

B2 PM AMINA — CLASS 35 — LAST DEDICATED SESSION (3 B2 + Amina only) — FULL FINAL DRY-RUN: 5-7 MIN MONOLOGUE FROM MEMORY + 3-MIN Q&A; FROM PEERS + AMINA AS EXTERNAL EVALUATOR — IMMERSIVE 4-BLOCK MODEL

Session 35 · 2h (18:30–20:30)

Date: ___ / 06 / 2026 · Attending: ___/3

OPERATING NOTE: LAST exclusive Tue/Thu before Final. Since Diana 10/06 restructure: CI 32 setup REFRAME · CI 33 Phase 5 refinement + Set #25 HOLDING · CI 34 closing voice + Set #26 CLOSING · CI 35 today = FULL FINAL DRY-RUN + Set #27 closes the system. Diana 18/06: 4 long immersive blocks, teacher coaches during student work, no format change in 45 min. **After today there are no more dedicated sessions — CI 36 = Final administered by external evaluator from coordinación; Amina is NOT proctor and does NOT generate a guide for CI 36.**

Virtue: JUSTICE v2 day 5 of 5 (block CI 31-35) — TODAY CLOSES THE BLOCK.

Phrase of the Day: *"Justice day 5 — what is owed is what we have practiced; on the last day before the room comes for us, justice is trust in the reps and the form."*

Countdown: ~2h to Final (CI 36 — 30/06/2026 — administered by EXTERNAL evaluator from coordinación, NOT Amina)

BLOCK MAP (120 min) — 4 IMMERSIVE BLOCKS

| # | Min | Block | Stand? |

|---|---|---|---|

| 1 | 10 | **OPENER** — Phrase + JUSTICE day 5 CLOSES + "LAST exclusive session" named · 4 tongue twisters · 60-sec mystery (one rep this week that held) | mixed |

| 2 | 50 | **CONTENT** — Phase 5 last-craft: full monologue arc check + Set #27 ENTERING WITH AUTHORITY integrated + pair micro-rehearsal of the Final's first 30 sec | mixed (sit craft → stand rehearsal) |

| 3 | 45 | **LIVE APPLICATION** — FULL FINAL DRY-RUN: each delivers FULL 5-7 min monologue from memory + 3-min Q&A from peers + Amina as external evaluator; NO interruptions, feedback after each round (1 strong + 1 specific gap, 30 sec) | STAND (one delivers, others audience) |

| 4 | 15-20 | **CLOSE** — Error paper recap · Phrase close · NO traditional homework (PERSONAL pre-Final routine, not turned in) · Cohort retrospective LIVE (1 word + 8-word clarifier per student, 30-sec hard stop) · CI 36 framing | sit + notebook |

Bring to class: Error Paper sheet · stopwatch (5-7 min monologue cap + 3-min Q&A cap + 30-sec feedback hard stop) · personal notebook · the 3 students' "Why Colombia" topic full sheets · empty board space for: (a) Phrase of the Day pre-written, (b) Set #27 6 words pre-written, (c) cohort retrospective 3 lines written live in block 4.

EVENTS INTEGRATED (Diana 31/05 + 10/06 + 18/06 immersive model)

LAST dedicated Tue/Thu. No _MARKER / _COORD_KIT files. Phrase of the Day, JUSTICE virtue day 5 (closes block), Set #27 vocab (closes the system), vocalization, mystery, error paper, peer feedback, cohort retrospective — ALL integrated inside the 4 blocks. No standalone VATS block. No standalone vocab block. No standalone closing-ceremony block. CI 36 Final = 30/06 = external coordinator from coordinación applies the Final — Amina is NOT proctor. Mentioned in opener + block 3 setup + block 4 close. **No traditional turn-in homework:** today's "homework" is a PERSONAL pre-Final routine (light reading + own monologue recording at home + sleep + morning prep) — not collected, not graded, not photographed.

1. OPENER — 10 min — MIXED

Function: light the room, plant the Phrase, name this as the LAST exclusive session, fire vocal cords, surface ONE rep from this week that HELD per student so the dry-run lands with confidence not anxiety. No long explanations. Tempo.

(1 min) Amina opens — sitting, calm

> *"Welcome to the LAST Tuesday/Thursday only the three of us. This is JUSTICE day 5 — the day that closes the block. We are roughly two hours from the Final on 30 June. The Final is administered by the external coordinator from coordinación — not me. After today there is no more exclusive room — CI 36 the room belongs to coordinación. Today is dry-run. Today is the form practiced live, end to end, three times."*

(2 min) Phrase of the Day — STAND for the chorus

Phrase pre-written on board:

PHRASE OF THE DAY — CL 35

"Justice day 5 — what is owed is what we have practiced; on the last day before the room comes for us, justice is trust in the reps and the form."

