

B2 PM AMINA — CLASS 28 — Phase 4 close (day 8/8 — week 2 day 3 — FULL monologue + CHECKPOINT C4)

Session 28/36 · 2h (18:45–20:45) · ~85% standing

Date: ___/___/2026 · Attending: ___/5

Phase 4 close — day 8/8 — week 2 day 3 — MONOLOGUE (5 blocks + 4 seams) + C4

Virtue: TEMPERANCE v2 day 3 of 5 (block CI 26-30)

Phrase of the Day: *"Today the four bridges become one road — temperance is what makes the road feel calm, not rushed; the audience walks with you because you walked with them."*

Countdown: ~12 classes / ~16h to Final (CI 36)

BLOCK MAP (120 min)

| # | Min | Block | Stand? |

|---|---|---|---|

| 1 | 5 | Mystery + public reading (no-deliveries CI 27) | YES |

| 2 | 4 | Why today (Phase 4 closes, FULL + C4) | sit |

| 3 | 4 | Phrase of the Day | YES |

| 4 | 6 | Vocalization — 4 new tongue twisters (vocal stamina) | YES |

| 5 | 5 | VATS — TEMPERANCE v2 day 3 | sit |

| 6 | 5 | Recap express — architecture (4 seams traced) + 6 layers | sit + chorus |

| 7 | 7 | B2 Vocab SET #21 (synthesis/closure, total 126) | sit |

| 8 | 2 | Mental refresh — HOOK+SEAM#1+P1+SEAM#2+P2 + PILLAR 3 + CTA | YES |

| 9 | 7 | Whole-monologue plan + C4 protocol + SEAM #3 + SEAM #4 rules | sit |

| 10 | 3 | Peer Teacher (CI 27 error → pivot to compounded momentum) | YES |

| 11 | 40 | **WHOLE MONOLOGUE NO PAPER — alone 10 + pairs 15 + mini-audience 15** | YES |

| 12 | 17 | **■ C4 RECORDING — 3 min memory per student × 5 — coordination archive** | filmed standing, silent audience |

| 13 | 5 | Phrase close + paraphrase + 1 sentence on full arc | YES |

| 14 | 5 | Error paper live (full-monologue integration errors) | YES |

| 15 | 5 | Formal close Phase 4 + Phase 5 opens next class + STRICT homework | sit |

Bring to class: Mystery envelope · Error Paper sheet · stopwatch · personal notebook · physical script CI 19 per student (all 5 blocks visible) · blank sheet per student for SEAM #3 + SEAM #4 planning lines · **recording device (phone with >60% battery — confirmed yesterday with coordination)** · label template B2-AMINA-C4-[INITIAL].

C4 INTEGRATED (Diana 31/05/2026)

C4 does NOT generate _MARKER / _COORD_KIT / _RUBRICA separately. The checkpoint is INTEGRATED in this regular guide as block 12 (recording). Video delivered physically to coordination at close. Teacher does NOT communicate result — only coordination processes. Recording is operational, not evaluative in classroom.

1. MYSTERY HOMEWORK + PUBLIC READING — 5 min — STAND UP

Sealed envelope:

HOMEWORK MYSTERY — CL 28

In 60 seconds, recite your HOOK + SEAM #1 + PILLAR 1 + SEAM #2 + PILLAR 2 from MEMORY, no paper. Then PAUSE one beat, then say the FIRST sentence of your PILLAR 3, also from memory.

- Clean start (no "um, so")
- SEAM #1 + SEAM #2 from previous classes still alive
- HOOK + P1 + P2 fluid (no rushing despite compounded momentum)
- PILLAR 3 first sentence CLEAN from memory

GO!

Envelope → 1 min silence → 2-3 at random (+15 EP if HOOK+P1+P2 clean + first PILLAR 3 sentence clean; +10 EP if SEAM #1 and SEAM #2 held REAL breath despite being in the chain). Then **1 min public nominal reading** of who did NOT submit 4 CI 27 components (5 drills LINK2-DRILL1..5 + FULL-V4 + 3 improvements ON SEAM #2 + 120-word review). Note strike.

2. WHY TODAY — 4 min — SIT

> **"Mystery — accountability — ~12 classes to Final."*

> **Phrase of the Day names the integration: 'Today the four bridges become one road — temperance is what makes the road feel calm, not rushed; the audience walks with you because you walked with them.' [Insertion #1]**

> **Vocalization: 4 new tongue twisters — consonant clusters that CARRY long stretches without fatigue — vocal stamina the whole monologue demands in forty minutes.**

> *Previous classes: SEAM #1 forged (HOOK → PILLAR 1). SEAM #2 forged (PILLAR 1 → PILLAR 2, hardest by momentum).*

> *TODAY: SEAM #3 and SEAM #4 join, and ALL FIVE blocks chain. The whole monologue, from memory, no paper, five to seven minutes.*

