

B2 PM AMINA — CLASS 33 — SECOND DEDICATED Tue/Thu (3 B2 + Amina only) — PHASE 5 MONOLOGUE REFINEMENT + Q&A; INTENSIVE HARDER (3 ROUNDS × 3 QUESTIONS) — IMMERSIVE 4-BLOCK MODEL

Session 33 · 2h (18:30–20:30)
Date: ____ / 06 / 2026 · Attending: ____/3

OPERATING NOTE: Second dedicated Tue/Thu since Diana 10/06 restructure (CI 32 setup REFRAME ROLE MODEL · CI 33 today = Phase 5 refinement + harder Q&A + Set #25 HOLDING THE TURN · CI 34 closing voice + Set #26). Diana 18/06: old guides felt robotic — 13 short blocks, teacher pauses every 15-20 min. New model = 4 long immersive blocks, teacher coaches during student work, no format change in 45 min.
Virtue: JUSTICE v2 day 3 of 5 (block CI 31-35) — CI 31 day 1 (united) · CI 32 day 2 (first dedicated) · CI 33 today day 3 (second dedicated) · CI 34 day 4 · CI 35 day 5 closes block.
Phrase of the Day: *"Justice day 3 — when the floor is yours, justice is naming what you actually mean, not what is safer to say; the room is owed the SHAPE the question asked for, not the shape you rehearsed."*
Countdown: ~14h to Final (CI 36 — 30/06/2026 — administered by EXTERNAL evaluator from coordinación, NOT Amina)

BLOCK MAP (120 min) — 4 IMMERSIVE BLOCKS

#	Min	Block	Stand?
1	10	**OPENER** — Phrase + JUSTICE day 3 named · 4 tongue twisters · 60-sec mystery (DID / DIDN'T from united classes)	mixed
2	50	**CONTENT** — **Phase 5 monologue refinement craft + Set #25 PRECISION integrated + pair sharpening of one weak 60-sec spot**	mixed (sit craft → stand rehearsal)
3	45	**LIVE APPLICATION** — **Q&A INTENSIVE: 3 rounds × 3 questions each, all 3 students rotate (B1-explain · skeptic · honest gap)**	STAND (each delivers, others audience)
4	15	**CLOSE** — **Error paper recap · Phrase close · Strict 4-component homework · LIVE protocol for next united class written on board**	sit + notebook
Bring to class: Error Paper sheet · stopwatch (80-sec Q&A answer cap + 60-sec sharpening spot timing) · personal notebook · the 3 students' "Why Colombia" topic full sheets · empty board space for: (a) Phrase of the Day pre-written, (b) Set #25 6 words pre-written, (c) NEXT-UNITED PROTOCOL 3 decisions written live in block 4.

EVENTS INTEGRATED (Diana 31/05 + 10/06 + 18/06 immersive model)

Second dedicated Tue/Thu. No _MARKER / _COORD_KIT files. Phrase of the Day, JUSTICE virtue day 3, Set #25 vocab, vocalization, mystery (DID / DIDN'T from the united classes lived between CI 32 and today), error paper, peer feedback — ALL integrated inside the 4 blocks. No standalone VATS block. No standalone vocab block. No standalone peer-teaching block. CI 36 Final = 30/06 = external coordinator from coordinación applies the Final — Amina is NOT proctor. Mentioned briefly in opener + block 3 setup + close.

1. OPENER — 10 min — MIXED

Function: light the room, plant the Phrase, fire vocal cords, surface ONE moment each student DID say + ONE they DIDN'T from the united classes lived between CI 32 and today so the immersive blocks land warm with real data. No long explanations. Tempo.
(1 min) Amina opens — sitting, calm
> *"Welcome to the second Tuesday/Thursday only the three of us. Today is JUSTICE day 3 of 5 — CI 34 day 4 and CI 35 day 5 close the block. We are roughly fourteen hours from the Final on 30 June, administered by the external coordinator from coordinación — not me. Today is refinement. Today is shape-fit."*

(2 min) Phrase of the Day — STAND for the chorus

Phrase pre-written on board:

PHRASE OF THE DAY — CL 33
"Justice day 3 — when the floor is yours,
justice is naming what you actually mean,
not what is safer to say; the room is owed
the SHAPE the question asked for, not the
shape you rehearsed."