Read 2x with marked intonation (firm steady weight on *"what we have practiced"* — naming the body of work, not minimizing it —, slow grounded pace on *"on the last day"* — last receives weight, the threshold is honored —, brief pause before *"the room comes for us"* — the air around comes for us names the Final without dramatizing —, anchored close on *"trust in the reps and the form"* — trust spoken with quiet conviction, form spoken with the steady authority of a craft owned). Chorus 2x. ONE student says it solo from memory. **[Insertion #1]** *"Five sets built you to the floor, kept you on it, sharpened what came out, closed the turn cleanly. Set #27 today is the language of ENTERING WITH AUTHORITY — the FIRST move when you walk into the Final room and the evaluator asks you to begin. Set #27 closes the system."*

(3 min) Vocalization — 4 NEW tongue twisters — focus on AUTHORITY OPENING (the first syllables of the first sentence when nerves try to compress the voice)

1. /p/+/r/ projected entry: "Prepared presenters project pristine premises; pristine premises provoke profound, precise, persistent praise."
2. /str/ + /spr/ strong onset: "Strong speakers stride straight into structured speeches; structured speeches spring stronger, sharper, steadier conclusions."
3. /kw/+/kr/ commanding consonants: "Quietly quick, credible critics craft quality questions; quality questions quicken credible, careful, calm reflection."
4. /v/+/f/ confident voicing: "Five fearless voices ventured forward, favoring frank verdicts; frank verdicts fortified five firm, fluent finishes."

Per twister (~45 sec total, all 4): slow chorus 1x → fast chorus 1x. Tempo is short by design — these are warm-up for blocks 2 + 3, not the centerpiece. *Prepared, strong, quietly, fearless* are exactly the words that compress at second 2 of the Final when nerves try to shrink the voice. Plosives /p/-/k/, onset clusters /str/-/spr/, strong /v/-/f/ — train them cold so the FIRST WORD of the dry-run monologue lands with chest weight, not throat.

(2 min) 60-sec mystery — ONE rep from this week that HELD — SIT — each in turn (~20 sec × 3)

> *"Between CI 34 and today you lived at least one united class. Quick — no processing — each of you: ONE rep from this week (united class or your own private prep) where the form HELD — where Set #24 entry or Set #25 precision or Set #26 close worked exactly the way we drilled it. 20 seconds each. I listen, I do not coach. No 'good,' no reframe. Pure intake. Today opens with what worked — because what worked is what will hold in two hours of class."*

Internal notebook: 3 HELD moments → feeds into block 2 craft check (which set is each student's anchor) and block 3 dry-run (which set Amina should listen for in each student's monologue). No coaching here. No reframe. Pure intake.

(2 min) Bridge to block 2

> *"Today is the last exclusive session and the structure is the same as CI 33 and CI 34 — four long blocks. I will not interrupt every fifteen minutes. Block 2 next: fifty minutes of last craft — full monologue arc check + Set #27 ENTERING WITH AUTHORITY integrated + micro-rehearsal of the Final's first 30 seconds. Block 3 after: FULL FINAL DRY-RUN — each of you delivers the FULL 5-7 min monologue from memory + 3 minutes Q&A; from the other two + me sitting as the external evaluator from coordinación. THREE rounds of dry-run, ~15 minutes each. NO interruptions during. Feedback after each round: ONE strong move + ONE specific gap, 30 seconds hard stop. Block 4 closes with cohort retrospective — one word + an 8-word clarifier per student — and the CI 36 framing. Stand up — block 2 begins."*

2. CONTENT OF THE DAY — PHASE 5 LAST CRAFT: FULL MONOLOGUE ARC CHECK + SET #27 ENTERING WITH AUTHORITY INTEGRATED + PAIR MICRO-REHEARSAL OF THE FIRST 30 SEC — 50 min — MIXED

Function: the entire block is ONE arc — micro-talk on the FIRST 30 seconds of the Final monologue (the moment that sets the room's frame for the whole talk) → individual craft on the entry + first sentence + first Set #27 verb → Set #27 introduced AS the language of authority entry, not as a separate vocab block → pair rehearsal of the first 30 sec until each one is OWNED at Final-room intensity. Amina coaches inside the work, not from the front. 50 min, no format change.

Stage A — Micro-craft talk: the FIRST 30 SECONDS of the Final monologue (~8 min) — STAND at board

Amina at the board, the 3 standing in a semicircle. No notebooks open yet — listening, not transcribing.