> *SEAM #3 (PILLAR 2 → PILLAR 3) and SEAM #4 (PILLAR 3 → CTA) face MORE momentum than SEAM #2 did. By SEAM #3 you have spoken almost four minutes. By SEAM #4, almost five. Brake repeated FOUR times. Each repetition fights more momentum than the last.*

> *One big move: practice the WHOLE monologue without paper for 40 min — alone, pairs, mini-audience. Then a second move: record 3 min of memory for coordination — Checkpoint C4. Recording is operational, not evaluative.*

> *Set #21: 6 SYNTHESIS / CLOSING words. Words that wrap a long thought cleanly. Live inside SEAM #4 and CTA. 126 B2 words total.*

> *TEMPERANCE v2 day 3: day 1 was 'live between two ideas,' day 2 was 'slow down enough to land,' day 3 today is 'hold the brake four times in a row, when momentum compounds, without letting any seam die for the sake of another.*

> *Next class CI 29 OPENS PHASE 5 — Q&A; simulated. One student presents the whole monologue, the rest of us ask live questions, she answers without script. The road built today receives traffic next class.*

> *Now we begin.**

3. PHRASE OF THE DAY — 4 min — STAND UP

Write on the board (before class):

PHRASE OF THE DAY — CL 28
"Today the four bridges become one road —
temperance is what makes the road feel calm, not rushed;
the audience walks with you because you walked with them."

1. Read 2x with marked intonation (cumulative emphasis on *"the four bridges become one road"* — voice settles on *"one road"* as landing —, sustained calm on *"temperance is what makes the road feel calm, not rushed"*, intimate close on *"the audience walks with you because you walked with them"* — the word *with* repeated marks mutuality). Chorus 3x.
 2. *"'The four bridges become one road' names today's integration — what we forged in pieces all week becomes ONE thing. 'Temperance makes the road feel calm, not rushed' is the virtue today made concrete: four brakes in a row, momentum compounding, calm sustained. 'The audience walks with you because you walked with them' is a reminder for the mini-audience in twenty minutes AND for the camera in forty minutes — the camera is a future audience in coordination, and you walk with them by owning the ROAD, not by performing for the lens."*
 3. *"Sit. I will use this phrase five more times today."*
-

4. VOCALIZATION DRILL — 6 min — STAND UP

4 new tongue twisters (not CI 6-27) — phonetic focus on EXTENDED FLUIDITY / VOCAL STAMINA:

1. /str+/spr/: "Strong sprinters stride straight through spring storms; spring storms strain straight strong stride."
2. /scr+/nd/: "Scripted strands scratch scrambled sand-stands; sand-stands stand scripted scratched strands."
3. /st+/ks/: "Steady steps stack six sticks; six sticks stack steady stoic steps."
4. /kw+/gl/: "Quick glints glide quietly through quaint glass; quaint glass glistens quick quiet glints."

Per twister (~90 sec): slow 2x → chorus slow 3x → fast 2x → chorus fast 3x. *Stride / strand / sustain / glide / steady / stoic* are phonetic-semantic echo of Set #21 and STAMINA focus. Clusters /str/, /spr/, /scr/, /st/, /ks/ are what the voice uses repeatedly when the whole monologue runs without long pause.

5. VATS — TEMPERANCE v2 DAY 3 — 5 min — SIT

CI 28 = TEMPERANCE v2 day 3 (third day of block CI 26-30). Day 1 = "live between two ideas." Day 2 = "brake to land." Day 3 = **TEMPERANCE as BRAKE REPEATED against COMPOUNDED MOMENTUM.**

Temperance day 3 = maintain the brake first, second, third, fourth time in a row — when the natural impulse is to release the brake after the third because "you're in flow." Each successive seam faces more momentum than the last.

Insertion #2: *"That is exactly today's phrase: 'temperance is what makes the road feel calm, not rushed.' Day 3 IS the calm sustained across four brakes. Yesterday ONE brake. Today four in a row, and the fourth is the hardest because momentum has compounded all the way through."*

> *"*You already know ONE brake. Today you hold it FOUR times. The third and fourth will feel different from the second — by then you've been speaking almost five minutes, body in deep momentum, brain saying 'you are flowing, do not interrupt.' That is the lie of momentum at the end. Name ONE phrase you will say internally — silently, between SEAM #3 and the next breath — to remind yourself NOT to skip the brake. (Examples: 'one more bridge / hold it / brake again / road first, flow second.'). Pick ONE phrase. That is your temperance day 3.*"*

Pairs (2 min). 2 share + paraphrase their own sentence (3 min).

6. RECAP EXPRESS — 5 min — SIT + CHORUS

Board — 6 layers visible.