Read 2x with marked intonation (slow weight on *"when the floor is yours"* — claim already made, not requested —, firm grounded descent on *"naming what you actually mean"* — voice settles, no hedging tone —, brief contained pause before *"not what is safer to say"* — the air around *safer* exposes the temptation —, deliberate slow pace on *"the SHAPE the question asked for"* — SHAPE stretched, the audible commitment to precision —, anchored close on *"not the shape you rehearsed"* — *rehearsed* spoken almost flat, refusing the comfort). Chorus 2x. ONE student says it solo from memory. **[Insertion #1]** *"Four sets built you to the floor and let you hold it. Set #25 today is the language of PRECISION — what comes out of your mouth once the floor is yours is the shape the question asked, not the shape you rehearsed last night."*

(3 min) Vocalization — 4 NEW tongue twisters — focus on PRECISION UNDER LOAD (consonants that collapse to mush at minute 5 of a 7-min monologue when breath fails)

1. /s/+/■/ sibilant precision: "Six sharp scholars shared specific theses; specific theses showcased sharper sources, sharper sources sustained scholarship."
2. /θ/+/ð/ dental anchor: "Thoughtful thinkers thoroughly threaded theories through thirteen thorough threads; thirteen threads then thinned, thickened, then thrived."
3. /l/+/r/ liquid contrast: "Reliable lecturers rarely relented; relentless lecturers really relied on literal literary lore, literal lore relayed clearly."
4. /n/+/m/ nasal close: "Nine nimble minds named numerous nuanced moments; numerous nuanced moments named nine minds memorable, memorable means meaningful."

Per twister (~45 sec total, all 4): slow chorus 1x → fast chorus 1x. Tempo is short by design — these are warm-up for blocks 2 + 3, not the centerpiece. *Specific, thoroughly, reliable, nuanced* are exactly the B2 precision words that collapse to mush at minute 5 of a long monologue when breath fails. /s/-/■/, /θ/-/ð/, /l/-/r/, /n/-/m/ are the consonant pairs you LOSE first — train them cold so the precision word in block 2 craft and block 3 Q&A lands sharp under load, not soft.

(2 min) 60-sec mystery — DID / DIDN'T from united classes — SIT — each in turn (~20 sec × 3)

> *"Between us and the last time we sat like this, you lived two united classes with the B1 group. Quick — no processing — each of you: ONE specific phrase you DID say in the united classes + ONE specific moment you DIDN'T say what you wanted to. That's it. 20 seconds each. I listen, I do not coach. No 'good,' no reframe. Pure intake."*

Internal notebook: 3 DIDs + 3 DIDN'Ts → feeds into block 2 craft work (which spot to sharpen) and block 3 Q&A (which round each student needs most). No coaching here. No reframe. Pure intake.

(2 min) Bridge to block 2

> *"Today is the second dedicated session and the structure is different from anything you've lived in this room. Four long blocks instead of thirteen short ones. I will not interrupt every fifteen minutes to change format — you'll feel the work breathe. Block 2 next: fifty minutes of craft on the SHAPE of one weak 60-sec spot from your monologue, with Set #25 integrated. Block 3 after: Q&A; INTENSIVE — three rounds, three questions per round, you ALL rotate through all nine. Round 1 you explain to a B1 audience. Round 2 you push back against a skeptic. Round 3 you NAME a real gap honestly. Block 4 closes with the next-united protocol written live. Stand up — block 2 begins."*

2. CONTENT OF THE DAY — PHASE 5 MONOLOGUE REFINEMENT + SET #25 PRECISION INTEGRATED + PAIR SHARPENING — 50 min — MIXED

Function: the entire block is ONE arc — micro-talk on the MIDDLE of the monologue (the 60-sec spots inside pillars 1-3 where shape drifts and "I think probably" colonizes) → individual craft on ONE chosen weak 60-sec spot per student → Set #25 introduced AS the language of precision sharpening, not as a separate vocab block → pair rehearsal of that ONE spot until each one is OWNED. Amina coaches inside the work, not from the front. 50 min, no format change.

Stage A — Micro-craft talk: the MIDDLE of the monologue (~8 min) — STAND at board

Amina at the board, the 3 standing in a semicircle. No notebooks open yet — listening, not transcribing.