> *"CI 33 we sharpened the middle of the monologue — the 60-sec spot where shape drifts. CI 34 we sharpened the LAST word — the close that makes the room quote you back. Today we sharpen the FIRST 30 seconds — the moment you walk in, the evaluator says begin, and you set the room's frame for the whole talk. The first 30 seconds is the room's FIRST READING of you. Confident vs uncertain. Owned vs improvised. Set #27 is the language of OWNED ENTRY. Not 'hello, good evening, my topic is...' — that's a polite-uncertain shape. Set #27 OPENS with authority — the room knows in 5 seconds you have done this before."*

Draw on board (live, three lines):

FINAL MONOLOGUE ENTRY — first 30 seconds

[0-5 sec] BREATH + STAND + ONE SET #27 VERB

[5-15 sec] HOOK (image, surprise, anti-cliché — CI 34 work)

[15-30 sec] BRIDGE INTO PILLAR 1 (Set #25 precision verb)

→ then PILLAR 1 · PILLAR 2 · PILLAR 3 · CLOSE (Set #26)

> *"At second 0, you breathe and you stand. You do NOT begin with 'so, well, thank you, my topic is...' — that's the polite-uncertain entry. You begin with a Set #27 verb that OPENS the room. 'Let me open with —' 'I'd step in here with —' 'Let me claim the room for —' 'I'll project this idea forward —' Each of these is a Set #27 verb saying: I am here on purpose, I have done the work, I begin now. The evaluator reads this in second 3. The verb decides whether you walk in as a student or as a B2 speaker. Justice day 5: trust the reps. The reps say walk in as a speaker."*

> *"Set #27 is six words today — all of them verbs for OWNED ENTRY. Sets #22 #23 #24 #25 #26 worked INSIDE a turn already in progress. Set #27 is HOW you open the very first turn — the one where the room is reading you for the first time. With Set #27, the system is complete: six sets, 162 words, every layer of a B2 turn covered."*

Show Set #27 on board — pre-written, revealed now:

ACADEMIC B2 SET #27 (CL 35) – ENTERING WITH AUTHORITY
Use these as the FIRST verb of a monologue, presentation,
or Q&A; answer where the room is reading you for the first time.
Cumulative total: 162 words. SET #27 CLOSES THE SYSTEM.

1. OPEN /oʊ.pən/ – abrir el espacio con intención
"Let me open with the question this talk
refuses to ask politely."

2. STEP IN /stɛp ɪn/ – entrar al espacio con peso medido
"I'd step in here with a frame that
the room may not expect."

3. CLAIM /kleɪm/ – reclamar el espacio del primer minuto
"Let me claim the next six minutes for
a question Colombia is rarely asked."

4. ASSERT /ə.sɜːrt/ – afirmar la posición desde la entrada
"I'd assert from the start – this is not
a tourism talk."

5. PROJECT /prɒdʒekt/ – proyectar la idea hacia el fondo de la sala
"Let me project this idea forward –
the frame matters more than the facts."

6. COMMAND /kɒmænd/ – comandar el silencio inicial sin pedirlo
"Let me command the first thirty seconds –
listen for the shape of the question, not the answer."

Per word: pronounce 2x → cohort 2x → definition + example named. ~50 sec each = ~5 min embedded inside this stage. Not a separate block — the words ARE the craft material for stages B + C below. *Don't drill in isolation here — drill them inside the first 30 sec you're about to write.*

[Insertion #2] *"Trust the reps. These six verbs are the language of trusted entry. Pick one. Own it. Use it as the FIRST WORD of your dry-run monologue in 30 minutes."*

Stage B — Individual craft: write YOUR Final-monologue FIRST 30 SEC using a Set #27 verb (~17 min) — SIT, notebook open, Amina circulates

> *"Sit. Notebook open. You each have your Why Colombia full topic sheet — pull it out. Seventeen minutes. By the end, you have written by hand — in your notebook — the OPENING 30 seconds of your Final monologue: ONE Set #27 verb as the first verb + the HOOK that follows (the version you sharpened CI 34) + the BRIDGE into pillar 1 (with a Set #25 precision verb). Not a draft — the version you will DELIVER in two hours of class at the Final. I circulate. I coach in whispers, one-on-one, not from the front. The room stays quiet — this is the craft room, not the rehearsal room yet."*

Amina circulates continuously. For each student, ~5-6 min of one-on-one coaching across the 17 min. Coaching moves (use 2-3 of these per student depending on what she actually wrote):

- *"Read me the first verb. Is that a Set #27 verb or a polite filler? If 'good evening, my topic is...' — strip it. Replace with OPEN, STEP IN, CLAIM, ASSERT, PROJECT, or COMMAND. Which one fits your hook's energy?"*
- *"Your hook is sharp from CI 34 — but the Set #27 verb you picked is COMMAND and the hook is gentle. COMMAND fights the hook. OPEN or STEP IN matches it. Try again."*
- *"You wrote 'I'd like to talk about Colombia' — that's the student-uncertain entry. ASSERT replaces it: 'I'd assert from the start — Colombia is asked the wrong question.' One sentence, three moves: Set #27 entry + claim + frame."*
- *"Your bridge into pillar 1 has no Set #25 verb. The transition is invisible. SPECIFY: 'Let me specify the first layer —' or CONTEXTUALIZE: 'Let me contextualize the first pillar —' The bridge is half the architecture."*
- *"You picked PROJECT — good. Now drill the consonant. /pr/-/d/ at second 1. If the voice compresses, you sound uncertain. Chest weight on PRO-, breath out on -JECT. Try it standing for me."*