Board — full architecture with 4 seams TODAY ALL CHAINED:

MONOLOGUE ARCHITECTURE — 5 blocks, 4 seams

HOOK (1 min) — memorized Cl 21 ■
↓ SEAM #1 ■ (forged Cl 26 — LIVES)
PILLAR 1 of BODY (1-1.7 min) — memorized Cl 22 ■
↓ SEAM #2 ■ (forged Cl 27 — LIVES)
PILLAR 2 of BODY (1-1.7 min) — memorized Cl 23 ■
↓ SEAM #3 ■ TODAY (1 sec real breath + brake + closing/opening
markers + bridge — faces ~4 min momentum)
PILLAR 3 of BODY (1-1.7 min) — memorized Cl 24 ■
↓ SEAM #4 ■ TODAY (1 sec real breath + brake + bridge
formal-conclusive → personal-direct —
faces ~5 min momentum, most intimate seam)
CALL TO ACTION (30-60 sec) — memorized Cl 25 ■

TOTAL: 5 BLOCKS + 4 SEAMS = 5-7 MIN FROM MEMORY NO PAPER

THE 6 LAYERS sustain ALL FOUR SEAMS today:
Each PILLAR closes with CLOSING discourse marker
Each next block opens with OPENING discourse marker
Bridge formal→casual lives IN each seam
Intonation DROPS firm at each close, LIFTS fresh at each open
ANCHOR words walk across PILLARS (1-2 words re-named for continuity)
Repetition: 1-2 deliberate echo words carry across
PREVIOUSLY FORGED SEAMS (#1, #2) stay alive in composition

Chorus drill (3 min): "Closing marker on PILLAR 2?" — 3 examples ("and there sits the second piece;" / "the second angle holds —" / "so the body's middle is set —"). "Opening marker on PILLAR 3?" — ("now the third move —" / "finally, a third turn enters;" / "from there, one last angle —"). "Closing marker on PILLAR 3?" — ("and that completes the body of it;" / "with those three angles set —" / "the three threads now hold —"). "Opening marker on CTA?" — ("so what does this ask of you —" / "here is what I want you to do;" / "and that brings me to you —"). "The brake repeated four times?" — "one second of breath, physical brake, four times in a row, no shortcut on the last two."

7. ACADEMIC B2 VOCAB SET #21 — 7 min — SIT

Board — write BEFORE class (6 NEW words — synthesis / closure of extended thought):

ACADEMIC B2 SET #21 (CL 28) — SYNTHESIS / CLOSURE
USE these to LAND a 5-7 minute monologue cleanly.
Live inside SEAM #4 and CTA.

1. CULMINATE /kʌlmɪneɪt/ — culminar (verb, cumulative close)
"These three angles culminate in one question —
and that is what I want to leave with you."
2. ENCAPSULATE /ɪnˌkæpsjuleɪt/ — encapsular (synthesis)
"If I had to encapsulate the whole picture, it would be this..."
3. SYNTHESIZE /sɪnθəsaɪz/ — sintetizar (academic integration)
"Let me synthesize the three pillars now: ..."
4. DISTILL /dɪstɪl/ — destilar (figurative clarity)
"What this all distills down to is one simple choice."
5. UNDERSCORE /ˌʌndərskɔːr/ — subrayar (final emphasis)
"And that underscores what I asked you at the beginning: ..."
6. CONVERGE /kənˈvɜːrd/ — converger (structural close)
"The three lines converge here — and the action I am asking
from you sits exactly at that point."

Per word (~50 sec): pronounce 2x → cohort 2x → definition → example → 1 student AT RANDOM uses the word in 1 sentence as POSSIBLE SEAM #4 between THEIR PILLAR 3 and THEIR CTA.

Close (1 min): "126 B2 words total. Set #21 is the SYNTHESIS / CLOSURE set — these are the words that LAND a 5-7 minute monologue. Live inside SEAM #4 and the CTA. As you practice the whole monologue, choose ONE to anchor SEAM #4 — DRILL THAT ONE. SEAM #4 is the most intimate of the four — these closure verbs help it land."

8. MENTAL REFRESH — chained part + PILLAR 3 + CTA individual — 2 min — STAND UP

Not rehearsal. Mental check — confirm chained part (Cl 26+27) + PILLAR 3 + CTA individuals all live before forging SEAM #3 + SEAM #4.

1. (15 sec) "Stand up. Eyes soft. No paper."
2. (90 sec) "In your head — silent — run HOOK + SEAM #1 + P1 + SEAM #2 + P2 the way it lived yesterday. End it. Reset. Run PILLAR 3 alone as you memorized it in Cl 24. End it. Reset. Run CTA alone as you memorized it in Cl 25. End it. Three units, no SEAM #3 yet, no SEAM #4 yet."

3. (15 sec) "Open eyes. If the chained part felt loose, or PILLAR 3 or CTA felt loose, you know what to repair tonight. Today's work is SEAM #3 + SEAM #4 + integration — sit."

Not evaluated. Metacognition.