> *"Cl 32 you wrote your role-model protocol. Today is not protocol — today is craft on the talk itself. A 5-7 minute monologue has a HOOK (20 sec — work for Cl 34), three PILLARS (about a minute each, the MIDDLE — work for today), and a CLOSE (15 sec — work for Cl 34). The hook and close carry attention; the pillars carry the ARGUMENT. The audience may forgive a weak hook if the pillars are sharp. They will not forgive weak pillars even with a brilliant hook. The middle is where shape drifts — where you mean X and say a safer version of X because the X version can be challenged. Today we sharpen ONE 60-sec spot inside one pillar. Per student. Each of you picks ONE."*

Draw on board (live, three lines):

MONOLOGUE ARC — 5 to 7 MIN

[HOOK 20 sec] → [PILLAR 1 · PILLAR 2 · PILLAR 3] → [CLOSE 15 sec]

(Cl 34) MIDDLE = today's work (Cl 34)

~1 min each pillar

SHAPE drift lives here

Set #25 verb sharpens

> *"Inside each pillar there is usually ONE 60-sec spot that drifts — where you mean a specific claim and the words come out as a generic claim. 'Colombian culture is rich' instead of 'Colombian culture is asked the wrong question by foreigners.' That drift is what the external evaluator Cl 36 will read as fluent-but-shapeless. Justice day 3 says: name what you actually mean. Today we find that one spot per student and rewrite it until the shape fits."*

> *"Set #25 is six words today — all of them verbs for PRECISION sharpening. Sets #22 #23 #24 got you to the floor and let you hold ground. Set #25 makes sure that what comes out once you have the floor is the SHAPE that matches what was asked, not the shape you rehearsed."*

Show Set #25 on board — pre-written, revealed now:

ACADEMIC B2 SET #25 (CL 33) – HOLDING THE TURN WITH PRECISION
Use these as the precision sharpener inside a turn –
mid-monologue re-anchor, Q&A; reframe, or claim refinement.
Cumulative total: 150 words.

1. ELABORATE /ˈlæb.ə.reɪt/ – desarrollar / desplegar con detalle
"Let me elaborate – there are three layers to this point."
2. CLARIFY /ˈkler.ə.faɪ/ – precisar lo que sí se quiso decir
"To clarify – I'm not saying X, I'm saying Y."
3. QUALIFY /ˈkwɒl.ə.faɪ/ – matizar sin retirarse de la posición
"I'd qualify that – it holds in most cases, not all."
4. NUANCE (v.) /ˈnju.ə.ˈns/ – añadir matiz fino sin perder el core
"Let me nuance the claim – the core stands, the edges shift."
5. SPECIFY /ˈspes.ə.faɪ/ – nombrar exactamente lo que se quiere decir
"Let me specify – by 'cultural', I mean the daily-life layer."
6. CONTEXTUALIZE /kənˈtek.stju.ə.laɪz/ – anclar el punto en su marco
"Let me contextualize – this claim sits inside Colombian post-conflict reality, not abstract theory."

Per word: pronounce 2x → cohort 2x → definition + example named. ~50 sec each = ~5 min embedded inside this stage. Not a separate block — the words ARE the craft material for stages B + C below. *Don't drill in isolation here — drill them inside the 60-sec spot you're about to sharpen.*

[Insertion #2] *"What is owed is the SHAPE — these six verbs ARE the shape language. Pick one. Own it. Use it inside the 60-sec spot you sharpen in the next ten minutes."*

Stage B — Individual craft: choose YOUR weak 60-sec spot + rewrite it using Set #25 (~17 min) — SIT, notebook open, Amina circulates

> *"Sit. Notebook open. You each have your Why Colombia full topic sheet — pull it out. Seventeen minutes. By the end, you have selected ONE 60-second spot from inside pillars 1-3 where the shape drifts — generic instead of specific, safer instead of meant — and rewritten it by hand using ONE Set #25 verb as the precision anchor. The spot must be a place where: (a) you currently say something fluent but generic, OR (b) the listener could ask 'what do you actually mean?' and you wouldn't have a sharp answer. I circulate. I coach in whispers, one-on-one, not from the front. The room stays quiet — this is the craft room, not the rehearsal room yet."*

Amina circulates continuously. For each student, ~5-6 min of one-on-one coaching across the 17 min. Coaching moves (use 2-3 of these per student depending on what she actually wrote):

- *"Read me the spot. Stop. What did you actually mean — the unsafer version? Write that next to the safe version."*
- *"Your spot says 'culture is rich' — that's the generic. What's the specific? If you mean 'food rituals,' say SPECIFY: 'Let me specify — by culture I mean the daily-life food rituals foreigners never see.'"*
- *"Your spot drifts at second 30 — between the claim and the example. Insert ELABORATE: 'Let me elaborate — there are two layers here.' Then split into the two layers explicitly."*
- *"Your claim is true everywhere — and that's the problem. QUALIFY: 'I'd qualify that — it holds in the cities, not in the rural conflict zones.' The qualification makes the core SHARPER, not weaker."*
- *"You hedged with 'I think maybe.' Strip the hedge. CONTEXTUALIZE: 'Let me contextualize — this sits inside post-conflict reality, not abstract theory.' The context replaces the hedge with a frame."*

Internal notebook (during circulation): for each student, note WHICH Set #25 verb she chose + WHICH spot she picked (pillar # + the safer phrase she's replacing) → feed into Stage C.

