

(2) RECORD 1 AUDIO FULL-V4 of the WHOLE monologue from memory.
MAINTENANCE + preparation of FULL of next class — you will
do the WHOLE thing live in Cl 28 and record C4. If FULL-V4
is clean, C4 will be clean.
- Label: B2-AMINA-CL27-FULL-V4
(8-10 min).

(3) LISTEN to your BEST SEAM #2 drill + 3 HANDWRITTEN improvements
ON SEAM #2 (e.g. "momentum won on attempt 3 — I didn't use
shoulder drop / I said 'and then' instead of my chosen
'moreover' / opening marker P2 sounded academic-rigid when
it should have been casual"). Bring sheet next class.
(8-10 min).

(4) REVIEW 120 WORDS (Sets #1-#20): mark the 15 still crossing.
Chorus next class. (10 min).

EXPLICIT: Today's unit is 3 chunks chained. Next class's is 5 +
4 seams + C4 video. If today's SEAM #2 does not enter your mouth
TONIGHT, next class FULL will have a hole in the middle and C4
will leave with that hole going to coordination. NO FRAGMENTATION.

Public reminder (2 min): "4 components by 6 PM next class. Name read if missing. 2 strikes = coordination. Tonight's job is the SECOND seam, drilled five times audio, plus one FULL-V4 of the whole monologue so the next class's C4 sits on a solid base, plus three handwritten improvements ON SEAM #2, plus 120-word review. The phrase still holds — the second bridge is the hardest, momentum already carries you, temperance is what slows you down enough to land. Next class Cl 28 is the FULL monologue from memory plus C4 — your 3-minute memorized video to coordination. We close week 2 of Phase 4."