9. WHOLE-MONOLOGUE PLAN + C4 PROTOCOL + SEAM #3 + SEAM #4 RULES — 7 min — SIT

> *"Day 8 — close of Phase 4. SEAM #3 and SEAM #4 join the chain, and all five blocks run together. Whole monologue, no paper, 5-7 min. SEAMS #1 and #2 stay alive. Forty minutes split three ways: ten alone with paper writing planning lines for SEAM #3 and SEAM #4; fifteen in pairs no paper, partner observes all four seams briefly; fifteen mini-audience, each says the whole monologue from memory once. By the end, the whole road lives in your mouth. Then seventeen minutes recording — three minutes of memory each, archived for coordination. That is C4. No commentary from me — coordination handles it. Next class Phase 5 opens."*

Insertion #3: *"Today the four bridges become one road; temperance is what makes the road feel calm, not rushed.' That phrase IS the technique. Four brakes, sustained, road calm. The recording at the end is just one more audience — coordination, future, archived."*

Board — PHASES OF PRACTICE:

WHOLE-MONOLOGUE PRACTICE — NO PAPER — CL 28
UNIT: HOOK + 4 SEAMS + 3 PILLARS + CTA = FULL 5-7 MIN

PHASE A — ALONE (10 min):
Paper out. Look at END of PILLAR 2 and START of PILLAR 3
(for SEAM #3). Then END of PILLAR 3 and START of CTA
(for SEAM #4).
Write TWO planning lines:
"MY SEAM #3 (P2 → P3):
closing marker P2 = ____
breath = 1 full second
opening marker P3 = ____
bridge formal→casual = yes
anchor walking across = ____
Set #20 word (optional) = ____
physical brake move = ____"
"MY SEAM #4 (P3 → CTA):
closing marker P3 = ____
breath = 1 full second
opening marker CTA = ____
bridge formal-conclusive → personal-direct
anchor walking across = ____
Set #21 word (optional) = culminate / encapsulate /
synthesize / distill / underscore / converge
physical brake move = ____"
(SEAM #1 + SEAM #2 planning lines from previous days STILL apply.)
Cover paper. Say WHOLE monologue from memory. Goal: 2 clean
whole attempts (10 min = 2 attempts of 5-7 min each).

PHASE B — PAIRS (15 min):
Paper DOWN. A stands, says WHOLE monologue from memory.
B listens for ALL FOUR seams but flags ONE of two:
(1) which seam was WEAKEST today (skipped, rushed, no brake)
(2) which seam was STRONGEST (breath, brake, markers, bridge all alive)
Swap. Each does it 1 time (5-7 min + 1-2 min coaching = ~7-8 min per round x 2 = 15 min).

PHASE C — MINI-AUDIENCE (15 min):
Each STANDS, says WHOLE monologue once from memory
(~3 min target — condensed acceptable since C4 also 3 min
and follows immediately).
Group flags ONE seam observation (any of the four).
5 × ~3 min = 15 min. Also WARM-UP for C4.

SEAM #3 RULE (P2 → P3):
ONE real second of breath + physical brake (eye lift /
shoulder drop / nose inhale) + closing marker P2 + opening
marker P3 + bridge formal→casual. Enters with ~4 min
momentum behind. Instinct says "you're flowing, do not
interrupt." Lie. Brake.

SEAM #4 RULE (P3 → CTA — most intimate):
ONE real second of breath + physical brake + closing marker
P3 (synthesis-tone, often Set #21) + opening marker CTA
(personal-direct, lower intonation, eyes on audience) +
bridge formal-conclusive → personal-direct.
PILLAR 3 ends in conclusion register; CTA opens in personal-
direct register. By here you have spoken ~5 min. Hardest of
four. Templanza day 3.

NO IMPROVISATION:

Pick ONE SEAM #3 + ONE SEAM #4 in planning lines, drill THOSE.

NO PAPER:

Once Phase B starts, paper face down on floor.

Comes up ONLY if you freeze 5 sec.

COMPOSED-MOMENTUM WARNING:

By SEAM #3 you have ~4 min behind. By SEAM #4, ~5. Each brake fights MORE momentum than the last. Brakes #3 and #4 are NOT softer versions of brake #1 — they are the same brake applied against more force. No shortcut on the last two seams.

C4 PROTOCOL (block 12):

- Quiet setup ~1 min: phone propped, framing tight on speaker.
- Each student records 3 min of memory (her choice of window — HOOK+P1, P1+P2, or CTA contextualized).
- Teacher silent. Audience silent. No applause until recording stops.
- Label: B2-AMINA-C4-[STUDENT-INITIAL] (e.g. B2-AMINA-C4-K)
- Teacher closes with ONLY: "Thank you. Archived for coordination."
- NO commentary on quality. NO note. NO advice.

10. PEER TEACHER SLOT — 3 min — STAND UP

Pre-class: 1 oral error from CI 27 (typically: SEAM #2 rushed under momentum / brake forgotten / "and so" filler / planning line written slowly = SEAM #2 improvised). Pivot: "If SEAM #2 with momentum of 2-3 min cost a physical brake, today SEAM #3 comes with momentum of 4 min and SEAM #4 with 5 min — same brake applied 4 times in a row against growing force. Technique doesn't change; discipline of repeating it does."