[Insertion #3] (whispered to whichever student is currently struggling): *"Justice day 3 — name what you actually mean, not what is safer to say. The safer version is what the external evaluator hears as shapeless fluency. Sharpen the spot. The shape is the work."*

Stage C — Pair rehearsal of the sharpened 60-sec spot (~22 min) — STAND, rotating pairs

> *"Stand up. Pair up. You will rehearse ONLY the 60-second spot you sharpened — not the full pillar, not the full monologue — just the one minute that now carries a Set #25 verb. Three times each per pair. Partner feedback after every delivery: ONE question, two checks. ONE: did the SHAPE fit — did the specific replace the generic? Yes or no. TWO: did you hear the Set #25 verb? Yes or no. We rotate pairs every seven minutes so each of you rehearses with each of the other two and once with me."*

Rotation (~22 min = 3 rotations of ~7 min):

- **Rotation 1 (7 min) — Pair AB, Amina pairs with student C.** Student A delivers the 60-sec spot 3x to B; B feedback (SHAPE fit y/n + Set #25 verb heard y/n + ONE specific shape suggestion if still generic). Reverse: B delivers 3x to A. Meanwhile Amina works one-on-one with C: same protocol, but Amina names the Set #25 verb she SHOULD be hearing and isn't.
- **Rotation 2 (7 min) — Pair AC, Amina with B.** Same protocol. Each delivers 3x. A new pair, fresh feedback — the second pair catches what the first missed.
- **Rotation 3 (8 min) — Pair BC, Amina with A.** Same protocol. Each delivers 3x. By end of rotation 3, each student has rehearsed the sharpened spot 9 times total (3 per rotation × 3 rotations) and received feedback from both peers + Amina.

Strict rule for the partner feedback: the partner says LITERALLY: "Did the SHAPE fit? Y/N. Did you hear the Set #25 verb? Y/N. The verb was _____. The specific was _____." No nice-feedback. No "good job." Binary signal + the name of the verb + the specific noun that replaced the generic. If she didn't hear the specific, she names what she heard instead — and the speaker drills the spot one more time before moving on.

[Insertion #4] (Amina during one of the rotations, to the whole room): "Shape, not safer. The external evaluator CI 36 will read the safer version as ungrounded. The specific version is what holds. Drill the spot like the first time you'll say it is in front of someone who has never heard you before. Because that is exactly what CI 36 is."

Close stage C (~30 sec, all standing): "You each rehearsed the sharpened 60-sec spot nine times. Block 3 next — Q&A INTENSIVE, three rounds, three questions per round, all of you through all nine. No notes. No paper. Stand where you are. Block 3 begins as soon as I name round 1."

3. LIVE APPLICATION — Q&A; INTENSIVE: 3 ROUNDS × 3 QUESTIONS EACH, ALL 3 ROTATE — 45 min — STAND

Function: ONE activity, 45 minutes, no format change. Each round has 3 questions; each student answers all 9 across the rotation. Round 1 = B1-audience explain (simpler shape, register flexibility). Round 2 = SKEPTIC pushback (hold under disagreement). Round 3 = HONEST GAP (name something you don't yet have a great answer for). No format change in the middle. Amina sits as observer most of the time, intervenes for COACHING in 30-sec interruptions between answers (not as block change). ~80 sec per answer + ~30 sec coaching = ~110 sec per question × 9 = ~16-17 min × 3 rounds is too much — discipline: ~5 sec teacher note instead of 30 sec for most, full 30-sec coaching only on the 3-4 worst gaps.

This is the heart of the class. The teacher does NOT change the format inside the 45 min. The students internalize one rhythm — QUESTION LANDS → 3-SEC START → 80-SEC ANSWER → 5-SEC NOTE → NEXT — nine times. The repetition under shape-pressure is the work.

(3 min) Setup

Amina at the front. The other 2 students seated, notebooks open for note-taking (they listen for each other's shape-fit hits and misses across all 9 questions).