Internal notebook (during circulation): for each student, note WHICH Set #27 verb she chose + WHICH Set #25 verb she chose for the bridge + ONE sentence about whether her first 30 sec still feels rehearsed-tentative or rehearsed-owned → feed into Stage C and block 3 listening.

[Insertion #3] (whispered to whichever student is currently struggling): *"Trust the reps. You have practiced this voice for 35 sessions. The first 30 seconds carries 35 sessions of reps. Don't shrink the entry — the reps are in the body, let the body speak."*

Stage C — Pair micro-rehearsal of the first 30 sec at Final-room intensity (~22 min) — STAND, rotating pairs

> *"Stand up. Pair up. You will rehearse ONLY the first 30 seconds you wrote — not the full hook, not the full monologue — just the 30 seconds that opens the Final. Three times each per pair AT FINAL-ROOM INTENSITY — voice up, chest open, eye contact with the partner as if she is the external evaluator from coordinación. Partner feedback after every delivery: ONE question, two checks. ONE: did the Set #27 verb LAND in second 1-3? Yes or no. TWO: did the bridge into pillar 1 have a Set #25 verb? Yes or no. We rotate pairs every seven minutes so each of you rehearses with each of the other two and once with me."*

Rotation (~22 min = 3 rotations of ~7 min):

- **Rotation 1 (7 min) — Pair AB, Amina pairs with student C.** Student A delivers the 30-sec entry 3x to B at Final-room intensity; B feedback (Set #27 landed y/n + Set #25 bridge heard y/n + ONE specific voice/posture suggestion). Reverse: B delivers 3x to A. Meanwhile Amina works one-on-one with C: same protocol, but Amina names the Set #27 verb she SHOULD be hearing in second 1 and isn't, AND she corrects the consonant if it compressed.

• **Rotation 2 (7 min) — Pair AC, Amina with B.** Same protocol. Each delivers 3x. A new pair, fresh eyes — the second pair catches what the first missed.

• **Rotation 3 (8 min) — Pair BC, Amina with A.** Same protocol. Each delivers 3x. By end of rotation 3, each student has rehearsed the first 30 sec NINE times at Final-room intensity and received feedback from both peers + Amina + the consonant correction.

Strict rule for the partner feedback: the partner says LITERALLY: *"Did the Set #27 verb land in second 1-3? Y/N. Did you hear the Set #25 bridge verb? Y/N. The Set #27 verb was _____. The voice in second 1 was [compressed / open]."* No nice-feedback. No "good job." Binary signal + named verbs + voice diagnosis. If the voice was compressed in second 1, the speaker drills the first word ALONE (just /pr/-d■/, just /st/-/■p/, just /kl/-e■m/) ten times before re-delivering.

[Insertion #4] (Amina during one of the rotations, to the whole room): *"Two hours of class to the Final. The first 30 seconds is what the external evaluator reads as 'this person has done the work.' Or doesn't. Trust the reps. The reps are in your body. Let them speak."*

Close stage C (~30 sec, all standing): *"You each rehearsed the first 30 sec nine times at Final-room intensity. Block 3 next — FULL FINAL DRY-RUN. Each delivers the full 5-7 min from memory + 3-min Q&A + me as external evaluator. NO interruptions during. Feedback after each round, 30 seconds hard stop. Stand where you are. Block 3 begins as soon as I draw order."*

3. LIVE APPLICATION — FULL FINAL DRY-RUN: FULL 5-7 MIN MONOLOGUE FROM MEMORY + 3-MIN Q&A; FROM PEERS + AMINA AS EXTERNAL EVALUATOR — 45 min — STAND

Function: ONE activity, 45 minutes, no format change. Each of the 3 students delivers the FULL 5-7 min Why Colombia monologue from memory + 3 minutes Q&A (questions from peers + Amina simulating the external evaluator from coordinación). NO interruptions during the monologue. NO interruptions during the Q&A. Feedback AFTER each full round: ONE strong move + ONE specific gap, 30 seconds hard stop. ~15 min per student × 3 = 45 min. This is the rehearsal of the Final itself.

Amina briefly puts on the external-evaluator frame to set the mood — *"I'm now sitting as if I am the coordinator from coordinación who you have not met. I do not know your topic. I will react as she reacts."* — but stays as Amina-coach for the 30-sec feedback after each round. This is NOT guest pattern (Amina never plays guest); it is a brief frame shift to raise the dry-run's pressure to Final-room level, then immediate return to coach.