1. (15 sec) "Today's peer teacher is [name]."
2. (2.5 min) Explain + correct + chorus 2x. (Show how risk of SEAM #3 and SEAM #4 is the **compounded version** of SEAM #2's risk: brake antinatural now done 4 times in a row. Brake is trained, not automatic. Transfers to SEAM #3 + SEAM #4 in FULL today and to Q&A; responses next class.)
3. (15 sec) Applause.

11. WHOLE MONOLOGUE NO PAPER — 40 min — STAND UP

PHASE A — ALONE (10 min)

Setup (~30 sec): each student with CI 19 script (all 5 blocks visible). Visible countdown. Blank sheet for TWO planning lines (SEAM #3 + SEAM #4). SEAM #1 + SEAM #2 planning lines from previous days STILL valid.

Instructions (30 sec): "Write TWO planning lines: MY SEAM #3 — closing marker (last beat of PILLAR 2), one second of breath, opening marker (first beat of PILLAR 3), anchor word walking across, optional Set #20 word, physical brake move. THEN: MY SEAM #4 — closing marker (last beat of PILLAR 3), one second of breath, opening marker (first beat of CTA in personal-direct register), anchor walking across, optional Set #21 word (culminate / encapsulate / synthesize / distill / underscore / converge), physical brake move. TWO lines, not rewrites. Cover paper. Say WHOLE monologue from memory twice. Goal: 2 clean whole attempts with all four seams alive. Silence except whispered drilling. Go."

Teacher during 10 min: walk silent. Note in personal notebook who takes longest to write TWO planning lines (signal: SEAM #3 or SEAM #4 will be improvised, risk for C4 in 30 min). Note who covers paper fast and starts whole-monologue drill (signal: individual pieces solid + composition possible). Note who already collapses on PILLAR 3 mid-way or skips SEAM #4 (signal extreme, critical risk for C4).

PHASE B — PAIRS (15 min)

Setup (~1 min): 2 pairs + 1 trio. Paper DOWN.

Instructions (1 min): "Paper face down. Partner A stands, says WHOLE monologue from memory. Partner B listens for all four seams. Two flags only: one — which seam was WEAKEST today (skipped, rushed, no brake, bridge failed); two — which seam was STRONGEST (breath, brake, markers, casual bridge all alive). Swap. Each does it ONCE through (5-7 min) + 1-2 min coaching. Two rounds = 15 min. Honest coaching — name weakest, name strongest, do not touch PILLAR content."

Teacher during 13 min: rotate silent between pairs (~3-4 min each). Intervene only if drift (correcting PILLAR 3 content → "Content closed since CI 19. Today is the four seams + integration. Go again on the seams." OR SEAM #1 or #2 flagrant collapse → "Earlier seams live. Don't trade them for #3 or #4 — all four ride together."). Note 3 errors with NAME per student (INTEGRATION: SEAM #3 skipped under compounded momentum / SEAM #4 abrupt / CTA rushed / PILLAR 3 collapses mid-way / SEAM #1 or #2 collapsed by composition / brake forgotten on seams 3-4 / fillers reappear).

PHASE C — MINI-AUDIENCE (15 min)

Setup (~1 min): chair/space at front. Other 4 in semicircle. **Also WARM-UP for C4** — same target duration (~3 min), same memory, same physicality.

Per student (~3 min — tight):

-10 sec : speaker settles, breathes, "go"
 -3 min : WHOLE monologue from memory (condensed acceptable – target 3 min since C4 is 3 min and follows)
 -20 sec : group gives ONE seam observation (any of the four)
 e.g. "SEAM #3: brake landed, P3 entered fresh" /
 "SEAM #4: rushed, CTA stuck to P3" /
 "SEAM #2: still alive even under composition"
 -10 sec : applause, next settles

Insertion #4 — at close of student where all 4 seams felt sustained in calm: *"That right there — that was the phrase. 'Temperance is what makes the road feel calm, not rushed.' Four bridges, one road, calm sustained. The audience walked with you."*

Teacher private notebook per student:

STUDENT: _____
 TIME WHOLE MONOLOGUE: ____ min ____ sec (target ~3 min for C4 warm-up)
 SEAM #1: alive / drifted / collapsed
 SEAM #2: alive / drifted / collapsed
 SEAM #3 (FOCUS TODAY):
 - closing marker P2: yes / vague / absent
 - breath ~1 sec / rushed / >2 sec
 - opening marker P3: yes / abrupt / academic
 - bridge formal→casual: yes / academic
 - anchor walking: yes / no
 - Set #20 word: which?
 - physical brake (eye lift / shoulder drop / nose inhale / none): ____
 SEAM #4 (FOCUS TODAY – most intimate):
 - closing marker P3 (synthesis-tone): yes / vague
 - breath ~1 sec / rushed
 - opening marker CTA personal-direct: yes / abrupt
 - bridge formal-conclusive → personal-direct: yes / stayed formal
 - Set #21 word (culminate / encapsulate / synthesize / distill / underscore / converge): ____
 - physical brake: ____
 - CTA landed with eye contact and slow pace: yes / no
 PILLAR 3 solid: yes / glance / fell
 CTA solid: yes / rushed / improvised
 NEW FILLERS IN SEAMS 3-4: which (and then / and so / um / like / basically / moving on / right then)
 SCRIPT on floor intact? yes / no
 C4 PREPARATION READY: yes / questionable

No grade. NOT communicated.