> **"Nine questions. Three rounds. Each of you answers ALL nine across rotation — Round 1 question 1 goes to one of you, question 2 to another, question 3 to the third; Round 2 same rotation shifted; Round 3 same. Each answer is ~80 seconds. You have 3 seconds to start once the question lands. You stand to answer; the other two sit and take notes. The three rounds map to three CI 36 failure modes. Round 1 = B1-audience: same content, simpler shape, Set #25 word REQUIRED. Round 2 = SKEPTIC: push back, Set #23 hold + Set #25 qualify, do NOT collapse. Round 3 = HONEST GAP: name a real gap, not a fake one you already have a polished answer for. Round 3 is the hardest and the most Final-shaped."*

> **"I do not stop you in the middle of your 80 seconds. Between answers I take 5 seconds to note. If a gap is bad enough that the whole room needs to hear the coaching, I use 30 seconds — not more. Then next question. No notes for you. The question shapes are yours."*

Draw rotation order (~30 sec). Confirm: stopwatch on, ~80 sec cap per answer.

(~14 min) ROUND 1 — EXPLAIN TO A B1 AUDIENCE — register flexibility under simpler shape

Failure mode at Final: rambling academic phrasing when the listener is non-expert. CI 36 evaluator may simulate B1 to test register flexibility.

3 questions, rotated so each student answers ONE — by the end of the round all 3 have spoken:

- *"In one minute, explain your central Why Colombia claim to a B1 student who has never been to Colombia. Same content, simpler shape. Set #25 word REQUIRED — CLARIFY or SPECIFY."*
- *"Pick the most complex sentence from your talk. Rewrite it LIVE for a B1. Same meaning, B1 shape. What word from Set #25 carries it?"*
- *"A B1 in the next united class asks you: 'why should I care about your topic?' Answer in ~80 seconds without academic lift. Set #25 CONTEXTUALIZE."*

Per answer: ~80 sec. Amina internal notebook: did she SIMPLIFY without losing the point? Or did she defend the academic phrasing and miss the register? Amina coaching (only if needed, 30 sec max once per round): "You stayed in academic register — strip the lift. The B1 student would have stopped listening at second 20. Try the first sentence again with SPECIFY: 'Let me specify in everyday terms —' then continue."

(~14 min) ROUND 2 — SKEPTIC PUSHES BACK — hold under disagreement without collapse

Failure mode at Final: collapse under pushback. CI 36 evaluator may push to test whether the position holds or folds.

3 pushback questions, rotated (whoever answered Round 1 question 1 now answers Round 2 question 2 — shift, so the rotation isn't predictable):

- *"Someone says: 'Why Colombia is just tourism marketing — your talk is propaganda.' You have 80 seconds to push back. Set #23 + Set #25 QUALIFY. You may CONCEDE the weakest edge to hold the strongest core. You may NOT collapse."*
- *"Someone says: 'Your central claim has no data — it's opinion dressed as analysis.' Push back in 80 sec. Use NUANCE from Set #25. Hold core, refine edge."*
- *"Someone says: 'That's just one perspective — a Colombian abroad would disagree.' Push back. Use CONTEXTUALIZE from Set #25 to anchor your perspective, NOT abandon it."*

Per answer: ~80 sec. Amina internal notebook: did she HOLD (Set #23 + Set #25 qualify/nuance + reason) or COLLAPSE (apologize, change position, "yes you're right")? Coaching (only on the worst collapse, 30 sec): "At second 40 you said 'maybe you're right' — that's the collapse. Set #23 hold the core: 'I'd contend the core holds even if X.' Try the second half again."

(~14 min) ROUND 3 — HONEST GAP — name what you don't yet have a great answer for

Failure mode at Final: rehearsed answer to an unasked question. The hardest round. CI 36 evaluator may ask something you do NOT have a great rehearsed answer for, to test integrity under uncertainty.

3 questions, rotated:

- *"Name ONE part of your Why Colombia argument that you do NOT yet have a great answer for. Don't rehearse — name the gap. Use SPECIFY from Set #25 to be exact about WHERE the gap is."*

- "If I asked you something tangential at the Final — something you didn't prep — what's the cleanest move? Demonstrate it now: I ask: 'What's the role of Afro-Colombian heritage in your argument?' Answer honestly with a Set #22 acknowledge + Set #25 CONTEXTUALIZE."
- "What's the question you'd LEAST want the external evaluator to ask you Cl 36? Name it. Don't strategize around it. Naming it is half the protection."

Per answer: ~80 sec. Amina internal notebook: did she NAME a real gap, or substitute a FAKE gap (one she already had a polished answer for)? The fake-gap substitution is the deepest failure mode — it is what fluent students do at the Final to avoid uncertainty. Track who does it. Coaching (only on substitution, 30 sec): "That was a fake gap — you had the answer ready. The real gap is the one that makes you uncomfortable to name. Try again — SPECIFY the actual gap, the one you'd dodge."