(3 min) Setup

Amina at the front. The other 2 students seated, notebooks open for Q&A note-taking (they will ask 2-3 questions per round of the presenter).

> *"Three full dry-runs. Each of you delivers the FULL 5-7 minutes from memory. No notes. No paper. The first 30 seconds you sharpened in block 2 carries the room into the talk. The 60-sec spot you sharpened CI 33 sits inside pillar 1, 2, or 3. The close you sharpened CI 34 lands the last sentence. After the monologue: 3-second silence — I hold it. Then 3 minutes Q&A.; The other two peers ask 2 questions each as audience-real. I ask ONE question as the external evaluator from coordinación — a question SHE might ask. NO interruptions during the monologue. NO interruptions during the Q&A.; Feedback after each full round: ONE strong move + ONE specific gap, 30 seconds hard stop. Recovery: 30 seconds, water, sit. Next student up."*

> *"I do not stop you mid-monologue. I do not coach mid-Q&A.; If you blank, you recover and continue — that recovery is exactly what the external evaluator CI 36 will read. No notes is anti-fraud — the talk is yours. This is the dry-run. The room is the form. Two hours from this, the room is the Final."*

Draw order (~30 sec — student order random). Confirm: stopwatch on, ~7 min cap per monologue, ~3 min cap per Q&A.

(~15 min) ROUND 1 — Student 1 — full dry-run

Monologue (5-7 min): Student 1 stands at front. Amina starts stopwatch. The other 2 take notes for their Q&A questions. Amina notes (internal):

- Did the Set #27 entry verb LAND in second 1-3?
- Did the HOOK (CI 34 work) hold the room?
- Did the sharpened 60-sec spot (CI 33 work) sit cleanly inside its pillar?
- Did the Set #26 CLOSE verb land the final 15 sec (CI 34 work)?
- Where did "um" / "well" / "I think probably" colonize?
- Memory failure points: where did she blank? How did she recover?
- Time: 5-7 ideal, ~3-4 under-prepared, ~8+ rambling.

Stopwatch off at end. **3-sec silence — Amina holds it intentionally as the evaluator would.**

Q&A (~3 min, 4-5 questions total):

- Peer 1 asks ONE B2 question (audience-real, not a softball, not a trap).
- Peer 2 asks ONE B2 question.
- Amina as external evaluator asks ONE question — phrased as a coordinador-from-coordinación might (formal, sharp, possibly Round-2-skeptic or Round-3-honest-gap shape from CI 33's work). Example shapes:
 - *"You opened with 'I'd assert from the start.' Why ASSERT and not 'open'? What did you want the room to feel in second 2?"*
 - *"Your pillar 2 carried the sharpest claim. Defend it against a Colombian abroad who would say the opposite."*
 - *"Name ONE part of this argument you do not yet have a great answer for — be exact."*
- (~30 sec spare for one follow-up if Q&A; runs short.)

Student 1 answers each in ~40-50 sec. Amina watches: did she SHAPE-FIT the answers? Did she use Set #25 mid-answer precision verbs? Did she LAND each answer with a Set #26 verb?

(~30 sec feedback — HARD STOP at 30 sec): Amina names ONE strong move + ONE specific gap, in two sentences. Example: *"Strong: the Set #27 OPEN verb in second 1 carried the room — voice was chest-weighted, not throat. Gap: at minute 4 the 60-sec spot drifted back to the generic phrasing — SPECIFY was missing. That's the one to drill alone tonight."* Hard stop. Next.

(~60 sec recovery) Student 1 sits. Water. Brief silence.

(~15 min) ROUND 2 — Student 2 — full dry-run

Stopwatch reset. Stand. Full monologue 5-7 min from memory. 3-sec silence. 2 peer Q&A + 1 Amina-as-evaluator Q. 30-sec hard-stop feedback. 60-sec recovery.

Amina watches with FRESH eyes — what worked for Student 1 may not work for Student 2's topic. The external-evaluator question for Student 2 is DIFFERENT from Student 1's — Amina prepares 3 evaluator-shaped questions ahead (one per student, anchored in each topic) but adapts in the moment if the monologue revealed a different gap than expected.

(~15 min) ROUND 3 — Student 3 — full dry-run

Stopwatch reset. Stand. Full monologue 5-7 min from memory. 3-sec silence. 2 peer Q&A + 1 Amina-as-evaluator Q. 30-sec hard-stop feedback. 60-sec recovery.