Close mini-audience: *"Five whole monologues from memory. All four seams have a face. Five blocks chained. Phase 4 in your mouth. Now we record three minutes of memory for coordination — Checkpoint C4. Same as you just did. The recording is operational — coordination processes. I will say only 'thank you, archived for coordination' after each one. No commentary. Sit briefly while I set up the phone."*

12. ■ C4 RECORDING — 3 min memory per student — 17 min — STANDING FILMED, SILENT AUDIENCE

Setup (~1 min): phone confirmed (teacher's device, battery >60% verified in pre-flight, or coordination device). Space at front with natural light / lamp. Other 4 seated in semicircle in silence. No additional phones on.

Insertion #5 (just before first recording): *"Before we record — remember the phrase: 'the audience walks with you because you walked with them.' The camera is a future audience in coordination. Walk with them by owning the road. Three minutes. From memory. Calm, not rushed."*

Per student (~3 min × 5 = 15 min + setup/transitions = 17 min):

-5 sec : teacher says name and "ready when you are"
 -10 sec : speaker chooses her 3-min window (HOOK+P1 / P1+P2 / PILLAR 3+CTA / any window – she was told in block 9 she could choose)
 -3 min : recording – speaker from memory, no paper, audience silent (no applause, no audible nods, no gestures)
 -5 sec : teacher stops recording
 -5 sec : teacher says ONLY: "Thank you. Archived for coordination."
 -10 sec : group applause (after the neutral phrase – applause is cohesion not grading)
 -10 sec : transition – teacher labels file B2-AMINA-C4-[STUDENT-INITIAL], next settles

ABSOLUTES OF BLOCK 12:

- **NO quality comment.** No "good job," no "nice," no "try again," no "almost." ONLY *"Thank you. Archived for coordination."*
- **NO grade.** Not in the moment, not after. Recording goes to coordination WITHOUT interpretation.
- **NO take repetition.** One take per student. If she flagrantly trips, she can say "let me restart" ONCE (Heiiu operational criterion — not counted as evaluation). If she trips again, continue. Coordination will see the file as is.
- **NO live correction.** If a student skips SEAM #3 during the recording, DO NOT interrupt. Coordination will see it.
- **YES, label immediately** after each recording (B2-AMINA-C4-[INITIAL]) — never accumulate without label.
- **YES, archive at close** per the protocol confirmed with coordination at end of CI 27.

Teacher private notebook (after each recording, not during):

STUDENT: _____
3 MIN WINDOW chosen: _____
COMPLETE CLEAN / TRIP x1 + RECOVERED / TRIP x2 / RESTART USED / DID NOT FINISH 3 MIN
SEAMS PRESENT IN THE 3 MIN: ____ (which)
OPERATIONAL NOTE (NOT evaluative – only so coordination understands context if they ask):
e.g. "Chose P1+P2 – SEAM #2 alive" / "Chose HOOK+P1 – SEAM #1 alive" /
"Chose CTA contextualized – SEAM #4 alive"
FILE LABELED + SAVED: yes / no

Notebook does NOT communicate result. Operational context only. Coordination asks if needed.

Close block 12 (after 5th file): *"Five recordings archived for coordination. Phase 4 closes. Next class Phase 5 opens — Q&A simulated. Sit quickly while we wrap with phrase, errors, and tonight's tarea."*

13. PHRASE CLOSE + PARAPHRASE + 1 SENTENCE ON FULL ARC — 5 min — STAND UP

1. (1 min) *"Today's phrase from memory — WITH intonation."* — 1 at random.
2. (1 min) *"Now PARAPHRASE."* — another. **Insertion #6.**
3. (3 min) Each student in 1 sentence: how the COMPLETE ARC felt in mini-audience or C4 (e.g. *"the third seam felt natural / the fourth seam slipped because I rushed the CTA / I held all four brakes / I lost PILLAR 3 in the middle but recovered / SEAM #4 with 'culminate' from Set #21 landed clean"*). Teacher confirms — process, NOT grade. **DO NOT mention the recording specifically** — that is coordination archive.