(~3 min) Closing reflection — STAND, semicircle

> *Nine answers each. Three rounds. More shape-pressure in 45 minutes than Cl 36 will give you in a single session. Each in ONE sentence: which ROUND today exposed your weakest move + what's the ONE thing you need to drill before the next united class.**

3 × ~30 sec. No coaching here. Pure self-report. Amina internal notebook: who NAMED a real round-weakness vs who deflected ("they were all hard"). If anyone deflects, Amina names it in block 4 close — not now.

Brief silence (~10 sec). "Sit. Block 4 closes the class."

4. CLOSE — ERROR PAPER · PHRASE CLOSE · STRICT HOMEWORK · NEXT-UNITED PROTOCOL LIVE — 15 min — SIT + NOTEBOOK

Function: consolidate the 95 minutes that just happened, recap the 3 most-common errors of the day (anonymous on board, named in personal notebook), have the cohort SAY the Phrase one last time + paraphrase, hand the 4-component homework, and write the 3-decision protocol for the next united class on the board live.

(4 min) Error paper recap — ERROR PAPER SHEET ON DESK, ANONYMOUS

Amina reads the 3 most-common errors of the day from her internal notebook (NAMES in her notebook only, anonymous on the physical Error Paper sheet):

Cl 33 LIVE ERRORS — anonymous read

1. ■ Block 3 Round 1: "I explained my central claim with the same academic phrasing I'd use with you, not with a B1 register."

→ ■ Same content, B1 shape. Set #25 SPECIFY:
"Let me specify — in daily-life terms, this means..."
Register flexibility IS shape-fit. Justice day 3.

2. ■ Block 3 Round 2: "I conceded the whole position to avoid disagreement."

→ ■ Set #23 hold + Set #25 QUALIFY:
"I'd contend the core holds — let me qualify the edge: in case X, yes; in the central case, no."
Concede the edge, hold the core.

3. ■ Block 3 Round 3: "I named a 'fake gap' I already had a polished answer for, instead of the real gap."

→ ■ Real gap. Set #25 SPECIFY the exact place:
"Let me specify — the part I don't yet have a great answer for is the role of X in Y."
Naming the REAL gap IS justice day 3.

Cohort reads silently (~30 sec). Amina names the error each student personally hit (in her notebook), but DOES NOT name students publicly. Each student knows which one is hers because she lived it ~20 min ago. [Insertion #5] "Justice day 3 — what is owed is the SHAPE. These three errors steal the shape. Tonight's homework rebuilds it."

(3 min) Phrase close + paraphrase

1. (~60 sec) ONE student says the Phrase from memory WITH intonation.
2. (~60 sec) ANOTHER student paraphrases the Phrase in her own words for the next united class B1 audience (target shape: "When you have the floor, say what you actually mean — answer the question that was asked, not the one you rehearsed." — accept any honest paraphrase that holds the shape idea).
3. (~60 sec) THIRD student names: "The Set #25 verb I commit to using FIRST in the next united class is ____." Confirm — process, no grade.

(4 min) Strict homework — 4 components, 45-60 min total, NOT fragmented

HOMEWORK – DUE: BEFORE THE NEXT UNITED CLASS, 6:00 PM
TOTAL TIME: 45-60 min – NOT fragmented.

(1) WRITING (in own notebook, by hand – anti-fraud):
FINAL DRAFT of the 60-sec SHARPENED SPOT you rewrote today in block 2, using your chosen Set #25 verb. Not a draft – the version that now lives inside your Why Colombia monologue. Bring the page to the next united class. Amina photographs for archive.
(10-12 min total).

(2) AUDIO EYES CLOSED (~3 min):
Deliver the FULL Why Colombia monologue from memory, 5-7 min, no paper. The sharpened 60-sec spot from block 2 sits inside pillar 1/2/3 (whichever it was). Eyes closed for that spot (the 60 sec) so the Set #25 verb LANDS without visual support.
- Label: B2-AMINA-CL33-FULL-V9-WITHSPOT
(15-18 min total – 1 take, prep + delivery + replay).

(3) LISTENING (10 min):
Find a B2-level talk (TED, podcast, lecture – your choice of topic, in English). Note 4 anchor MOVES the speaker uses from Sets #22-#25:
- 1 BRIDGE move (Set #22: clarify / address / acknowledge / qualify / elaborate / reframe)
- 1 HOLD move (Set #23: contend / maintain / posit / assert / reaffirm / hold)
- 1 ENTRY move (Set #24: jump in / build on / offer / chime in / step up / weigh in)
- 1 PRECISION move (Set #25: elaborate / clarify / qualify / nuance / specify / contextualize)
Write each move + the literal sentence the speaker said + timestamp. 4 lines total.
(10-12 min total).