Same discipline. Same intensity. By Round 3, the cohort has SEEN the rhythm twice — Student 3 delivers into a room that already knows the protocol, which means the room can listen MORE carefully. The peer questions for Student 3 should be SHARPER than for Student 1 — Amina notes if they are; if soft, she names it during her evaluator question: *"Peer questions softened across the three rounds — what did you skip asking? Bring it now as your follow-up."*

(~3 min) Closing reflection — STAND, semicircle

> *"Three full dry-runs. The closest thing in this room to what Cl 36 will be. Each in ONE sentence: what HELD in YOUR dry-run that you trust will hold in two hours of class + what you will personally drill tonight alone before sleep."*

3 × ~30 sec. No coaching here. Pure self-report. Amina internal notebook: who NAMED a real personal-drill target vs who substituted a comfortable one. If anyone substitutes, Amina names it in block 4 close — not now.

Brief silence (~10 sec). *"Sit. Block 4 closes the class — and closes the dedicated arc."*

4. CLOSE — ERROR PAPER · PHRASE CLOSE · PERSONAL PRE-FINAL ROUTINE (NO TURN-IN) · COHORT RETROSPECTIVE LIVE · CI 36 FRAMING — 15-20 min — SIT + NOTEBOOK

Function: consolidate the 95 minutes that just happened AND consolidate the 35-session arc. Recap the 3 most-common errors of the day (anonymous on board, named in personal notebook). Cohort SAYS the Phrase one last time + paraphrase. Hand the PERSONAL pre-Final routine (NOT homework, NOT turned in, NOT photographed — adapted for the night before a Final). Cohort retrospective LIVE — one word + 8-word clarifier per student, 30-sec hard stop. Cl 36 framing made explicit: external evaluator from coordinación, Amina NOT proctor, no guide for Cl 36, this is the last dedicated session.

(3 min) Error paper recap — ERROR PAPER SHEET ON DESK, ANONYMOUS

Amina reads the 3 most-common errors of the day from her internal notebook (NAMES in her notebook only, anonymous on the physical Error Paper sheet):

Cl 35 LIVE ERRORS — anonymous read

1. ■ Block 3 dry-run: "I opened with 'so, well, my topic is...' instead of the Set #27 verb I drilled in block 2."
→ ■ The first verb IS the Set #27 verb. "Let me open with —"
"I'd assert from the start —" "Let me claim the next six minutes for —" The evaluator reads second 2.
Justice day 5 = trust the reps.
2. ■ Block 3 dry-run: "The 60-sec sharpened spot (Cl 33 work) collapsed back to the generic phrasing inside pillar 2."
→ ■ Set #25 SPECIFY or CONTEXTUALIZE inside the spot.
"Let me specify — by 'cultural' I mean the daily-life layer." The shape is the work. Don't let the rehearsal drift in the dry-run — drift here lives at the Final too.
3. ■ Block 3 Q&A;: "I answered the question I rehearsed instead of the question the evaluator-frame Amina asked."
→ ■ Justice day 3 holds into day 5. SHAPE-FIT. Set #25 clarify or specify to enter the answer; Set #26 LAND or WRAP to close it. Two verbs, one answer.
The evaluator will ask what she asks, not what you prepped.

Cohort reads silently (~30 sec). Amina names the error each student personally hit (in her notebook), but DOES NOT name students publicly. Each student knows which one is hers because she lived it ~20 min ago. **[Insertion #5]** *"Justice day 5 — trust the reps and the form. These three errors are NOT a sign you're not ready. They are the data for tonight's personal drill. The reps are in your body. Tonight you find the body, you breathe, you let it speak."*

(2 min) Phrase close + paraphrase

1. (~40 sec) ONE student says the Phrase from memory WITH intonation.
2. (~40 sec) ANOTHER student paraphrases the Phrase in her own words for the cohort one last time (target shape: *"What we have practiced is what we will deliver — the form holds because the body knows the form."* — accept any honest paraphrase that holds the *trust the reps* idea).

3. (~40 sec) THIRD student names: "The Set #27 verb I commit to opening with in two hours of class at the Final is ____." Confirm — process, no grade.

(3 min) PERSONAL pre-Final routine — NOT homework, NOT turned in, NOT photographed

> *"Tonight is not homework. Tonight is a PERSONAL pre-Final routine. I do not collect anything tomorrow. I do not photograph. I do not check. This is yours — between you and your own preparation. Three things, in this order, before sleep."*

PERSONAL PRE-FINAL ROUTINE – TONIGHT (NOT turned in)

Total time: ~45 min – your own pace, your own room.

(1) LIGHT READING (10 min):

Open your own notebook. Read ONLY:

- The first 30 sec you wrote today in block 2 (out loud, 3x).
- The 60-sec sharpened spot from Cl 33 (out loud, 3x).
- The Set #26 close verb sentence from Cl 34 (out loud, 3x).

Three reps each. Voice up but conversational. Not stressed rehearsal – re-reading what your hand already wrote.