14. ERROR PAPER LIVE — 5 min — STAND UP

Typical errors from whole monologue today:

1. ■ "[PILLAR 2 ends] [PILLAR 3 abrupt without SEAM #3]"
(compounded momentum eliminated SEAM #3 entirely – speaker "jumped" P2 to P3 in flow)
→ ■ "[PILLAR 2 closing marker], (1 sec breath + shoulder drop),
now the third move – [PILLAR 3 casual]"
2. ■ "[PILLAR 3] and that's basically my conclusion so you should..."
(SEAM #4 dead, CTA rushed, "basically" filler, no synthesis verb, no register shift)
→ ■ "[PILLAR 3 closing marker], (1 sec breath + nose inhale + eye lift),
so all this culminates in one question – [CTA in personal-direct register,
slower pace, eyes on you]"
(Set #21 'culminate' used, trained physical brake, real register shift)
3. ■ SEAM #1 + SEAM #2 alive in C1 26+27 but rushed today in composition because "focus was #3 and #4" → all 4 seams half-done
→ ■ ALL seams sustained in whole monologue – SEAM #3 + #4 new in focus
BUT SEAM #1 + #2 maintained. Four brakes sustained without sacrificing any.
4. ■ PILLAR 3 collapses mid-way – speaker goes blank and starts improvising content
(individual script wasn't solid entering whole monologue)
→ ■ Mental refresh at start detected the weak piece; extra work on PILLAR 3
TONIGHT (enters the 3 handwritten improvements of homework)
5. ■ Inventing new SEAM #3 or SEAM #4 each attempt ("ok then", "moving on", "to wrap up",
"in conclusion", "anyway", "so yeah") → 5 attempts = 5 different seams, none owned
→ ■ One SEAM #3 chosen in planning line + one SEAM #4 chosen + drilled in B+C + said in C4
6. ■ CTA rushed by hurry to "finish" – speaker said CTA fast as if the recording would run out
→ ■ CTA in SLOW pace, eye contact, you-language, personal-direct register –
most intimate part of the monologue, not the most urgent
7. ■ Physical brake forgotten on SEAM #3 or SEAM #4 – "I was in flow, forgot the shoulder drop / eye lift"
→ ■ Temperance day 3 = TRAINED brake repeated 4 times. Not reflex, choice.
Four choices in a row, not one.
8. ■ During C4 recording a speaker made eye contact with teacher or audience seeking validation while speaking
→ ■ During C4 eye contact is with the camera as if it were the future audience –
coordination. Treat the lens as a real listener.

Read paper. Cohort corrects 2x — naming which SEAM failed (of 4) + which LAYER (closing marker / opening marker / bridge / repetition / intonation / physical brake) + which Set #21 word would tighten SEAM #4 (culminate / encapsulate / synthesize / distill / underscore / converge).

15. FORMAL CLOSE PHASE 4 + PHASE 5 OPENS NEXT CLASS + STRICT HOMEWORK — 5 min — SIT

PHASE 4 CLOSING TODAY – PHASE 5 OPENS NEXT CLASS

→ Cl 21: HOOK memorized ■
→ Cl 22: PILLAR 1 memorized ■
→ Cl 23: PILLAR 2 memorized ■
→ Cl 24: PILLAR 3 memorized ■
→ Cl 25: CTA memorized ■
→ Cl 26: SEAM #1 forged ■
→ Cl 27: SEAM #2 forged ■
→ Cl 28: SEAM #3 + SEAM #4 forged + WHOLE MONOLOGUE + C4 ■
→ EIGHT SESSIONS LAND IN ONE ROAD.

→ TEMPERANCE block continues. Day 1 was "live between two ideas."
Day 2 was "slow down enough to land." Day 3 today was "hold the
brake four times, composed momentum, calm sustained." Day 4 next
class will be "stay calm while answers fly back at you live."

→ Set #21 = SYNTHESIS vocabulary. 126 B2 words total.

→ NEXT CLASS Cl 29 OPENS PHASE 5 – Q&A; SIMULATED. ONE student
stands and delivers the whole monologue. Rest of us + me ask LIVE
questions. She answers without script. ~25 min per student. Roadmap
lines 131-139. Road is built; next class it receives traffic.

→ THANK YOU. Phase 4 closed. C4 archived. ~12 classes to Final.

> *"This is what B2 requires. 45-60 min between classes. Final in ~12 classes. We don't lower the bar. Strict protocol: Mystery verifies 4 components → public nominal reading → no exceptions → 2 strikes = coordination."*

TAREA STRICT — 4 components

HOMEWORK – DUE: BEFORE NEXT CLASS Cl 29, 6:00 PM
TOTAL TIME: 45-60 min – NOT fragmented.

(1) DRILL WHOLE MONOLOGUE FULL-V5 RECORDED 5 TIMES:
your voice, HOOK + 4 SEAMS + 3 PILLARS + CTA from memory,
no paper, 5-7 min each take. ONE take each. The 4 seams
trained today maintained in each drill.
- Label: B2-AMINA-CL28-FULL-V5-DRILL1 ... DRILL5
(25-35 min total – this is the bulk).

(2) RECORD 1 Q&A; SPONTANEOUS AUDIO: your voice, 3 min,
answering 3 SPONTANEOUS questions you ask yourself about
your topic. Improvised – don't prepare questions or
answers. PREPARATION for Phase 5 opening next class – Q&A;
simulated. One question per minute roughly. If you trip,
keep going, don't restart.
- Label: B2-AMINA-CL28-QA-SPONT-V1
(5-8 min).