(4) NEXT UNITED CLASS PREP – pick the ONE Set #25 verb you committed to in the phrase-close + write the verbatim sentence you will deliver in the first precision moment (the first time you have the floor and need to sharpen a claim). Write it in your notebook so you don't think – you just deliver. (5 min total – preparation, mental rehearsal).

EXPLICIT: today's session was the SECOND dedicated Tue/Thu. Component 3 LISTENING is NEW – until today we drilled production exclusively. Today we add reception. Listening to how a B2-level speaker MOVES through the 4 sets trains your ear to catch the moves in the next united class when a B1 makes half-moves you can BUILD on. Cl 36 Final = 30/06 = external coordinator from coordinación applies. NO FRAGMENTATION.

(4 min) NEXT-UNITED PROTOCOL — 3 decisions written live on the board — 5 min written + photographed

> *"Five minutes. Three decisions. Notebook open. You decide; I write on the board; we photograph."*

Write on board the THREE decisions header:

NEXT UNITED CLASS – PROTOCOL (Cl 33 decisions)
Date next united: ____/06/2026

Decision 1 (~90 sec) — Who closes the next united class with a 2-3 min talk?

The 3 students DECIDE among themselves (criterion suggestion: whoever closed LEAST recently OR whoever has the most need for audience-real reps with the sharpened 60-sec spot). Amina facilitates if stuck.

PRESENTER NEXT UNITED: _____
PART OF TALK (which 2-3 min of the full 5-7): _____
SHARPENED 60-SEC SPOT INCLUDED? Y / N

Decision 2 (~90 sec) — The 3 Set #25 precision phrases the cohort commits to using (1 per student, all DIFFERENT)

Each student picks ONE Set #25 verb she will use to SHARPEN her first contribution in the next united class. Different from the other two so the room hears variety in precision.

STUDENT 1 precision verb (Set #25): _____
STUDENT 2 precision verb (Set #25): _____
STUDENT 3 precision verb (Set #25): _____

(Examples: "Let me specify — by 'cultural' I mean daily-life food rituals." / "To clarify — I'm not saying X, I'm saying Y." / "Let me contextualize — this sits inside post-conflict reality, not abstract theory." — DIFFERENT for each so the B1 audience hears three different PRECISION moves.)

Decision 3 (~90 sec) — The opening topic Amina will throw

> *I tell you the opening prompt for the next united class NOW so you pre-load your Set #24 entry + your Set #25 precision verb.**

Amina names ONE prompt (suggested options — pick adapted to current B1 unit):

- "I'll open with: 'who has an example of a Colombian custom that took you a while to understand yourself, even as a Colombian?'"
- OR "I'll open with: 'who has an example of a phrase in Spanish that loses everything when translated to English?'"
- OR "I'll open with: 'who has an example of a region of Colombia you've never visited but you'd defend the right to defend?'"

(Pick ONE — write on the board.)

NEXT UNITED OPENING PROMPT (Amina): _____
B2 entry phrase READY — first 3 sec. B2 precision verb READY — Set #25.

Close (~30 sec): "Three decisions on the board. Photographed. Justice day 3 — what is owed is the SHAPE. CI 34 day 4 sharpens the LAST word (Set #26 closing). CI 35 day 5 closes the JUSTICE block in the united class. CI 36 = 30 June = external coordinator from coordinación applies the Final. Fourteen hours of class away. Tonight: writing + audio + listening + one phrase you carry. The Phrase still holds — when the floor is yours, justice is naming what you actually mean, not what is safer to say; the room is owed the SHAPE the question asked for, not the shape you rehearsed. We end here."

(Amina photographs the board for coordination archive.)

DELIVERABLES TO COORDINATION

- [] Printed report filled
- [] Photo of the "NEXT UNITED CLASS — PROTOCOL" board (Decision 1+2+3 written live)
- [] Photo of the board — Phrase + Set #25 (6 precision verbs) + NEXT UNITED OPENING PROMPT
- [] Anonymous Error Paper (physical, NOT photographed)
- [] Personal notebook page: 3 literal errors + NAMES + literal quotes (block 3 Round 1 register collapse OR Round 2 whole-position concede OR Round 3 fake-gap substitution)
- [] LIST of students who SUBSTITUTED a fake gap in block 3 Round 3 (the deepest failure mode — fluent students hiding uncertainty)
- [] Count of Phrase of the Day natural insertions (target: 5 marked — #1 opener bridge, #2 Set #25 reveal, #3 block 2 stage B whisper, #4 block 2 rotation, #5 error paper recap)
- [] Confirmation: CI 33 = JUSTICE V2 DAY 3 OF 5 announced (block CI 31-35); CI 34 day 4, CI 35 day 5 closes
- [] Confirmation: CI 36 = 30/06 = external coordinator from coordinación applies (Amina NOT proctor) named explicitly