(2) ONE RECORDING OF YOUR OWN MONOLOGUE (10-12 min):

Stand in your room. Phone on a chair. Record yourself delivering the FULL 5-7 min monologue from memory.

ONE take. No retakes. You will NOT listen back tonight.

Save it for after the Final – that's the proof of the work.

Label: B2-AMINA-PERSONAL-PRE-FINAL (your initials).

(Single file, ~7 min. You do not turn this in.)

(3) SLEEP (the night IS the homework):

Phone off by 10:30 PM. No screen after the recording.

No mental rehearsal in bed – the body has the reps, the body will speak in the Final room. Sleep is when the reps consolidate. Tomorrow morning: water, light breakfast, the same voice you woke up with. Don't over-warm before the Final – five tongue twisters is enough.

> *"This is not collected. This is not graded. This is what the body needs the night before the room comes. Justice day 5 — trust the reps and the form. The reps are in the body. Let the body rest."*

(4 min) COHORT RETROSPECTIVE LIVE — 1 word + 8-word clarifier per student — 30-SEC HARD STOP

> *"Four minutes. Cohort retrospective. Each of you in turn: ONE word that names what this dedicated arc was for you + an EIGHT-word clarifier. Thirty seconds hard stop per student. I do not respond. I do not coach. I write your one-word on the board for archive. Then we move."*

Write on board the retrospective header:

COHORT RETROSPECTIVE – CL 31-35 (5 dedicated sessions)

ONE WORD + 8-WORD CLARIFIER – 30 sec hard stop

Each student delivers ONE word + 8-word clarifier in turn (~30 sec each = ~1.5 min for all 3). Examples of word + clarifier shape (NOT for Amina to suggest — for orientation only):

STUDENT 1: _____ ("I learned what my voice does under pressure.")

STUDENT 2: _____ ("Practice means I trust the body more now.")

STUDENT 3: _____ ("The form holds because the reps are deep.")

Amina writes the 3 one-words on the board for coordination archive. NO comments from Amina. NO reframing. Pure cohort voice.

(3-5 min) Cl 36 framing + closing — sit, semicircle

> *"Cl 36 framing — explicit. The Final is 30 June. Two hours of class away from this room right now. The Final is administered by the external coordinator from coordinación. I am NOT the proctor. I am NOT in the evaluator chair. I prepare you; coordinación evaluates. The voice that will read your monologue and ask your Q&A; is a voice you have not heard before. That is by design — anti-fraud, and so you cannot rehearse 'what Amina wants to hear.' You rehearse what the FORM asks for. Today's dry-run is the closest practice to that room. After today there is no more dedicated session — Cl 36 is the room, and the room is coordinación's room."*

> *"What you carry from this arc: five sets in your body — #22 bridge / #23 hold / #24 take the floor / #25 precision / #26 close — and today Set #27 entry CLOSES the system. 162 words. JUSTICE block Cl 31-35 closes here. Cl 36 opens FORTALEZA v2 day 1 but coordinación administers, not me."*

> *"Phrase one last time, all three of you, from memory, standing — read like you mean it because you have practiced it."*

(All 3 stand and chorus the Phrase 1x in unison.)

> *"Trust the reps. Trust the form. Sleep well tonight. I will see each of you in the room — not in the evaluator chair, but in the room. Two hours of class. Class dismissed."*

(Amina photographs the board — cohort retrospective 3 one-words + Phrase + Set #27 — for coordination archive.)

DELIVERABLES TO COORDINATION

- [] Printed report filled

- [] Photo of the board — Phrase + Set #27 (6 entry-with-authority verbs) + cohort retrospective 3 one-words
 - [] Anonymous Error Paper (physical, NOT photographed)
 - [] Personal notebook page: 3 literal errors + NAMES + literal quotes (block 3 dry-run Set #27 polite-filler entry OR sharpened-spot drift OR Q&A; rehearsed-answer substitution)
 - [] LIST of students who did NOT deliver the full 5-7 min monologue from memory in block 3 dry-run (under-time / blank not recovered / used hidden notes / shape drift > 30 sec / Set #27 entry missed) — feeds Diana's pre-Final brief to external evaluator
 - [] Count of Phrase of the Day natural insertions (target: 5 marked — #1 opener bridge, #2 Set #27 reveal, #3 block 2 stage B whisper, #4 block 2 rotation, #5 error paper recap)
 - [] Confirmation: CI 35 = JUSTICE V2 DAY 5 OF 5 CLOSED (block CI 31-35 closed)
 - [] Confirmation: CI 36 = 30/06 = external coordinator from coordinación applies (Amina NOT proctor); CI 36 NO Amina-guide generated; LAST dedicated session ends today
-

NOTAS INTERNAS (no leer en clase)