(3) 3 HANDWRITTEN IMPROVEMENTS on the WHOLE monologue today
(e.g. "SEAM #3 rushed because momentum / CTA came out fast
when it should be slow / forgot shoulder drop on SEAM #4 /
PILLAR 3 collapsed mid-way – more isolated PILLAR 3 drill
tonight / didn't use any Set #21 word – choose 'synthesize'
for SEAM #4 next class"). Bring sheet next class. (5-8 min).

(4) REVIEW 126 WORDS (Sets #1-#21): mark the 15 still crossing.
Chorus next class. (8-10 min).

EXPLICIT: Today's unit was the whole monologue + C4 recorded and
archived. Tomorrow's unit is Q&A; simulated live – one of you
presents and we respond with questions live ~25 min. The Q&A;
spontaneous audio of homework is the PREPARATION. If you skip it,
tomorrow you enter Q&A; cold. Recording is done; next step is
sustaining the monologue WITH questions on top. NO FRAGMENTATION.

Public reminder (close, ~1 min): "4 components by 6 PM next class. Name read if missing. 2 strikes = coordination. Tonight's job is the whole monologue drilled five times audio plus your first Q&A spontaneous audio plus three handwritten improvements plus 126-word review. The phrase still holds — the four bridges become one road; temperance makes the road feel calm, not rushed; the audience walks with you because you walked with them. Next class Cl 29 opens Phase 5: Q&A simulated. Phase 4 is closed. C4 is archived. ~12 classes to Final."

DELIVERABLES TO COORDINATION

• [] Printed report filled

- [] Photo of Mystery envelope
 - [] Nominal list of no-deliveries CI 27
 - [] Photo of the board — Phrase + Set #21 (6 synthesis words) + Architecture with 4 seams (SEAM #1 ■ + SEAM #2 ■ + SEAM #3 TODAY + SEAM #4 TODAY) + Whole-monologue rules + C4 protocol + Close message
 - [] Anonymous Error Paper (physical)
 - [] Personal notebook page: 3 literal errors + NAMES (integration errors)
 - [] ■ C4 — 5 VIDEOS ARCHIVED labeled B2-AMINA-C4-[INITIAL] per coordination protocol
 - [] Personal notebook with C4 operational notes (3-min window chosen + complete/trip + seams present + file status) — operational context, NOT evaluation
 - [] Alert: students at 2 strikes
 - [] Alert URGENT: anyone who did NOT achieve 3 continuous min from memory in C4 (restart used / tripped >1 / didn't finish 3 min) — that student enters Phase 5 next class at risk
 - [] Alert: how many students "skipped" SEAM #3 or SEAM #4 under compounded momentum in mini-audience — extreme signal, predicts unstable Q&A; next class
 - [] Confirmation of Phase 4 formal close + Phase 5 announcement (CI 29 = Q&A; simulated day 1)
 - [] Count of Phrase of the Day natural insertions (target: 6 marked, including #5 just before C4 recording)
-

NOTAS INTERNAS (no leer en clase)

- **Fase del Roadmap:** CI 28 = Fase 4 día 8/8 (CIERRE) — semana 2 día 3/4 — MONÓLOGO COMPLETO + C4. Roadmap líneas 120-129 + 146-153.
- **Virtud:** CI 28 = TEMPLANZA v2 día 3 (bloque CI 26-30). CI 29 = día 4 (Fase 5 abre). CI 30 = día 5 cierre bloque.
- **Próximas:** CI 29 jueves = APERTURA FASE 5 Q&A; SIMULADO día 1 (Roadmap líneas 131-139). CI 30 viernes = día 2. CI 31 lunes = día 3 (JUSTICIA v2 abre). CI 35 viernes = ensayo general. CI 36 lunes = FINAL OFICIAL + FORTALEZA v2.
- **C4 INTEGRADO** (Diana 31/05): grabación operacional sin comentario evaluativo, archivo etiquetado B2-AMINA-C4-[INICIAL], entregado según protocolo coordinación confirmado CI 27.
- **GoldList ELIMINADO** desde 14/05. Solo Frase del Día.
- **Supuesto (verificar):** Set #21 con 6 synthesis/closure verbs (culminate / encapsulate / synthesize / distill / underscore / converge). Si alguna ya está en Sets previos, sustituir por: crystallize / consolidate / cap off / wrap up / sum up / drive home.
- **Supuesto (verificar):** "brake físico" repetido 4 veces seguidas como TEMPLANZA día 3 es desarrollo Heiiu, continuidad de la técnica CI 27.
- **Supuesto (verificar):** elección flexible de la ventana 3 min para C4 (HOOK+P1 / P1+P2 / CTA contextualizado / cualquiera) es interpretación operativa Heiiu. Verificar si Diana prefiere ventana fija obligatoria (ej. "primeros 3 min del monólogo").
- **Orden CI 29 presentadoras:** definir con coordinación al cierre de hoy según lectura archivos C4 (criterio sugerido: la más sólida en C4 abre CI 29 para modelar el formato).