NOTAS INTERNAS (no leer en clase)

- **Mapa restante:** CI 33 hoy (2da Ma/Ju exclusiva) + CI 34 (3ra Ma/Ju exclusiva — last word, Set #26) + CI 35 (5ta Ma/Ju exclusiva — JUSTICIA día 5 cierre + FINAL DRY-RUN) + CI 36 30/06 = Final aplicado por evaluador externo de coordinación. **CI 36 NO se genera guía Amina.** Tras hoy quedan 2 exclusivas más antes del Final.
- **Virtud JUSTICIA v2 (CI 31-35) — arco:** día 1 "give each question what it's owed" → día 2 "voice not silence" → día 3 HOY "shape not safer" → día 4 CI 34 "give the room your LAST word" → día 5 CI 35 "carry all four into the Final-day room as one practice." CI 36 abre FORTALEZA v2 día 1 pero sin guía Amina.
- **3ra estudiante:** nombre pendiente confirmar Diana (Margie A. Acevedo o Angie L. López Capacho — no inventar). Guía reutilizable: NO nombres en cuerpo.
- **Set #25 HOLDING THE TURN WITH PRECISION:** ELABORATE / CLARIFY / QUALIFY / NUANCE / SPECIFY / CONTEXTUALIZE. Acumulado 150. Sharpens DESPUÉS de entrar (Set #24) y DESPUÉS de aguantar (Set #23). Sistema a 14h del Final: #22 bridge → #23 hold → #24 take floor → #25 precision mid-turn → #26 close turn (CI 34).
- **Modelo inmersivo (Diana 18/06):** REESCRITURA — versión anterior eran 13 bloques cortos robóticos (~570 líneas). Hoy ejecuta el cambio: TODO integrado (VATS, vocab, vocalización, mystery DID/DIDN'T, peer feedback, error paper) dentro de los 4 bloques. Si Amina siente urgencia de partir un bloque a la mitad, ese ES el reflejo viejo.
- **Phase 5 ejecución bloque 2 + 3:** bloque 2 = craft refinement de UN 60-sec spot (no monologue completo — CI 32 ya hizo full monologue, CI 34 también; hoy es spot surgery). Bloque 3 = Q&A; INTENSIVO con 3 rondas × 3 preguntas, las 3 rotan a través de las 9. Si alguien sustituye fake gap en Round 3 (la falla más profunda de fluentes), libreta personal + nombre. CI 34 esa estudiante recibe drill targeted.
- **CI 36 Final = evaluador externo de coordinación, NO Amina:** mencionado opener + bloque 3 setup + bloque 3 Round 3 + cierre bloque 4. Memoria feedback_examen_final_otro_evaluador.
- **Amina como observer en bloque 3:** Amina NO juega B1 ni skeptic (no es guest pattern). Las preguntas las HACE ella como coach que lee shapes; coaching de 30 sec más solo en gaps peores. Patrón guest observer se mantiene — Amina coach, nunca guest.
- **Tarea componente 3 LISTENING — NUEVO:** hasta CI 32 los componentes eran 100% producción. Hoy se añade recepción (charla B2 + 4 movimientos Sets #22-25 con timestamp). Razón: 14h al Final, las estudiantes han producido mucho pero escuchado poco B2 fuera de Amina. Entrenar oído para BUILD ON en clase unida cuando un B1 hace medio-move.
- **Supuesto (verificar Diana):** countdown ~14h al Final = CI 33 + CI 34 + CI 35 + ~4 unidas restantes ≈ 14h totales. Si Diana cuenta solo exclusivas, son 6h exclusivas (3 × 2h) + el resto unidas. Mantener "~14h" hasta feedback.
- **Frase del Día insertions:** 5 marcadas (#1 opener bridge, #2 Set #25 reveal, #3 stage B whisper, #4 rotation, #5 error paper recap) + cita verbatim en cierre bloque 4 = 6 toques operativos sin contar chorus del opener.

• **Eventos INTEGRADOS** (Diana 31/05 + 10/06 + 18/06): sin _MARKER. Sin GoldList (retirado 14/05). Solo Frase del Día. Set #25 = vocab
cumulativo.