- **Mapa restante:** CI 35 hoy = ÚLTIMA sesión exclusiva. CI 36 30/06 = Final aplicado por evaluador externo de coordinación. **CI 36 NO se genera guía Amina — coordinación aplica.** Tras hoy no quedan exclusivas. Última clase con Amina termina hoy.
- **Virtud JUSTICIA v2 (CI 31-35) — CIERRE de bloque hoy:** día 1 "give each question what it's owed" → día 2 "voice not silence" → día 3 "shape not safer" → día 4 "give the room your LAST word" → día 5 HOY "trust the reps and the form." CI 36 abre FORTALEZA v2 día 1 pero sin guía Amina; coordinación administra.
- **3ra estudiante:** nombre pendiente confirmar Diana (Margie A. Acevedo o Angie L. López Capacho — no inventar). Guía reutilizable: NO nombres en cuerpo.
- **Set #27 ENTERING WITH AUTHORITY:** OPEN / STEP IN / CLAIM / ASSERT / PROJECT / COMMAND. Acumulado 162. **Set #27 CIERRA el sistema:** #22 bridge → #23 hold → #24 take floor → #25 precision mid-turn → #26 close turn → #27 entry-with-authority del PRIMER turno. Sistema completo a 2h del Final. Razón de #27 over INTERVIEW REGISTER: el Final es monólogo + Q&A; — la entrada al monólogo es la única móvil restante. Interview register sería redundante con Set #24 + Set #25 + Set #26 ya cubiertos.
- **Modelo inmersivo (Diana 18/06):** 4 bloques largos, no 13 cortos. CI 35 mantiene el formato CI 33+34. TODO integrado (VATS, vocab, vocalización, mystery, peer feedback, error paper, cohort retrospective) dentro de los 4 bloques. Cohort retrospective LIVE en bloque 4 (B1 CI 43 pattern adaptado: 1 palabra + clarifier 8 palabras + 30-sec hard stop).
- **Phase 5 ejecución bloque 3 = FULL FINAL DRY-RUN:** 3 monologues completos de memoria + 3-min Q&A; cada uno con Amina simulando brevemente al evaluador externo de coordinación. NO interruptions during. Feedback 30-sec hard stop entre rounds. ESTO es el ensayo del Final. Si alguien no llega (undershoot, blank sin recuperar, notas escondidas, Set #27 entry sin landing), libreta personal + nombre — feed a Diana para brief al evaluador externo pre-CI 36. NO comunicar evaluación a la estudiante.
- **CI 36 Final = evaluador externo de coordinación, NO Amina:** mencionado opener + bloque 3 setup + cierre bloque 4 explícitamente como "CI 36 framing." Memoria feedback_examen_final_otro_evaluador. **CI 36 NO se genera guía Amina.** Última clase con Amina termina hoy.
- **Amina como external-evaluator en bloque 3:** FRAME SHIFT BREVE (no guest pattern — Amina nunca juega guest). Amina pone marco "I'm now sitting as if I am the coordinator from coordinación" 30 segundos para subir presión a Final-room level, luego vuelve a coach inmediatamente para feedback 30-sec. Patrón guest observer se mantiene — el frame shift es meta-pedagógico, no guest activo.
- **NO traditional homework hoy:** sustitución intencional por PERSONAL pre-Final routine. Light reading + 1 recording propia (no se entrega) + sleep como tarea principal. Razón: la noche antes del Final, fragmentar 4 componentes saturaría sin beneficio; el cuerpo necesita descansar para consolidar reps. Diana 14/05 GoldList retirement filosofía aplica: menos depuración, más confianza en la voz ya entrenada.
- **Cohort retrospective bloque 4:** patrón B1 CI 43 adaptado (1 palabra + 8-word clarifier + 30-sec hard stop). Amina NO responde, NO coacha — sólo escribe en tablero. Cierre del arco de 35 sesiones por la voz cohorte, no por la voz profesora.
- **Supuesto (verificar Diana):** countdown ~2h al Final = sólo las 2h de CI 36 (sin CI 35 contadas porque hoy ES la última). Si Diana cuenta diferente, ajustar. La intención es transmitir inminencia sin dramatizar — "two hours of class away" sustituye "this is your last chance."
- **Frase del Día insertions:** 5 marcadas (#1 opener bridge, #2 Set #27 reveal, #3 stage B whisper, #4 rotation, #5 error paper recap) + chorus final unánime en cierre = 6 toques operativos sin contar chorus del opener.
- **Eventos INTEGRADOS** (Diana 31/05 + 10/06 + 18/06): sin _MARKER. Sin GoldList (retirado 14/05). Solo Frase del Día. Set #27 = vocab acumulativo y CIERRE del sistema. Cohort retrospective + CI 36 framing INTEGRADOS en bloque 4 (no eventos separados).
